Jeanne Soileau, a teacher in New Orleans and south Louisiana for more than forty years, examines how children's folklore, especially among African Americans, has changed. From the tumult of integration to the present, her experience afforded unique opportunities to observe children as they played. With integration in New Orleans during the 1960s, Soileau notes how children began to play with one another almost immediately. Children taught each other play routines, chants, jokes, jump-rope rhymes, cheers, taunts, and teases--all the folk games that happen in normal play on the street and playground. When adults--the judges and attorneys, the parents, and the politicians--haggled and shouted, children began to hold hands in a circle, fall down together to "Ring around the Rosie," and tease each other in new and creative ways. Children's ability to adapt can be seen not only in their response to social change, but in how they adopt and utilize pop culture and technology. Vast technological changes in the last third of the twentieth century influenced the way children sang, danced, played, and interacted. Soileau catalogs these changes and studies how games evolve and transform as much as they are preserved. She includes several topics of study: oral narratives and songs, jokes and tales, and teasing formulae gleaned from mostly African American sources. Because much of the field work took place on public school playgrounds, this body of oral narratives remains of particular interest to teachers, folklorists, linguists, and those who study play. In the end, Soileau shows that despite the restrictions of air-conditioning, shorter recess periods, ever-increasing hours of television watching, the growing popularity of video games, and carefully scripted after-school activities, many children in south Louisiana sustain traditional games. At the same time, they invent varied and clever new ones. As Soileau observes, children strive through their folk play to learn how to fit into a rapidly changing society. Unlike other motherhood books that focus on the experiences of a small group of affluent, married white women, *Who's Your Mama?* centers on the largely untold perspectives of the majority of American women, whose unique and sometimes unconventional family structures impact our country. Their contributions speak practically of their personal beliefs, intimate relationships, and socioeconomic realities. The book explores the intersection between motherhood and other facets of the contributors' lives, including race, class, sexuality, politics, and personal tragedy. Personal stories include a feminist juggling the roles of activist and mother, a college graduate who applies for welfare so she can remain home with her child, a gay couple's navigation of the adoption process, and a mother's celebration of her own vibrant sexuality. This collection of personal narratives will illuminate various female experiences of parenting and humanize a variety of social and economic issues that affect millions of American women and their families. What started off as random journaling of thoughts ended up being a published book released as a birthday present for her children. The book is written in a random manner with life lessons ranging from self-esteem, bad habits, addictions, snobbery, conflict, money, selfishness, greed, and codependent relationships through to family dramas. The author attempts to capture some important life lessons with a touch of humor and rawness that depicts the real-life dramas. Both pleasurable and painful life observations and experiences are unapologetically expressed with a rawness that does not coat it with sweet candy. Its about real life seen through the eyes of a mother going through a midlife crisis and questioning most things she had taken for granted. The messages are given as direct instructions to her children in second or third person voices and riddles. The messages are just as random as they entered the authors thoughts. This is a light read for both the middle aged and young, who are questioning a few things in their worldview. Like the philosopher in the book of Ecclesiastes, the author grapples with certain life issues until she finally realizes that she cannot fix the world and she gives up control. The forty-five-year-old author starts off by writing a letter to her thirteen-year-old self and ends the book with her modified version of the Ten Commandments and a futuristic letter to her eighty-five-year-old self. Illustrations and easy-to-read text twist classic "your mama" jokes into a celebration of the beauty, power, and love of motherhood. Hollywood's conversion to sound in the 1920s created an early peak in the film musical, following the immense success of The Jazz Singer. The opportunity to synchronize moving pictures with a soundtrack suited the musical in particular, since the heightened experience of song and dance drew attention to the novelty of the technological development. Until the near-collapse of the genre in the 1960s, the film musical enjoyed around thirty years of development, as landmarks such as The Wizard of Oz, Meet Me in St Louis, Singin' in the Rain, and Gigi showed the exciting possibilities of putting musicals on the silver screen. The Oxford Handbook of Musical Theatre Screen Adaptations traces how the genre of the stage-to-screen musical has evolved, starting with screen adaptations of operettas such as The Desert Song and Rio Rita, and looks at how the Hollywood studios in the 1930s exploited the publication of sheet music as part of their income. Numerous chapters examine specific screen adaptations in depth, including not only favorites such as Annie and Kiss Me, Kate but also some of the lesser-known titles like Li'l Abner and Roberta and problematic adaptations such as Carousel and Paint Your Wagon. Together, the chapters incite lively debates about the process of adapting Broadway for the big screen and provide models for future studies. "Word Magic" from the streets of the inner city This collection of real-life, faith-based stories comes from two diverse gender and cultural perspectives that show the hilarious yet painful emotional roller coaster of caring for an aging parent. These talented coauthors bring to life the ups and downs and the joys and sorrows of caring for, in this case, their mom. Though managing vastly different psychological and cognitive dynamics in their parents and varied support systems, their struggle is the same: how do we make life work for our aging parent?Journeying through their stories, readers will gain a glimpse into an intimate reality that the majority of us will face. It is not all pretty or warm or sentimental. It is often thankless, inconvenient, awkward, and abjectly uncomfortable. However, this book provides valuable yet hilarious lessons that can guide readers through their own journey with aging parents. Embracing humor and compassion, Ralph and Feager invite readers into this essential work that we cannot abdicate to social service agencies or the health care system. This title beautifully celebrates the strength and resilience of African American women of the past, charges those of influence to rebuild in this present age and challenges brown girls to invest for the future. It also encourages these women to embody the wealth penned on these pages in the form of empowering truth gained through experience and lifelong gleaning. Victoria Green offers a beautiful and vivid link to phenomenal African American women of past generations, candid advice for

living, and substance and style of profound prose, poetry, and intellectual discourse along with that of other emphatic leaders. "Originally published as 'The Dozens: a history of rap's mama.'" --Title page verso. The basic premise of this book is that most, if not all, of what we have been taught to believe is true, is not true or only half true. We blindly assume that what our mothers taught us about lying, paternity, religion, incest, nudity, pornography, and other subjects was right. This book states that a closer look at what was taught will reveal that "Your Mama Was Wrong". It says that lying is not always wrong. Sometimes it can be dangerous to tell the truth. When the slaves were being hhd by the "underground railroad", people lied in order to protect them. This book points out the fact that there are males, females and people who are neither male nor female. It also says that all religions are basically hearsay because they are founded upon what someone "said" was "said". All the sacred books were written by someone - usually male, who lived hundreds or thousands of years ago. The chapter on paternity shows how DNA testing can prove that "Your Mama Was Wrong" about who she said your father was. This chapter will prove to be very disturbing to many. There never has been a book written that challenges so many of society's views of right and wrong, true and false, fact and fiction.
