The set includes: Little House in the Big Woods, Little House on the Prairie, Farmer Boy, On the Banks of Plum Creek, By the Shores of Silver Lake, The Long Winter, Little Town on the Prairie, These Happy Golden Years, and The First Four Years. Little House in the Big Woods Wolves and panthers and bears roam the deep Wisconsin woods in the late 1870's. In those same woods, Laura lives with Pa and Ma, and her sisters, Mary and Baby Carrie, in a snug little house built of logs. Pa hunts and traps. Ma makes her own cheese and butter. All night long, the wind howls lonesomely, but Pa plays the fiddle and sings, keeping the family safe and cozy. Little House on the Prairie Pa Ingalls decides to sell the little log house, and the family sets out for Indian country! They travel from Wisconsin to Kansas, and there,

finally, Pa builds their little house on the prairie. Sometimes farm life is difficult, even dangerous, but Laura and her family are kept busy and are happy with the promise of their new life on the prairie. Farmer Boy While Laura Ingalls grows up in a little house on the western prairie, Almanzo Wilder is living on a big farm in New York State. Almanzo and his brother and sisters work at their chores from dawn to supper most days -- no matter what the weather. There is still time for fun, though, especially with the horses, which Almanzo loves more than anything. On the Banks of Plum Creek Laura's family's first home in Minnesota is made of sod, but Pa builds a clean new house made of sawed lumber beside Plum Creek. The money for materials will come from their first wheat crop. Then, just before the wheat is ready to harvest, a strange glittering cloud fills the sky, blocking out the sun. Soon millions of grasshoppers cover the field and everything on the farm. In a week's time, there is no wheat crop left at all. By the Shores of Silver Lake Pa Ingalls heads west to the unsettled wilderness of the Dakota Territory. When Ma, Mary, Laura, Carrie, and baby Grace join him, they become the first settlers in the town of De Smet. And Pa begins work on the first building in what will soon be a brand-new town on the shores of Silver Lake. The Long Winter The first terrible storm comes to the barren prairie in October. Then it snows almost without stopping until April. Snow has reached the rooftops, and no trains can get through with food or coal. The people of De Smet are starving, including Laura's family, who wonder how they're going to make it through this terrible winter. It is young Almanzo Wilder who finally understands what needs to be done. He must save the town, even if it means risking his own life. Little Town on the Prairie The long winter is over. With spring come socials, parties, and "Literaries." There is also work to be done. Laura spends many hours each day sewing shirts to help send Mary to a college for the blind. But in the evenings, Laura makes time for a new caller, Almanzo Wilder. These Happy Golden Years Laura is teaching school, and it's terrifying! Most of the students are taller than she is, and she must sleep away from home for the first time. Laura is miserable, but the money is needed to keep Mary in a college for the blind. And every Friday -- no matter what the weather -- Almanzo Wilder arrives to take Laura home to her family for the weekend. Laura and Almanzo are courting, and even though she's not yet sixteen, she knows that this is a time for new beginnings. The First Four Years Laura and Almanzo Wilder have just been married! Their life on a small prairie homestead begins with high hopes. But each year seems to bring unexpected disasters -- storms, sickness, fire, and unpaid debts. These first four years call for courage, strength, and a great deal of determination. Always, though, there is love, especially for the newest member of the family -- baby Rose. The New York Times bestselling author and star of Little House on the Prairie returns with a new hilarious and heartfelt memoir chronicling her journey from Hollywood to a ramshackle house in the Catskills during the COVID-19 pandemic. Known for her childhood role as Laura Ingalls Wilder on the classic NBC show Little House on the Prairie, Melissa Gilbert has spent nearly her entire life in Hollywood. From Dancing with the Stars to a turn in politics, she was always on the lookout for her next project. She just had no idea that her latest one would be completely life changing. When her husband introduces her to the wilds of rural Michigan, Melissa begins to fall back in love with nature. And when work takes them to New York, they find a rustic cottage in the Catskill Mountains to call home. But "rustic" is a generous description for the state of the house, requiring a lot of blood, sweat, and tears for the newlyweds to make habitable. When the pandemic descends on the world, it further nudges Melissa out of the spotlight and into the woods. She trades Botox treatments for DIY projects, power lunching for gardening and raising chickens, and soon her life is rediscovered anew in her own little house in the Catskills. Explores the language of the prairie. The Great Plains of the North American continent have dramatic seasons, intense colors, otherworldly thunderstorms, and epic winters. Denise Low has emerged as one of the most trusted writers of this region. With a balance of drama and finesse, she describes the juncture between the natural world and the human realm of literature. This is the next generation story from the Midwestern Ingalls family of Little House on the Prairie fame. Following the early years of Gene and Fern. The book offers a short history of their ancestors, the childhoods of both, how

they met, and finally their marriage which resulted in bringing eight children into the world. From the time they were wed until their older children began to leave home, they endured more tragedy and happiness than most couples do in a lifetime. The two managed through all of this all while raising eight kids in the ever-changing landscape of America of the 50s and 60s. Offering the first comparative study of 1920s' US and Canadian print cultures, 'Imagining Gender, Nation and Consumerism in Magazines of the 1920s' comparatively examines the highly influential 'Ladies' Home Journal' (1883-2014) and the often-overlooked 'Canadian Home Journal' (1905-1958). Firmly grounded in the latest advances in periodical studies, the book provides a timely contribution to the field in its presentation of a transferrable transnational approach to the study of magazines. While Canadian magazines have often been viewed, unflatteringly and inaccurately, as merely derivative of their American counterparts, Rachel Alexander asserts the value of an even-handed consideration of both. Such an approach acknowledges the complexity of these magazines as collaborative texts, cultural artefacts and commercial products, revealing that while these magazines shared certain commonalities, they functioned in differing - at times unexpected - ways. During the 1920s, both magazines were changing rapidly in response to technological modernity, altering gender economies and the burgeoning of consumer culture. 'Imagining Gender, Nation, and Consumerism in Magazines of the 1920s' explores the influences, tensions and interests that informed the magazines' construction of their audience of middle-class women as readers, consumers and citizens. In *The Prairie in Seed*, Dave Williams shows us how to identify wildflowers when they are out of bloom and, in particular, how to harvest their seeds. Without the flower color and shape as guides, it can be difficult to identify prairie plants. Imagine trying to distinguish between a simple prairie sunflower and an ox-eye sunflower with no flowers to look at! In this richly illustrated guide, Williams offers dormant plant identification information, seed descriptions, and advice on seed harvesting and cleaning for seventy-three of the most common wildflowers found in the tallgrass prairie. He includes photographs and descriptions of the plants in bloom and in seed to assist in finding them when you are ready to harvest. Each species description explains where the seeds are located on the plant, when seed ripening begins, and how many seeds each species produces, along with a photograph and approximate measurements of the actual seed. Finally, this guide provides assistance on how and when to hand-harvest seeds for each species, as well as some simple tips on seed cleaning. A family travels from the big woods of Wisconsin to a new home on the prairie, where they build a house, meet neighboring Indians, build a well, and fight a prairie fire. Barely a century ago a vast tallgrass prairie covered America's heartland. Bison, elk, coyotes, and bear roamed this wilderness. Hundreds of species of prairie plants supported an explosion of birds and insects, including hundreds of kinds of butterflies. By the early part of the twentieth century, however, the tallgrass prairie was gone, its rich soils converted to farms to feed a growing world population. Here, author Sneed B. Collard III tells the remarkable story of an effort to bring back part of the native tallgrass prairie. By following scientists who are working on the 8,000-acre Neal Smith National Wildlife Refuge in Iowa, readers will learn where the vision for a new prairie came from and how a dedicated group of scientists and volunteers is working to turn this vision into reality, from locating seeds of native prairie plants to using fire to drive out weeds to "bringing home" bison, elk, and one of the prairie's most spectacular butterflies, the Regal Fritillary. In this large-format book, noted photographer James R. Page explores one of nature's most beautiful and varied environments. Page traveled from his home in Saskatchewan through the Prairie provinces and south through the United States Prairie to Texas to photograph the splendor of the grasslands through the seasons. Here are summer's sunlit world of grass stalks and sky; autumn's early snow swirls; winter's coyotes sleeping in frosty grass; and spring's rattling winds and new green growth. The images in *Wild Prairie* find the essential in these timeless landscapes. Last seen in the 1880s, cougars (also known as pumas or mountain lions) are making a return to the plains regions of the Midwest. Their comeback, heralded by wildlife enthusiasts, has brought concern and questions to many. Will the people of the region make room for cougars? Can they survive the highly altered landscape of the Midwest? Is there a future for these intrepid pioneers if they head even farther east? Using GIS technology, and historical data, among many other methods, *Phantoms of the Prairie* takes readers on a virtual journey, showing how the cougar might move over the landscape with minimal human contact. Drawing on his years of research on cougars, John W. Laundré offers an overview of what has been, what is, and what might be regarding the return of cougars to their ancestral prairie

homeland. Biography of Cynthia Ann Parker captured by the Comanche Indians and mother of one of their last great war chiefs, Quanah. The first in-depth look at the spiritual path of legendary storyteller Laura Ingalls Wilder. With her extraordinary God-given pluck, the creator of the epic Little House series survived the harshness of frontier life—from the heartbreak of sudden crop losses to murderous storms to unrelenting loneliness. Yet in every season, Laura found strength through her relationship with God. Now, several generations later, Laura's insights about work and rest, trust in the face of hardship, and the value of faith are more relevant than ever. Through Laura's discerning newspaper pieces as an early advice columnist, interviews with people who knew her personally, and extensive investigation by Stephen Hines, we witness an authentic faith that comes not from pretending all is well but from growing through difficult times. With photos and authentic recipes from the Little House era, *A Prairie Girl's Faith* also opens a wider window into the lives of pioneers as it offers a revealing look at the beliefs, character, and culture into which Laura was born and grew to maturity. James Fenimore Cooper was a prolific and popular American writer of the first half of the 19th century. His historical romances of frontier and Indian life in the early American days created a unique form of American literature. *The Prairie* is the third novel written by him featuring Natty Bumppo, his fictitious frontier hero. Chronologically *The Prairie* is the fifth and final installment of the *Leatherstocking Tales*, though it was published before *The Pathfinder* and *The Deerslayer*. Bumppo is never called by his name, but is instead referred to as "the trapper" or "the old man". The novel depicts him in the final year of his life still proving helpful to people in distress on the American frontier. The ninth season of *Little House on the Prairie* was re-invented as *Little House: A New Beginning* after star Michael Landon decided to leave the series. (He continued to produce, direct and write for the show.) The first episode began with the departure of Landon's Pa Ingalls, who fell on hard economic times and moved his family to the city. He returned for just one harrowing two-parter, "Home Again," in which son Albert (Matthew Laborteaux) battled a morphine addiction. In Landon's absence, it was up to the other denizens of Walnut Grove to provide drama, and provide they did. The meddling, gossipy Harriet Oleson (Katherine MacGregor) played town villain, followed by her whiny adopted daughter Nancy (Allison Balson), who was annoying but never as deliciously wicked as her predecessor Nellie (Alison Arnglim, who makes a welcome guest appearance). Laura (Melissa Gilbert) is all grown up and living with husband Almanzo (Dean Butler) and their daughter Rose. The show also cast a pre-scandal Shannen Doherty as Jenny Wilder to fill the spunky young protagonist role vacated by Gilbert. *Little House* continued its run of darker stories in this season, from a crazed father (Robert Loggia) who shoots his daughter and wife to a suicide attempt by Jenny after her father dies, filling in other episodes with fluffy schmaltz featuring some of the other townsfolk (you know they're desperate when an entire show is about a wayward orangutan). The series also liked to feature outcasts teaching the town lessons in tolerance: in one case a circus midget can't get a job because of his looks, and a "wild boy" turns out just to be an abused mute. Despite its attempts to fill the void left by Pa and Ma Ingalls with new characters, however, the long-running series lost its spark without Landon and did not last after the ninth season. Vols. for 1853-56, 1877/78, 1882-84 include atlases. The Kansas prairie in 1878 is the setting for this mystery about a girl who gets a new stepmother—a woman who may not be what she appears. Ida Kate Deming lives on the Kansas prairie with her father. Once a lonely outpost, Hays City is now a bustling town where the twelve-year-old impatiently awaits the arrival of papa's mail-order bride. Ida Kate lost her beloved mother when she was ten. Now someone new will share their lives, along with the seemingly endless chores. And the best part is, Ida Kate will have a new mother and a new little brother, as well. But when Caroline Fairchild steps off the train, she doesn't look at all the way she described herself in her letters. Instead of being tall and thin, she's short. And her hair is the wrong color. And she definitely isn't allergic to cats. As Ida Kate races to uncover the truth before her father marries Caroline, a blizzard endangers her new family, and Ida Kate has to figure out where her true loyalties lie. This ebook includes a historical afterword. Small-space gardeners are a different breed and what they create can be magic! For seven years, Alison Arngrim played a wretched, scheming, selfish, lying, manipulative brat on one of TV history's most beloved series. Though millions of Little House on the Prairie viewers hated Nellie Oleson and her evil antics, Arngrim grew to love her character—and the freedom and confidence Nellie inspired in her. In Confessions of a Prairie Bitch, Arngrim describes growing up in Hollywood with her eccentric parents: Thor Arngrim, a talent manager to Liberace and others, whose appetite for publicity was insatiable, and legendary voice actress Norma MacMillan, who played both Gumby and Casper the Friendly Ghost. She recalls her most cherished and often wickedly funny moments behind the scenes of Little House: Michael Landon's "unsaintly" habit of not wearing underwear; how she and Melissa Gilbert (who played her TV nemesis, Laura Ingalls) became best friends and accidentally got drunk on rum cakes at 7-Eleven; and the only time she and Katherine MacGregor (who played Nellie's mom) appeared in public in costume, provoking a posse of elementary schoolgirls to attack them. Arngrim relays all this and more with biting wit, but she also bravely recounts her life's challenges: her struggle to survive a history of traumatic abuse, depression, and paralyzing shyness; the "secret" her father kept from her for twenty years; and the devastating loss of her "Little House husband" and best friend, Steve Tracy, to AIDS, which inspired her second career in social and political activism. Arngrim describes how Nellie Oleson taught her to be bold, daring, and determined, and how she is eternally grateful to have had the biggest little bitch on the prairie to show her the way.
