Octavio Paz and T. S. Eliot Dec 16 2021 "When the sixteen-year-old Octavio Paz (1914-1998) discovered *The Waste Land* in Spanish translation, it 'opened the doors of modern poetry'. The influence of T S Eliot would accompany Paz throughout his career, defining many of his key poems and pronouncements. Yet Paz's attitude towards his precursor was ambivalent. Boll's study is the first to trace the history of Paz's engagement with Eliot in Latin American and Spanish periodicals of the 1930s and 40s. It reveals the fault lines that run through the work of the dominant figure in recent Mexican letters. By positioning Eliot in a Latin American context, it also offers new perspectives on one of the capital figures of Anglo-American modernism."

History of the Inca Realm Mar 07 2021 *History of the Inca Realm*, by Maria Rostworowski de Diez Canseco, is a classic work of ethnohistorical research which has been both influential and provocative in the field of Andean prehistory. Rostworowski uses a great variety of published and unpublished documents and secondary works by Latin American, North American, and European scholars in fields including history, ethnology, archaeology, and ecology, to examine topics such as the mythical origins of the Incas, the expansion of the Inca state, the organization of Inca society, including the political role of women, the vast trading networks of the coastal merchants, and the causes of the disintegration of the Inca state in the face of a small force of Spaniards. At each step, Dr Rostworowski presents her own views, clearly and forcefully, along with those of other scholars, providing her readers with varied evidence from which to draw their own conclusions.

The Princeton Sourcebook in Comparative Literature Jun 10 2021 Key essays on comparative literature from the eighteenth century to today As comparative literature reshapes itself in today's globalizing age, it is essential for students and teachers to look deeply into the discipline's history and its present possibilities. *The Princeton Sourcebook in Comparative Literature* is a wide-ranging anthology of classic essays and important recent statements on the mission and methods of comparative literary studies. This pioneering collection brings together thirty-two pieces, from foundational statements by Herder, Madame de Staël, and Nietzsche to work by a range of the most influential comparatists writing today, including Lawrence Venuti, Gayatri Chakravorty Spivak, and Franco Moretti. Gathered here are manifestos and counterarguments, essays in definition, and debates on method by scholars and critics from the United States, Europe, Asia, Africa, and Latin America, giving a unique overview of comparative study in the words of some of its most important practitioners. With selections extending from the beginning of comparative study through the years of intensive theoretical inquiry and on to contemporary discussions of the world's literatures, *The Princeton Sourcebook in Comparative Literature* helps readers navigate a rapidly evolving discipline in a dramatically changing world.

The Siren and the Seashell Mar 19 2022 Octavio Paz has long been known for his brilliant essays as well as for his poetry. Through the essays, he has

sought to confront the tensions inherent in the conflict between art and society and to achieve a unity of their polarities. *The Siren and the Seashell* is a collection of Paz's essays, focusing on individual poets and on poetry in general. The first five poets he treats are Latin American: Sor Juana Inés de la Cruz, Rubén Darío, José Juan Tablada, Ramón López Velarde, and Alfonso Reyes. Then there are essays on Robert Frost, e. e. cummings, Saint-John Perse, Antonio Machado, and Jorge Guillén. Finally, there are Paz's reflections on the poetry of solitude and communion and the literature of Latin America. Each essay is more than Paz's impressions of one person or issue; each is the occasion for a wider discussion of cultural, historical, psychological, and philosophical themes. The essays were selected from Paz's writing between 1942 and 1965 and provide an overview of the development of his thinking and an exploration of the ideas central in his works.

Developments in Ceramic Materials Research Sep 01 2020 Ceramics are refractory, inorganic, and non-metallic materials. They can be divided into two classes: traditional and advanced. Traditional ceramics include clay products, silicate glass and cement; while advanced ceramics consist of carbides (SiC), pure oxides (Al₂O₃), nitrides (Si₃N₄), non-silicate glasses and many others. Ceramics offer many advantages compared to other materials. They are harder and stiffer than steel; more heat and corrosion resistant than metals or polymers; less dense than most metals and their alloys; and their raw materials are both plentiful and inexpensive. Ceramic materials display a wide range of properties which facilitate their use in many different product areas. This new book presents leading-edge research in this field from around the world.

Soldaat van Hitler Jul 11 2021 Kon men een soldaat van Hitler zijn en 'gewoon' soldaat blijven? Hoe was de Duitse soldaat bewapend en hoe werd hij geleid? Hoe was zijn contact met de burgers? Hoe beleefde hij de oorlog? En in welke mate was hij genazificeerd? Dit gedetailleerde overzichtswerk brengt alle facetten van het Duitse soldatenleven in oorlogstijd in kaart: de opleiding in de kazerne, de gevechtshandelingen, de tactieken, de materiële levensomstandigheden aan het front in verschillende delen van de wereld, de gezondheidszorg, de vrije tijd, de verlovten, de omgang met de burgers in bezet gebied enzovoort. Aan de hand van talrijke ooggetuigenverslagen wordt onderzocht wat het betekende om tijdens de Tweede Wereldoorlog in het Duitse leger te dienen. In deze veelzijdige studie worden voor het eerst heel wat pertinente vraagstukken over de Duitse krijgsmacht samengebracht. De auteur weerlegt onder meer de mythe van het apolitieke Duitse leger en wijst erop dat de Duitse soldaten, of ze nu bij de land-, zee- of luchtmacht hoorden, sterk geïndoctrineerd waren door de nazi-ideologie. In een uitvoerige bespreking van de oorlogsmisdaden wordt ook afgerekend met het idee van de 'schone', correcte Wehrmacht.

The Fiction of the Poet Aug 24 2022 Addressing all readers who value the beauty of language, Anna Balakian examines the work of five twentieth-century poets--Yeats, Valry, Rilke, Stevens, and Guilln--to show how the linguistic richness of the symbolist tradition continued well into the modern period. These writers, all of whom learned the poetry of language from Mallarm, compensated for the disappearance of metaphysical inclinations in early twentieth-century poetry by instituting a poetic fiction. Balakian finds the immersion of the "I" and its altered reflection in the work of art to be a common feature of their poetry, and explores how they replaced the conventional meaning of signifiers grown stale, such as the abused word "poet," which became musician, artist, dancer, acrobat, mime, tapestry weaver, rider of the earth and the skies. In the works of these poets, the symbol evolved into a selective system of communication that identified implicitly the realms of human dilemma in regard to time, space, place, and reality in an indifferent universe. Balakian explains how the poets made language posit the major problems of existence and survival through metaphors of transition and, with the polysemy of their discourse, spoke to each reader on his or her terms. Like a serial musical composition, this literary interpretation interweaves leitmotifs from one writer to another, creating a basic cohesion while revealing variations and transformations in their poetry. Prove It! May 29 2020 Inspire performance and prove your leadership impact Prove It! is the executive guide to improving organisational performance through the practice of evidence-based leadership. More than ever before, the world is demanding transparency and accountability from organisational leaders, and there is a growing push to hold leaders responsible for the performance of their organisation. Many executives panic at the thought of what transparency might reveal and how they might be held accountable, but others relish the opportunity to showcase their organisation's performance. The difference is in the leadership methodology. The best leaders already know how their organisation is performing, and that it has improved during their tenure - and they can prove it because they practise evidence-based leadership. This book offers a clear blueprint for building on your existing skills and performance management systems to build a truly high performance organisation. Just three personal leadership habits and three organisation-wide habits can transform your organisation into the powerhouse you know it can be. With a simple methodology and a focus on practical results, this book can help you: Set a strategic direction that really does inspire organisational excellence Gain a true picture of your organisation's performance Master the habits that help you lead a high-performance culture Improve your organisation objectively, measurably and quickly If an organisation can only be as good as its leadership, it's reasonable to place the burden of performance responsibility on those who make the decisions. A leader's job is to inspire, motivate and guide, and those who do it well are already raising the bar. Prove It! gives you a practical model for measurable, real-world results, starting today.

Alfonso Reyes and Spain Feb 06 2021 Alfonso Reyes, the great humanist and man of letters of contemporary Spanish America, began his literary career just before the outbreak of the Mexican Revolution of 1910. He spearheaded the radical shift in Mexico's cultural and philosophical orientation as a leading member of the famous "Athenaeum Generation." The crucial years of his literary formation, however, were those he spent in Spain (1914-1924). He arrived in Madrid unknown and unsure of his future. When he left, he had achieved both professional maturity and wide acclaim as a writer. This book has, as its basis, the remarkable correspondence between Reyes and some of the leading spirits of the Spanish intellectual world,

covering not only his years in Spain but also later exchanges of letters. Although Reyes always made it clear that he was a Mexican and a Spanish American, he became a full-fledged member of the closed aristocracy of Spanish literature. It was the most brilliant period in Spain's cultural history since the Golden Age, and it is richly represented here by Reyes' association with five of its most important figures: Miguel de Unamuno and Ramón del Valle-Inclán were of the great "Generation of 98"; among the younger writers were José Ortega y Gasset, essayist and philosopher; the Nobel poet Juan Ramón Jiménez; and Ramón Gómez de la Serna, a precursor of surrealism. Alfonso Reyes maintained lifelong friendships with these men, and their exchanges of letters are of a dual significance. They reveal how the years in Spain allowed Reyes to pursue his vocation independently, thereby prompting him to seek universal values. Coincidentally, they provide a unique glimpse into the inner world of those friends—and their dreams of a new Spain.

Promoting Healthy and Supportive Acoustic Environments: Going beyond the Quietness Dec 24 2019 This book gathers 14 original contributions published in an IJERPH Special Issue that deal with the perception of environmental sounds and how such sounds are likely to affect human quality of life and well-being and the experience of a place. The research focus over the years has been gradually shifting from treating sound simply as “noise” and something that cities should get rid of to a potential “resource” to promote and support community life in public spaces. Three main topics or “needs” to be addressed by researchers and practitioners emerged from this Special Issue: (1) the need to re-think “quietness” in cities as something that goes beyond the mere “pursuit of silence”, (2) the need to integrate additional contextual factors in the characterization and management of urban acoustic environments for public health, and (3) the need to consider the acoustic quality of indoor spaces as opposed to an outdoor-only perspective. The contributions collected in this book will hopefully trigger new questions and inform the agenda of future researchers and practitioners in the environmental acoustics domain.

Changing Fortunes Apr 20 2022 Two of the world's most pressing needs—biodiversity conservation and agricultural development in the Third World—are addressed in Karl S. Zimmerer's multidisciplinary investigation in geography. Zimmerer challenges current opinion by showing that the world-renowned diversity of crops grown in the Andes may not be as hopelessly endangered as is widely believed. He uses the lengthy history of small-scale farming by Indians in Peru, including contemporary practices and attitudes, to shed light on prospects for the future. During prolonged fieldwork among Peru's Quechua peasants and villagers in the mountains near Cuzco, Zimmerer found convincing evidence that much of the region's biodiversity is being skillfully conserved on a de facto basis, as has been true during centuries of tumultuous agrarian transitions. Diversity occurs unevenly, however, because of the inability of poorer Quechua farmers to plant the same variety as their well-off neighbors and because land use pressures differ in different locations. Social, political, and economic upheavals have accentuated the unevenness, and Zimmerer's geographical findings are all the more important as a result. Diversity is indeed at serious risk, but not necessarily for the same reasons that have been cited by others. The originality of this study is in its correlation of ecological conservation, ethnic expression, and economic development.

Wallace Stevens and the Symbolist Imagination Nov 15 2021 Michel Benamou's essays have established his reputation as a critical interpreter of Stevens' relation to the French poetic tradition. Mr. Benamou has now collected these essays in one volume, revising and expanding them, and has added a general introduction. He discusses, in turn, Stevens' affinities with and differences from Baudelaire, Laforgue, Mallarme, Apollinaire, the

Impressionists, and the Cubists. Originally published in 1972. The Bow and the Lyre Apr 08 2021 Octavio Paz presents his sustained reflections on the poetic phenomenon and on the place of poetry in history and in our personal lives.

Lives of the Poets May 09 2021 A stunning volume of epic breadth which connects the lives and works of over 300 English-language poets of the last 700 years. LIVES OF THE POETS traverses the landscapes of biography, form, cultural pressures and important historical moments to tell not just a history of English poetry, but the story of English as a language. 'Astonishing' New York Times. 'Deft critical judgements, lightness of touch, the ability both to examine minutely and to generalize boldly - this book is both a tonic and a continuing pleasure' Independent. 'A celebration of poetry in the shape of a history from Chaucer up to the present day. A book to put into the hands of any young man or woman beginning to be aware that poetry is the glory of our language' Scotsman. 'A masterly exercise of cogency and compression' Times Literary Supplement.

Neobaroque in the Americas Jun 29 2020 In a comparative and interdisciplinary analysis of modern and postmodern literature, film, art, and visual culture, Monika Kaup examines the twentieth century's recovery of the baroque within a hemispheric framework embracing North America, Latin America, and U.S. Latino/a culture. As "neobaroque" comes to the forefront of New World studies, attention to transcultural dynamics is overturning the traditional scholarship that confined the baroque to a specific period, class, and ideology in the seventeenth century. Reflecting on the rich, nonlinear genealogy of baroque expression, Neobaroque in the Americas envisions the baroque as an anti-proprietary expression that brings together seemingly disparate writers and artists and contributes to the new studies in global modernity.

Machu Picchu in Context Oct 14 2021 This book aims at integrating archaeology with science in order to provide additional information with respect to a traditional archaeological anthropological perspective. It sheds light on Incan culture, the relation between human frequentation and environmental changes, the Incan architecture in relation with Andean cosmivision using, for the first time, diverse technological and scientific approaches including LiDAR remote sensing, geophysics and radio carbon dating. A number of recent studies conducted by Polish, Italian and Peruvian scientific missions in Machu Picchu, Chachabamba and Cusco are presented and discussed.
