Parallel Thinking May 08 2021 Western thinking is failing because it was not designed to deal with change In this provocative masterpiece of creative thinking, Edward de Bono argues for a game-changing new way to think. For thousands of years we have followed the thinking system designed by the Greek philosophers Socrates, Plato and Aristotle, based on analysis and argument. But if we are to flourish in today's rapidly changing world we need to free our minds of these 'boxes' and embrace a more flexible and nimble model. Parallel Thinking is an invaluable insight into the word of creativity; de Bono unveils unique methods of brainstorming and

explains preconceived ideas of what creativity involves and is. This book is not about philosophy; it is about the practical (and parallel) thinking required to get things done in an ever-changing world.

In his first book Neil David Martin offers fresh and innovative thinking on the struggle to maximise performance in today's challenging business environment. "Experience is what you get when you don't get what you want. Fix the roof while the sun shines. Short statements make us think. Reality is often very different from how we might first perceive it. Neil's new book explains exactly why perspective is so important to business. Sharpen your thinking tools with "The Path to Perspective". [Six Thinking Hats \[videorecording\]](#) Apr 07 2021 YOUR SUCCESS IN BUSINESS DEPENDS ON HOW WELL YOU THINK Six Thinking Hats can help you think better-with its practical and uniquely positive approach to making decisions and exploring new ideas. It is an approach that thousands of business managers, educators, and government leaders around the world have already adopted with great success. "The main difficulty of thinking is confusion," writes Edward de Bono, long recognized as the foremost international authority on conceptual thinking and on the teaching of thinking as a skill. "We try to do too much at once. Emotions, information, logic, hope, and creativity all crowd in on us. It is like juggling with too many balls." The

solution? De Bono unscrambles the thinking process with his "six thinking hats": * WHITE HAT: neutral and objective, concerned with facts and figures * RED HAT: the emotional view * BLACK HAT: careful and cautious, the "devil's advocate" hat * YELLOW HAT: sunny and positive * GREEN HAT: associated with fertile growth, creativity, and new ideas * BLUE HAT: cool, the color of the sky, above everything else—the organizing hat Through case studies and real-life examples, Dr. de Bono reveals the often surprising ways in which deliberate role playing can make you a better thinker. He offers a powerfully simple tool that you—and your business, whether it's a start-up or a major corporation—can use to create a climate of clearer thinking, improved communication, and greater creativity. His book is an instructive and inspiring text for anyone who makes decisions, in business or in life.

Creatief denken Oct 13 2021 Van de hand van Edward de Bono, bestsellerauteur van onder meer Zes denkende hoofddeksels en Gym voor je geest, is er nu het allesoverkoepelende magnum opus: Creatief denken. Met dit boek wil hij ons aanzetten ons denken te vernieuwen. Veel conflicten en problemen van honger en oorlog tot onze eigen problemen thuis en op het werk blijven onopgelost. Niet omdat ze niet op te lossen zijn, maar doordat we ze al jaren- of eeuwenlang op dezelfde manier bekijken. We kunnen de oplossing eenvoudigweg nog niet bedenken. De Bono beschrijft in Creatief denken de ontwikkeling van ons denken, legt uit hoe ons brein werkt en reikt ons vervolgens simpele, praktische en effectieve technieken aan om creatief te denken. Enkele van deze technieken zijn bekend uit zijn vorige boeken, zoals het lateraal denken en de zes denkende hoofddeksels, andere zijn nieuw ontwikkeld. Met Creatief denken leggen we de denklaat een stuk hoger en leren we slimmer denken, waardoor we zowel op persoonlijk als op zakelijk niveau problemen creatiever oplossen en succesvoller worden. '
