Designing Adult Services: Strategies for Better Serving Your Community Jan 03 2021
Focusing on adult patrons ages 19 through senior citizens, this book explains how libraries
can best serve this busy portion of their community's population at different life stages and
foster experiences that are "worth the trip"—whether actual or virtual. • Helps librarians
make their libraries the go-to places in the community for both information and recreation •
Enables librarians to accurately analyze the demographics of their communities and identify
the services needed • Offers simple suggestions to help librarians with limited resources
provide age-appropriate services • Describes information and resources most likely needed
during each life stage, making it easier to target the audience for both programming and
publicity

Qualifications For Serving in The Gospel Jul 29 2020 Many want to serve the Lord in the
Gospel but are ignorant of the standards of God to qualify as a labourer in the Gospel. The
author shows from the Scriptures, who is qualified, the characteristics of the qualified and

examples of those who qualified. In this book, you will discover those qualifications that revolutionize the disciple's service to God in the Gospel and those stains in his service to God and Man that he must avoid being God's qualified workman in this generation. We send this book out with the prayer that the Lord would be pleased to use it to instruct His children about the protocol to qualify to serve God and a better understanding of His service in the Gospel Enterprise. May God bless you richly as you read.

Saving Souls, Serving Society Aug 30 2020 Recent years have seen unprecedented attention to faith-based institutions as agents of social change, spurred in part by cuts in public funding for social services and accompanied by controversy about the separation of church and state. The debate over faith-based initiatives has highlighted a small but growing segment of churches committed to both saving souls and serving society. What distinguishes faith-based from secular activism? How do religious organizations express their religious identity in the context of social services? How do faith-based service providers interpret the connection between spiritual methodologies and socioeconomic outcomes? How does faith motivate and give meaning to social ministry? Drawing on case studies of fifteen Philadelphia-area Protestant churches with active outreach, *Saving Souls, Serving Society* seeks to answer these and other pressing questions surrounding the religious dynamics of social ministry. While church-based programs often look similar to secular ones in terms of goods or services rendered, they may show significant differences in terms of motivations, desired outcomes, and interpretations of meaning. Church-based programs also differ from one another in terms of how they relate evangelism to their social outreach agenda. Heidi Rolland Unruh and Ronald J. Sider explore how churches navigate the tension between their spiritual mission and the constraints on evangelism in the context of social services. The authors examine the potential contribution of religious dynamics to social outcomes as well as the relationship between mission orientations and social capital. Unruh and Sider introduce a new vocabulary for describing the religious components and spiritual meanings embedded in social action, and provide a typology of faith-based organizations and programs. Their analysis yields a framework for Protestant mission orientations that makes room for the diverse ways that churches interrelate spiritual witness and social compassion. Based on their observations, the authors offer a constructive approach to church-state partnerships and provide a far more objective understanding of

faith-based social services than previously available.

Serving the Millennial Generation Nov 13 2021 "Higher education is on the cusp of a new enrollment boom. The U.S. Department of Education estimates that by 2012 total college enrollment will exceed 15.8 million students, an increase of more than 12 percent over the 2003 enrollment level. The bulk of this increase will consist of traditional-age students who are members of the Millennial generation (born after 1981). This generation of students and their attitudes, beliefs, and behaviors will require student affairs practitioners to adopt new learning and service strategies, rethink student development theories, and modify educational environments. It is the goal of this volume of *New Directions for Student Services* to give readers a foundation for understanding this newest generation of students and to offer suggestions on how to educate and serve them more effectively."--Page 4 of cover.

Serving the Present Age Dec 26 2022 Essential to Methodist revivalism was the personal conversion experience, which constituted the basis of salvation and church membership. Revivalism, maintains Airhart, was a distinctive form of piety and socialization that was critical in helping Methodists define who they were, colouring their understanding of how religion was to be experienced, practised, articulated, and cultivated. This revivalist piety, even more than doctrine or policy, was the identifying mark of Methodism in the nineteenth century. But, during the late Victorian era, the Methodist presentation of the religious life underwent a transformation. By 1925, when the Methodist Church was incorporated into the United Church of Canada, its most prominent leaders were espousing an approach to piety that was essentially, and sometimes explicitly, non-revivalist. The Methodist approach to personal religion changed during this transition and, significantly, Methodists increasingly became identified with social Christianity -- although experience remained a key aspect of their theology. There was also a growing tendency to associate revivalism with fundamentalism, a new religious development that used the Methodist language of conversion but was unappealing to Canadian Methodists. Airhart portrays the tensions between tradition and innovation through stories of the men and women who struggled to revitalize religion in an age when conventional social assumptions and institutions were being challenged by the ideals of the progressive movement. *Serving the Present Age* is an account of Canadian Methodist participation in a realignment of North American Protestantism which supporters believed would better enable them, in the words of a well-known Wesley hymn, "to serve the present age."

The Serving Church Jul 09 2021 You were made for something more. Deep inside you know it's true. Getting up, going to work, coming home, and going to bed isn't doing it for you. You long for a life that matters. What will people say about you when you're gone? Will they even notice that another cog in the corporate machine is missing? Will people instead talk about the difference you made in their lives? Will anyone say, "My life is better for having known her" or "I'd be so much worse off if he hadn't given of himself?" The path to significance and meaning isn't paved with dollars or fame. It's paved with sacrifice and humility. While some people make a difference through their own selfishness, at the expense of others, most of us can put aside our plans and ambitions and really make a difference, a difference that outlasts our lives, a difference that changes lives and affects generations. This book is for every Christian or Christian leader who serves in the church, wants to, or leads people who do. Do you know why you serve? What do you do when it's difficult to do what you know God is calling you to do? Can you really serve in the same church for the rest of your life? What about money? Should people who serve be paid? We'll discuss reasons for serving, the attitude to have, leadership, following, flexibility, being a part of a team, and much more. This is a unique book because the author isn't a Pastor or even paid staff. He's a regular guy who's been serving tirelessly for years and wants to share what he's learned with you. You can affect lives and eternities. Will you or will you stay comfortable on your couch affecting nothing? The choice is yours.

A Primer on Minority Serving Institutions May 07 2021 Minority Serving Institutions (MSIs)—specifically Historically Black Colleges and Universities (HBCUs), Tribal Colleges and Universities (TCUs), Hispanic-Serving Institutions (HSIs), and Asian American and Native American Pacific Islander-Serving Institutions (AANAPISIs)—have carved out a unique niche in the nation, serving the needs of low-income, underrepresented students of color. Covering foundational topics relating to MSIs, chapter authors explore how salient issues across the landscape of higher education play out within the MSI context. Undergirded by national data and key literature, *A Primer on Minority Serving Institutions* provides graduate students, scholars, and researchers a full picture of the work and contributions of MSIs and urges them to think about MSIs as part of the larger higher education landscape.

Youth-Serving Libraries in Japan, Russia, and the United States Jun 08 2021 In recent years, interest in International Librarianship has grown rapidly and will continue to grow as globalization influences education and librarianship. In countries around the world, public and school libraries have unique roles and their staffs collaborate across types of libraries to varying degrees. The essays in *Youth-Serving Libraries in Japan, Russia, and the United States* address the universal and culture-specific aspects of library services to children and teens in these three countries. This collection shows how libraries have developed in light of each country's political, educational, and social history. The chapters highlight unique collections and services within each country and also show how librarians deal with the challenges they encounter, both from within their culture as well as from outside—including natural disasters. This book will be of interest to youth-serving librarians around the world, library educators, and for those studying international and young adult librarianship.

Serving the Common Good Dec 14 2021 Serving the Common Good combines critical analysis and interpretation of theory and practice for higher education in Africa and in the West. It demonstrates the current urgent need to articulate an educational ideal relevant to the cultural, economic, political, and social problems of the twenty-first century. Utilizing Julius K. Nyerere's vision of education for the common good - a pragmatically balanced articulation of a postcolonial African perspective on higher education - Kiluba L. Nkulu emphasizes a human-centered approach to community and national development. Serving the Common Good offers a provocative and unique perspective on the state of higher education in Africa, and will be useful in courses on African Studies, Education and Society, Educational Foundations and Inquiry, Higher Education and Leadership, Political Economy, and Sociology.

Serving without sinking Dec 02 2020 Shows busy Christians how to serve joyfully, not wearily. Many of us are serving, and feel like we're sinking. We feel joyless, weary and burdened. John Hindley shows how Jesus was telling the truth when he offered people an "easy yoke"-a way of serving him that is joyful and liberating. He explains why serving is so often joyless-and how our identity in Christ changes everything. If you are serving, but sometimes feel as though you're sinking... you need this book! If you know someone who has burn out, or is heading in that direction... they need this book too. Serving with sinking... * Is written in a personal, warm, gospel-hearted style. * Encourages readers to see not only how they serve, but WHY they serve * Points Christians away from themselves and back to Jesus * Frees people from the burdens of joyless, duty-based serving

The Art of Serving with Happiness: Leadership and Success in the Art of Serving Nov 20 2019 *The Art of Serving with Happiness* It is a work that marks the path of those who wish to serve with excellence and make their work an opportunity to be happy and share it with others. The book covers the qualities that a servant must have, such as patience, care for the environment, kindness, integrity, desirable attitudes of the service, ethical characteristics, responsibility for businesses and institutional management, and, fundamentally, his behavior towards the user. The good servant is the one who acts preceded by principles and values, considers the service as an end, and favors its integral realization. In him, any citizen or user seeking guidance finds a committed servant, sensitive to their needs, receptive and attentive to their reasons, respectful and considerate of their situation. A user treated with kindness and respect will always find satisfaction and conformity and generate commitment and support attitudes towards companies. This era's hectic pace of life often leads the servant not to fulfill his goals and obligations with the best sense of service. This book guides you through relevant tips that help you achieve your purpose. A more humane servant dignifies his nature and his existence as a person.

Serving the Rule of International Maritime Law Apr 18 2022 International maritime law is far from inert, everyday international affairs constantly test existing law and, in many occasions, require its development. *Serving the Rule of International Maritime Law* is thus not limited to a description of the current state of the law, but contains innovative studies on current issues and events that are testing the present state of international maritime law. The book is intended as a *Liber Amicorum* to Professor David Joseph Attard. It celebrates his career in international law; he played a crucial role in establishing the IMO International Maritime Law Institute in 1988, the main purpose of which is to train lawyers in private and public international maritime law. Over the last twenty years he has continued to teach at the Institute and has played an important role in contributing to the work of international fora concerned with the development of international law. This work represents a close collaboration amongst practitioners and academics involved in the field of international maritime law including IMO Secretary-General Efthimios E. Mitropoulos, Judge Helmut Tuerk, Professor Francis Reynolds Q.C. and Patrick J.S. Griggs CBE. Part I contains general articles in international maritime law, Part II is dedicated to the law of the sea, and Part III is devoted to issues on shipping law. *Serving the Rule of International Maritime Law* is of great interest to professionals in the shipping industry as well as practitioners,

academics and students.

Serving the Lord: The Book of James Jun 20 2022 No matter where you are on your faith journey, you are invited to kick it up a notch with *Serving the Lord*, an evangelical Bible study guide on the book of James. There is no better way to grow in spiritual maturity than faithfully serving God and His people, and no better example of a devoted servant than James, the brother of Jesus. James makes it clear that serving the Lord means putting faith into action in tangible ways that produce healthy fruit. Faith that consists merely of good intentions or intellectual assent is incomplete or dead. Authentic faith always produces evidence of holy living and good deeds by the grace and power of the Holy Spirit, such as: • Mercy ministry to the poor • Protecting the defenseless • Rejecting worldliness • Praying for the sick ... and much, much more. Christians are to let all kinds of trials become tests that strengthen their faith and yield righteous works—not to earn salvation but to give evidence of it. The result is spiritual perseverance that leads to eternal glory. It may not make sense to the rest of the world, but believers count troubles as pure joy because in Christ their troubles ultimately have a redemptive purpose. Today is the day to see for yourself what a practical difference *Serving the Lord* can make in your walk with God.

The Power of Serving Others Nov 25 2022 This book is about changing our world. It's not about a revolution, but it is revolutionary. It's about serving others--looking at others as people who could use a hand. It's about looking at our hands and realizing that they already contain what others need. This book starts with some assumptions--mainly that people

really do want to help one another and make the world better, but they often don't know how to do it. It also assumes that people are looking for meaning and significance in their lives, but they don't know how to find them. They've tried accumulating wealth, tried increasing excitement, tried exercising authority, but those attempts left them empty.
