In Over rouw, het boek dat Elisabeth Kübler-Ross kort voor haar dood voltooidde, gaan zij en haar coauteur David Kessler dieper in op de vijf stadia van rouwverwerking om mensen die om welke reden dan ook rouwen, te laten zien hoe ze de moed kunnen vinden hun leven voort te zetten. De auteurs schrijven over onder andere verdriet, dromen, isolatie, genezing, kinderen, en zelfs seks, en laten zien hoe het rouwproces het rouwen niet alleen zin, maar ook een helende kracht kan verlenen. This solo edition includes only the main author's material plus added bonus chapters not found in the original edition. Honestly, I'm reading it again because it had so much information. It's deep and embodies so many aspects of spirituality. That's what I enjoyed the most about it. It's different because of that. Everything around spirituality, books, usually focus on only one or two areas. I think back to that time when I was desperately seeking answers and had no one around me to ask or talk to about this. If your book would have been available, wow, a game-changer. I can't tell you how many books I've read, especially when I was desperately seeking out everything and anything that talks about universal beliefs, all of it. Many things were, well, a waste of time. Then I would find a book which is a gold nugget. That's what makes your book amazing. You've covered so many things around this that even if only a few things resonate with a reader, you've given that person a trail and a path to follow. At work, they oversee every detail of every project and expect nothing less than perfection from their coworkers. At home, they obsess over finding the "right" person. Then, they criticize their lover or spouse for doing everything wrong. As parents, they practice zero tolerance for their children's preferred study practices, choice of friends, dress choices, and differing life views. Sound familiar? Everyone knows the type: micromanagers, nitpickers, and domestic despots. Yet, most people fail to recognize the signs of a compulsion to control in themselves-or realize the toll of their behavior on their career, their family, their friendships, and their own happiness. In *Losing Control, Finding Serenity: How the Need to Control Hurts Us and How to Let It Go* (Ebb and Flow Press, 2011) Daniel Miller pinpoints the dangers of excessive control, which goes far beyond setting limits and standards, in all aspects of life. What's more, he shows those who feel the pressure to control how to break free and reap unexpected gifts. Sharing his journey of transformation, Miller reveals what happened when he finally decided to "surrender": his blinders fell away, new opportunities emerged, and he experienced unprecedented, profound inner peace. Drawing on psychological insights, spiritual wisdom, and the real-life stories of acknowledged "control freaks," *Losing Control, Finding Serenity* guides readers through an honest inventory of their control patterns-whether prodding, cajoling, withdrawing, playing the martyr, or intimidating-down to the roots. As most controllers will discover, their compulsion to control is provoked by deep-seated fear, anxieties, and insecurities, then aggravated by anger and resentments. Filled with enlightening true stories, *Losing Control, Finding Serenity* gives readers the knowledge, the courage, the strategies, and the "decontrol" tools to: *Identify and overcome the control triggers of fear, anger, and resentment. *Avoid

avoidance, with techniques for overcoming procrastination and reassuring exercises for resisting the urge to withdraw from loved ones. *Become a less domineering parent, build a family democracy, and reduce the struggles with children. *Find and keep the right person by accepting who he or she is rather than trying to change their romantic partner. *Delegate to and trust coworkers to reap increases in productivity, efficiency, and job satisfaction-and reduce conflict and dissension. *Learn to be patient and calmly accept "what is," even when adversity strikes, to enjoy a more fulfilling and serene life. * Pursue your passions and achieve greater life balance in a chaotic, unpredictable world that's frequently beyond anyone's control

Losing Control, Finding Serenity offers welcome encouragement and validation for going with the flow of life as it is: an ongoing, every changing mystery. Find out how losing control really means gaining control! Informed by Winston Churchill's famous metaphor, successive British governments have shaped their foreign policy thinking around the belief that Britain's overseas interests lie in three interlocking 'circles': in Europe, in the Commonwealth, and in the 'special relationship' across the Atlantic. Recent administrations may have updated the language in terms of 'bridges', 'hubs' and 'networks', but the notion of Britain as somehow at the centre of things remains a vital idea. In this updated edition of a classic text, David Sanders and David Patrick Houghton examine British foreign policy since 1945 through the prism of these three circles. Taking account of major developments from the ending of the Cold War, through 9/11 and the so-called War on Terror, to Britain's historic decision to leave the European Union, it provides a masterly account of Britain's changing place in the world and of the policy calculations and deeper structural factors that help explain changes in strategy. Combining chronological narrative with careful consideration of the main theories of foreign policy analysis and international relations, this book provide a reliable and comprehensive introduction to the evolution of British external policy, including economic and defence policy, in the postwar period. Characterized by its accessible style and depth of analysis, and now fully updated in line with 21st century developments, Losing an Empire, Finding a Role will remain an invaluable guide to British foreign policy for students of international relations or foreign policy at any level.

New to this Edition: - Updated coverage of events, including 'the War on Terror' and Brexit - Reformulated analysis to cover the updates in scholarship

A Christian guide to grieving and healing after the suicide of a loved one, written from a personal perspective. In Finding Peace After a Suicide Loss, Elaine Kennelly shares the story of her eighteen-year-old son's tragic death, opening up about the shattering blow and immediate anguish. Written in a format of then and now, the book courageously tackles the spiritual battles which face every suicide survivor: guilt, shame, rejection, blame, and stigma. The book is also not afraid to ask the question, "Why God? Why?" It took years for Elaine to start moving forward. Even then, her journey was made in baby-steps of love, prayer, forgiveness, obedience, and service. But there is victory to celebrate, as Finding Peace After a Suicide Loss shows the way to joy, real joy in a marriage that stays intact and a family that's close at hand. Overcoming a suicide loss is possible — let Finding Peace After a Suicide Loss show you how.

In De vluchtelingen geeft Viet Thanh Nguyen een stem aan alle mensen die zich tussen twee werelden bevinden, tussen het geadopteerde vaderland en het geboorteland. Nguyen vertelt ons onder meer over een jonge Vietnamese vluchteling die een ernstige cultuurschok oploopt als hij met twee homoseksuele mannen in San Francisco gaat wonen, over een vrouw wier man aan dementie lijdt en haar begint te verwarren met een vroegere geliefde, en over een meisje in Ho Chi Minh Stad van wie het oudere halfzusje terugkomt uit Amerika en schijnbaar alles heeft bereikt wat zij nooit zal doen. 'Everything' is a euphemism for "the man who is everything," and the true story about a woman's journey through loss, to recovery and finally, to victory - it's the author's personal story. It recounts the events of a spiritual voyage that began with a love relationship and an introduction to God through a man who greatly impacted her thoughts, beliefs and emotions, and made her question everything about herself and her approach to love. The story takes us through this intimate journey that sees many highs and lows as the relationships she experiences with both a man and God dramatically changes. The reader is given an opportunity to travel through this very truthful account of her emotional struggles with maintaining her identity, worth and value as an individual, but more importantly, with finding her place as a woman in Christ. We witness raw emotion and human frailty with the dramatic end of her relationship with Everything, and the adversity and testing that comes with dealing with the loss and sense of rejection. The climatic end, however, gives birth to a new beginning that sees her relationship with God grow and deepen to a greater understanding of the true meaning of unconditional love. Everything is filled with honesty at its painful best, and touching moments that will encourage and empower anyone who has ever been caught up in the wrong relationship. It speaks to the hearts of both men and women and excludes no one with its universal message of faith in love. There's hope here and we walk away with a sense of empathy, knowing that we're not alone either in our quest for our own "Everything" or our need for the supernatural love that can only come from the Greatest Love of All

Losing My Voice and Finding Another is a language learner narrative, a personal account of the author's experiences from 2003 to 2010, when he moved from the United States to Germany at the age of 53 and began to learn German. The book is written for adults who are trying to learn a second language and for language teachers who want to learn about the emotional and social aspects of second language learning. "In this book, Cooper Thompson examines the array of emotions while learning German: anxiety, excitement, anger, hope, contentment, confusion, and joy. He also probes the far deeper changes that language learning wrought in his identity, personality, relationship, and even life-purpose. When I read his words, my own world was altered. I entered a new dimension and gained fresh insights about the substance and the soul of language learning, even though I have been in the language field for decades." Dr. Rebecca Oxford, leading L2 and ESL scholar

Chrystie Cole Author of Redeeming Sexuality and A Woman's Words In this lively, challenging book, Brett Hoover says that the typical young-adult loss of faith is a necessary part of maturing spirituality: faith can grow only when religion is doubted, lost, and found again in a new light. Using the metaphor of a road trip, Hoover describes the lifelong process of discovering both God and self. "Losing your religion" is just one necessary obstacle on the road to a holistic spirituality. The pursuit of one's own treasure is the key to fulfilling his or her dreams and goals in life. Have you ever experienced a life-changing event? Have you had your heart broken? Have you questioned if you would ever find true love? These are questions that have plagued me most of my life. Life-changing events, such as finding a new job, getting married, having children, getting a divorce, losing a job, losing a friend or family member are things that happen to all of us at some point during our lives. How we view and handle these life changes is the key to our survival. But the real question is how does one get through a life changing event? I can tell you it's not easy. But with help from family, friends and lots of prayer, one can discover that one of the most important things in life is finding love. At one time, I thought I had reached the top of the mountain in my personal life, and then suddenly it all came tumbling down. I have experienced several life-changing events since that time; divorce, loss of a friend, loss of jobs. The pain was devastating to me as well as my family and at that point I didn't know how or if we would get through it. One morning as I was looking out my window, I started searching for the answers to some of the questions that were bouncing around in my head. I had spent several sleepless nights lying in bed wondering why this was happening to me. At first, I started writing down my feelings. They were just random thoughts with very little meaning at this point. Many of them were related to the "why" questions. I knew and felt I was searching for an answer to something. This is when I started writing what I called "expressions." These random thoughts were first put down as an outline or a particular feeling I had at that point in my life. They soon became the glue or stability in my life that helped me cope with each traumatic situation. For me, these expressions served as an outlet to recognize what was most important in my life and also made me realize that finding true love is possible, if only you open your heart and be patient. I have compiled a collection of my expressions in a book titled Expressions of Love in which I would like to share with my readers. Each expression defines my thoughts, feelings, and continued journey of finding true love. Each of the five sections is designed to evoke thought and guide you as you are confronted with life's challenges. Although this book refers directly to "love" circumstances, it can also be applied to the other challenges in life such as loss of family member or friend and even loss of a job. My hope is that these expressions will serve as an inspiration for those who have experienced the confusion, pain and challenges of life and love. Read each expression with an open heart and open mind. Allow them to guide you through your journey in search of finding your own true love. This Road I Ride is the remarkable story of one woman's solo journey around the world by bicycle. Juliana Buhring had been mired in a dark hole of depression after the death of a man she loved, and when an acquaintance suggested they honor his memory by biking across Canada, she thought, "Canada? Why not the world?" And why not alone. She had never seriously ridden a bicycle before. She had no athletic experience or

corporate sponsorship, but with just eight months of preparation, Juliana Buhring departed from Naples, Italy, in July 2012 aiming to become the first woman to circumnavigate the globe. She set out believing she might not ever return, but that she had nothing to lose. Over 152 days, Juliana's ride spanned four continents and 18,060 miles. She traversed small-town and big-mountain America, Australian desert expanses, South Asian rainforests and villages, and Turkish plains. She suffered innumerable breakdowns, severe food poisoning, hostile pursuers, and the international longing for a good Italian espresso. When she crossed the finish line into Naples before the end of the year, she officially became the fastest woman to cycle the world (beating prior men's records, to boot). Accomplishing what she never thought she could, buoyed by the outpouring of support from friends and strangers, Juliana rediscovered herself. In the process she proved that there are no extraordinary people—there are only people who decide to do extraordinary things. No matter what you do, you cannot stop God from loving you!

Founded in fieldwork and reflection, *Lost Places* follows the author from small towns and rural landscapes, through a transitional city neighborhood, to the challenging construction of an urban renewal loft, as she struggles to renovate living spaces and transform relationships after an early divorce. In a voice droll and lyrical by turns, Hankla charts a path through enigmatic encounters with snakes and contemplations of Thomas Jefferson's problematic biography homes, underground and ancient cities, Star Trek, the contradictory nature of Appalachia, desire, our families, spiritual callings, and definitions of home. The title essay offers an extended meditation on "the center place," Chaco Culture, cradle of pueblo civilization in northwest New Mexico, its talismanic beckoning and interpretative layers. Embracing the tradition of contemplative labyrinths, one woman wanders her path, pumping toward then away from the heart, revealing her perception of reality as circuitous, continuous, and essentially non-rational and sensory. Hankla invites us to seek deeper understandings and connections with our own inner landscapes and the earth itself. In reading this memoir, we engage with a writer's mind at work on the world and experience how the world works on the writer, as Hankla confronts and traces, with an abundance of faith and curiosity, her own and our collective spirals of consciousness and desire, which repeat and expand through time.
