Until now, discographies of pre-World War II country music recordings were only to be found scattered in journals and fanzines, or in books devoted to single artists. With primary research based on files and session logs from record companies, interviews with surviving musicians, as well as the 200,000 recordings archived at the Country Music Hall of Fame and Museum's Frist Library and Archives, this notable work is the first compendium to accurately report the key details behind all the recording sessions of country music during the pre-World War II era. In doing so it tells the commercial

story of the music's first two decades. From the first recordings of country music, this discography documents--in alphabetical order by artist--every commercial country music recording, including unreleased sides, and indicates, as completely as possible, the musicians playing at every session, as well as instrumentation. This massive undertaking encompasses 2,500 artists, 5,000 session musicians, and 10,000 songs. An introduction explains how to use the book, research methodology, and editorial policy; summary histories of each key record company are also provided, along with a bibliography. The discography includes indexes to all song titles and musicians listed. Country Music Records is an indispensable resource for anyone seriously interested in early country music recordings. In the spring of 1966, while the war in Vietnam was still popular, the US military decided to reactivate the 9th Infantry Division as part of the military build-up. Across the nation, farm boys from the Midwest, surfers from California and city-slickers from Cleveland opened their mail to find greetings from Uncle Sam. Most American soldiers of the Vietnam era trickled into the war zone as individual replacements for men who had become casualties or had rotated home. Charlie Company was different as part of the only division raised, drafted and trained for service. From draft to the battlefields of South Vietnam, this is the unvarnished truth from the fear of death to the chaos of battle, told almost entirely through the recollections of the men themselves. This is their story, the story of young draftees who had done everything that their nation had asked of them and had received so little in return – lost faces of a distant war. American Motorcyclist magazine, the official journal of the American Motorcyclist Association, tells the stories of the people who make motorcycling the sport that it is. Sarawak has a very diverse population comprising of many races and ethnic groups. Among the ethnic groups, the Orang Ulu (meaning upriver people) include the major Kayan and Kenyah, and the minor group like the Penans. The Penans are the original nomadic people; some of them still maintain the lifestyle of hunter and gatherer. The narration of this book is not meant to be an anthropological study of the Penans of Apoh-Tutoh, Baram. The subjects are more of general interest to common people as they are a mix of historical events recalled by the elders, storytelling and tall tales. It started with the Penan settlements at Lapok, Tinjar and the migration to Apoh-Tutoh. The role of the Penans as proxy warriors in the Kayan-Berawan tribal wars was explored as continued with the history of head hunting and Baram Regatta. The White Rajahs and their punitive expeditions (Lang, Sadok and Kayan) against the Sea Dayak of Saribas and Skrang, Rentap, the Kayans of Rajang and peace making are described to give perspective to the Baram Regatta and peace-making ceremony. However, there is increasing number of the Penans who have abandoned the nomadic lifestyle for settlements in longhouses. Hence, the Penans face the dilemma of a semi-settled lifestyle and changes due to development such as disappearing cultural heritage (sign sticks "oroo" and traditional dance "saryau titut"), lost generation (school dropouts, teenage mother, marriage with outsiders, sexual violence and exploitation and alcoholism), forestry issues and the disappearing Penan Landscape

(“Tana’ Pengurip Penan”). Although this book is a work of fiction, it is based on actual events. John Gross lived through those events. He commanded a mechanized infantry company that fought in Bien Hoa City on the first day of the Tet Offensive. I was one of his soldiers that day. He has an insider's understanding of the Vietnam War, but he also has a wonderful facility for making it understandable to the average reader. David T.
