One of the most unusual decisions of the leaders of the French Revolution - and one that had immense practical as well as symbolic impact - was to abandon customarily-accepted ways of calculating date and time to create a Revolutionary calendar. The experiment lasted from 1793 to 1805, and prompted all sorts of questions about the nature of time, ways of measuring it and its relationship to individual, community, communication and creative life. This study traces the course of the Revolutionary Calendar, from its cultural origins to its decline and fall. Tracing the parallel stories of the calendar and the literary genius of its creator, Sylvain Maréchal, from the Enlightenment to the Napoleonic era, Sanja Perovic reconsiders the status of the French Revolution as the purported 'origin' of modernity, the modern experience of time, and the relationship between the imagination and political action. THE SEVENTH DAY was inspired by actual events and their resulting, recurring nightmares. " Skyla could not—would not—believe that she was meant to lead a mystical life. The plane was taking off and leaving the imaginary world behind. " But the magical world had never been interested in leaving Skyla Jane Judge alone and would not start now. Bound for her home in New England, 21-year-old Skyla Jane Judge is leaving behind the " den " where she found acceptance and the promise of eternal love and enlightenment in New Orleans. Confused about who she really is, she hopes that a return to her roots will provide her with some direction and help to ground her again. But den leader Steve has other plans. When he pays a call on her after a mysterious trip to the Louisiana Bayou, he proposes a destiny far more grand than the simple one she ' s come home in search of. Skyla ultimately must look deep into her soul for answers, and what she finds opens the door to a fate that exceeds her wildest imaginings. Jonothon Wyer trembled beneath his desk as the sirens blared

their dreaded warning: Magic is coming! His entire life, he had been told to fear the wizards from across the Dawn, but never did his small town expect to be the epicenter of the next world war of machines against magic! Sickly and friendless, Jono's only hope was to enlist into the mechanized army of the Dark End. He was promised that machines will make him strong enough to be the hero he read about in books. Jono never questioned his fate until his discovery of an ancient relic revealed that a wizard was living with them all along! What is a true hero to do, when good and evil depended on which side of the border you were born? Caught between the politics, prophecy and prejudice of a fantastical world drowning in fear, Jono must dare to question everything he was raised to believe in order to prevent the key to controlling the sun itself from falling into the wrong hands. As living shadows of the Dark Empress hunt to gain the key's terrible power and the Sage of Ages rallies spell-casting knights to prepare for war, Jono must race for answers across a planet mired in a rusting history, from the shimmering towers of Caer Midus to the dank caverns of the Windom Academy. With the help of a chipper mechgineer and a chemix caster, Jono must use all his wit and courage to reveal the horrible truth that lurks behind the mask of blind faith before the stories both sides tell themselves lead to their own destruction.
