Figli della Bruma Aug 22 2020 Children of the Mists is a story of enduring love. Set in the 1800s, life on Sardinia had barely changed since the time of the Caesars. Two families, the Sannas and the Canus, are united by friendship and honour; love and laughter; joy and promises; omens and superstitions; youth and experience transcend generations. However, for Raffaella and Antonio, their passionate love becomes entangled with revenge. Death changes devotion. Promises are forgotten. Vendettas cannot be ignored. Ambition clouds judgments. Antonio and

Raffaella were promised to each other, nothing would keep them apart, not even family. Committed to each other, they fight for their love against all odds... Children of the Mists is a gripping journey back in time that will make the perfect addition to any romance lover's collection.

Credibility in Court May 31 2021 This study analyses courtroom communicative practices in the trials of an Italian criminal organisation.

Empire of Souls Jan 15 2020 Robert Bellarmine was one of the pillars of post-Reformation Catholicism: he was a celebrated theologian and a highly ranked member of the Congregations of the Inquisition and of the Index, the censor in charge of the Galileo affair. Bellarmine was also one of the most original political theorists of his time, and he participated directly in many of the political conflicts that agitated Europe between the end of the sixteenth and the beginning of the seventeenth century. Stefania Tutino offers the first full-length study of the impact of Bellarmine's theory of the potestas indirecta in early modern Europe. Following the reactions to Bellarmine's theory across national and confessional boundaries, this book explores some of the most crucial political and theological knots in the history of post-Reformation Europe, from the controversy over the Oath of Allegiance to the battle over the Interdetto in Venice. The book sets those political and religious controversies against the background of the theological and institutional developments of the post-Tridentine Catholic Church. By examining the violent and at times surprising controversies originated by Bellarmine's theory, this book challenges some of the traditional assumptions regarding the theological shape of post-Tridentine Catholicism; it offers a fresh perspective on the centrality of the links between confessional affiliation and political allegiance in the development of the modern nation-states; and it contributes to our understanding of the development of 'modern' notions of power and authority.
