The famous final episode of the Neon Genesis Evangelion anime TV show imagined the show's main characters in an alternate world where friendship and romance could be as important as their task to pilot the Evangelion. That premise forms the storyline of Neon Genesis Evangelion: The Shinji Ikari Raising Project! Stunning, hot-headed Asuka Langley Soryu has been friends with Shinji Ikari since they were little. And she always sort of assumed they'd stay together--until the day the beautiful, brilliant Rei Ayanami showed up in class! When Shinji starts to get curious about Rei, Asuka needs to figure out if she wants to be just friends with Shinji, or something more. But why are so many people keeping an eye on these relationships--people like homeroom teacher Misato, school nurse Ritsuko, and Shinji's mother--NERV's chief scientist, Yui Ikari...? Boze krachten hebben het lot van de wereld in handen...Eens in de duizend jaar, wanneer een nieuw tijdperk aanbreekt, krijgt degene die op dat moment eigenaar is van een geheimzinnige perkamentrol een geweldige kans. Hij of zij kan de grote Kami-draak aanroepen en een wens doen. Dat moment is bijna daar, en boze krachten zijn eropuit om de rol in handen te krijgen.Yumeko heeft het laatste stuk van de drakenrol opgegeven om haar vrienden te redden. Nu moeten zij en haar reisgenoten zo snel mogelijk naar de woeste kust van Iwagoto om de Meester der Demonen tegen te houden, voordat hij de kans krijgt de grote Kami-draak aan te roepen. Want hij zal een wens doen die de hele wereld in het verderf zal storten...Het wordt een race tegen de klok in het adembenemend spannende slot van de Schaduw van de vos-serie. Tensions run high as the black giant Armaros looms threateningly over planet Earth, armed with the mighty Spear of Longinus. The pilots race to avert disaster, but Rei Quatre throws a wrench in their plans by kidnapping Misato! Meanwhile, Shinji is confronted by a strange white Evangelion that looks just like Eva-02, piloted by a familiar face. Can Shinji and his comrades save the world yet again, or are the forces arrayed against them just too strong this time? The media vampire has roots throughout the world, far beyond the shores of the usual Dracula-inspired Anglo-American archetypes. Depending on text and context, the vampire is a figure of anxiety and comfort, humor and fear, desire and revulsion. These dichotomies gesture the enduring prevalence of the vampire in mass culture; it can no longer articulate a single feeling or response, bound by time and geography, but is many things to many people. With a global perspective, this collection of essays offers something new and different: a much needed counter-narrative of the vampire's evolution in popular culture. Divided by geography, this text emphasizes the vampiric as a globetrotting citizen du monde rather than an isolated monster. The first comprehensive legal appraisal of tribunals convened across Asia to try war crimes, crimes against humanity, and genocide. Book Two introduces Mana Kirishima, the mysterious transfer student who might be more capable than even Rei and Asuka...and who's definitely more capable when it comes to making moves on Shinji! The four of them will get a chance to show their elders what they can do (and hopefully not kill each other in the process) when Yui takes them all on a field trip to a facility run by her greatest rival from school--to see Japan's newest, nuclear-powered giant robot! What could possibly go wrong? Midori Saito's dream seems about to come true. Too independent for Japanese society, Midori is a young woman who has always felt like a stranger in her native land. So when she falls in love with Kevin, an American English teacher, she readily agrees to leave home and start a new life with him in San Francisco--as his fiancée. Kevin seems to be the perfect man. That is, until he dumps her for his blonde ex-fiancée, whom Midori never even knew existed. Midori is left on her own, with just a smattering of fractured English, not much cash, and a fiancée visa set to expire in sixty days. Unable to face the humiliation of telling her parents she's been jilted, and not wanting to give up on her "American Dream," Midori realizes she's in for quite a challenge. Her only hope is her new acquaintance (and potential landlord) Shinji, a successful San Francisco graphic artist and amateur moon gazer who fled Japan after a family tragedy. And eventually, Midori surprises even herself as she proves she will do almost anything to hang on to her dream of a new life. Combining a detailed account of the situation in Japanese film and criticism with unique close analyses of Kitano's films from Violent Cop to Takeshis, the author relates the director to issues of contemporary cinema, Japanese national identity, and globalism. You didn't really think all this raising being inflicted on Shinji by his parents and guardian was without constructive purpose, did you... a purpose, perhaps, related to giant robotlike things? As Yui deals with the fallout from the Jet Alone affair, her son tries to mind his own affairs... but usually just ends up falling. An exploration of anime's masterpieces and game-changers from the 1960s to the present—with contributions from writers, artists, superfans and more. Anime—or Japanese animation—has been popular in Japan since Astro Boy appeared in 1963. Subsequent titles like Speed Racer and Kimba the White Lion helped spread the fandom across the country. In America, a dedicated underground fandom grew through the 80s and 90s, with breakthrough titles like Katsuhiro Otomo's Akira making their way into the mainstream. Anime Impact explores the iconic anime movies and shows that left a mark on popular culture around the world. Film critic and longtime fan Chris Stuckmann takes readers behind the scenes of legendary titles as well as hidden gems rarely seen outside Japan. Plus anime creators, critics and enthusiasts—including Ready Player One author Ernest Cline, manga artist Mark Crilley, and YouTube star Tristan “Arkada” Gallant—share their stories, insights and insider perspectives. You didn't really think all this raising being inflicted on Shinji by his parents and guardian was without constructive purpose, did you... a purpose, perhaps, related to giant robotlike things? As Yui deals with the fallout from the Jet Alone affair, her son tries to mind his own affairs... but usually just ends up falling. What if reluctant hero Ikari Shinji had saved the world? Now, at seventeen years old, he is the defacto leader of the EVA team. Under the leadership of Commander Katsuragi Misato, the Evangelion suits have been updated with advanced designs and powers, in preparation for the possible return of the monstrous Angels. Four copies of Ayanami Rei have been tasked with operating a global anti-Angel search-and-destroy program. But when one of these clones goes rogue, it's up to Shinji to stop her. In From Outcasts to Emperors, David Quinter illuminates the Shingon Ritsu movement founded by the charismatic Buddhist monk Eison (1201-90) at Saidaiji in Nara, Japan, with a focus on Eison and his disciples' involvement in the cult of the bodhisattva Mañjuśrī. Shinji is unwittingly brought into his parents' scientific research at NERV headquarters when he attempts to rescue schoolmate Rei, uncovering secrets about Rei's relationship with NERV. This book is about the self in contemporary Japan. In contrast to Euro-American cultures, in which the self is considered to be the essence of personhood, in Japanese culture the self is constantly reconstructed in relation to others. This particular self is studied by examining the ways popular culture is consumed, with a special focus on manga, the Japanese word for comics and cartoons. The first part of the book contains an ethnographic research in which the author investigates the relationship between popular media and the search for self-knowledge. In the second part a historical analysis traces the development of self-seeking in Japan since the country's modernisation period. This text explores the origins and implications of the powerful visual

medium of video, crossing national, cultural and political boundaries to present provocative tales. Dennis Redmond's study is rooted in close readings of three video efforts: "The Prisoner" (1967), "The Decalogue" (1988) and "Neon Genesis: Evangelion" (1995). Living with Robots recounts a foundational shift in robotics, from artificial intelligence to artificial empathy, and foreshadows an inflection point in human evolution. As robots engage with people in socially meaningful ways, social robotics probes the nature of the human emotions that social robots are designed to emulate. Through its engagement with different kinds of texts, Exploring the Limits of the Human through Science Fiction represents a new way of approaching both science fiction and critical theory, and its uses both to question what it means to be human in digital era. Stunning, hotheaded Asuka Langley Soryu has been friends with Shinji Ikari since they were little. THE SECOND MACHINE DYNASTY Javier is a self-replicating humanoid on a journey of redemption. Javier's quest takes him from Amy's island, where his actions have devastating consequences for his friend, toward Mecha where he will find either salvation... or death. File Under: Science Fiction [vN2 | Island in the Streams | Failsafe No More | The Stepford Solution] Awkward know-it-all Tabitha Slate was born and raised in Seattle. Her life consists of Friday night fights with her family for the remote control, her crappy minimum wage job, and convincing her sisters that collecting action figures doesn't disqualify her from being Black or a girl. Then Tabitha blunders into the Wardein, those sworn to police the supernatural hybrids and legendary creatures of the city. She reluctantly abandons her dreams of being the popular girl on her new campus, to adopt a position of power in a hidden world with a dangerous learning curve. When a physicist that uses Seattle's population for monstrous experiments wants Tabitha as the next subject, Tabitha has to accept the darkness she's capable of, or lose everything. This comprehensive look at Japanese cinema in the 1990s includes nearly four hundred reviews of individual films and a dozen interviews and profiles of leading directors and producers. Interpretive essays provide an overview of some of the key issues and themes of the decade, and provide background and context for the treatment of individual films and artists. In Mark Schilling's view, Japanese film is presently in a period of creative ferment, with a lively independent sector challenging the conventions of the industry mainstream. Younger filmmakers are rejecting the stale formulas that have long characterized major studio releases, reaching out to new influences from other media—television, comics, music videos, and even computer games—and from both the West and other Asian cultures. In the process they are creating fresh and exciting films that range from the meditative to the manic, offering hope that Japanese film will not only survive but thrive as it enters the new millennium. A YOGA MEMOIR At thirty, Californian Leza Lowitz is single and traveling the world, which suits her just fine. Coming of age in Berkeley, California, during the sexual and feminist revolutions of the 1970s, she learned that marriage and family could wait. Or could they? When Leza moves to Japan and meets the man of her dreams, her heart opens in ways she never thought possible. But she's still an outsider, and home is far away. Rather than struggle to fit in, she opens a yoga studio and makes a home for others. Then, at forty-four, Leza and her Japanese husband seek to adopt—in a country where bloodlines are paramount and family ties are almost feudal in their cultural importance. She travels to India to work on herself and back to California to deal with her past. Something is still not complete until she learns that when you give a little love to a child, you get the whole world in return. This inspiring memoir reflects the author's deep connection to yoga that allows her to realize that infertile does not mean inconceivable. Through teaching, meditation, and community, she transcends her struggles and embraces the joys of adoption and motherhood. Leza Lowitz lives in Tokyo with her husband, the writer Shogo Oketani, and their ten-year-old son. She has edited and published over seventeen books, many on Japan, and has run her own yoga studio in Tokyo for a decade. She travels throughout Japan and Asia to teach yoga and write. Her debut YA novel, Jet Black and the Ninja Wind, won the 2013–2014 Asian/Pacific American Award in Young Adult Literature. The Everyday Fantastic is an anthology born in love. The love is for science fiction, in all its myriad forms: novels, television, movies, music, art, etc. Many writers from a plurality of disciplines, professions and walks of life share this disposition. This attitude cuts across national boundaries and has even outlasted the vagaries of popular culture fads. This collection of essays draws upon these feelings in terms of the different ways science fiction is engaged in different disciplines, viewing the genre beyond mere entertainment. The papers collected here engage the fundamental questions explored in science fiction. Many of the essays were originally presented at an interdisciplinary conference in October 2005 at Brock University, highlighted by Robert J. Sawyer's engaging keynote address. Additional chapters were in part inspired by these presentations. These essays represent a wide array of voices from the humanities, social sciences and sciences, and address a comparable range of topics and the media that use the science fiction genre. Formed by a small group of university students in the early 1980s, Studio Gainax is now one of the most adventurous and widely esteemed anime companies on the scene. And it is fascinating for its unique approach to animation. Formal experimentation, genre-straddling, self-reflexivity, unpredictable plot twists, a gourmet palate for stylishness, proverbially controversial endings, and a singularly iconoclastic worldview are some of the hallmarks. This documentation of the studio's achievements provides a critical overview of both the company and its films: in-depth examinations of particular titles that best represent the company's overall work, including television series such as Nadia: The Secret of Blue Water and Neon Genesis Evangelion, and feature films such as Royal Space Force: The Wings of Honneamise and Gunbuster vs. Diebuster. Each chapter highlights the contribution made by a specific production to the company's progress. In Lovesick Japan, Mark D. West explores an official vision of love, sex, and marriage in contemporary Japan. A comprehensive body of evidence—2,700 court opinions—describes a society characterized by a presupposed absence of physical and emotional intimacy, affection, and personal connections. In compelling, poignant, and sometimes horrifying court cases, West finds that Japanese judges frequently opine on whether a person is in love, what other emotions a person is feeling, and whether those emotions are appropriate for the situation. Sometimes judges' views about love, sex, and marriage emerge from their presentation of the facts of cases. Among the recurring elements are abortions forced by men, compensated dating, late-life divorces, termination fees to end affairs, sexless couples, Valentine's Day heartbreak, "soapland" bath-brothels, and home-wrecking hostesses. Sometimes the judges' analysis, decisions, and commentary are as revealing as the facts. Sex in the cases is a choice among private "normal" sex, which is male-dominated, conservative, dispassionate, or nonexistent; commercial sex, which caters to every fetish but is said to lead to rape, murder, and general social depravity; and a hybrid of the two, which commodifies private sexual relationships. Marriage is contractual; judges express the ideal of love in marriage and proclaim its importance, but virtually no one in the court cases achieves it. Love usually appears as a tragic, overwhelming emotion associated with jealousy, suffering, heartache, and death. Neon Genesis Evangelion was one of the major anime works of the last decade. Director Hideaki Anno used the medium as no one had before: as a means for personal expression and for exorcising private demons. However, the TV show and subsequent feature films left many hardcore anime fans scratching their heads in wonder. This book sets out to answer the numerous questions that the complex and endlessly fascinating characters raised - from the Angles to the Evas to Shinji and his estranged father, Gendo. Kyoto—beautiful, tragic, and for Nao Murata—deadly. Nao Murata never anticipated stumbling upon a stranger on the brink of death would thrust him back into a world he'd long ago left in his past. Now, he's back among the ranks of the Yakuza, fighting for both his life and his honor. Struggling against older members undermining him at every turn, Nao must navigate the dark and gritty criminal underworld discovering who he can trust, and who is hell-bent on betraying him. Aki Hisona jumped to the top ranks of the syndicate when he gained favor with Nao, but it left animosity brewing among his would-be friends. When an assassination attempt disguised as a celebration leaves Aki with blood on his hands, he isn't certain how Nao will react. Will he lose his rank, his life? Or worse...he might lose the chance to ever have Nao return his affection. All the while, the Korean mafia are deadlier than ever. Having ruthlessly killed the Godfather of the Matsukawa syndicate once, they're now determined to murder the newest in line. Nao may have survived them once. They won't let him out of their sights again. Discover how much blood is hiding underneath Kyoto's cherry blossoms in this shocking and brilliant four-book box set today! Passionate fans of anime and manga, known in Japan as otaku and active around the world, play a significant role in the creation and interpretation of this pervasive popular culture. Routinely appropriating and remixing favorite characters, narratives, imagery, and settings, otaku take control of the anime characters they consume. Fanthropologies—the fifth volume in the Mechademia series, an annual forum devoted to Japanese anime and manga—focuses on fans, fan activities, and the otaku phenomenon. The zones of activity discussed in these essays range from fan-sub (fan-subtitled

versions of anime and manga) and copyright issues to gender and nationality in fandom, dolls, and other forms of consumption that fandom offers. Individual pieces include a remarkable photo essay on the emerging art of cosplay photography; an original manga about an obsessive doll-fan; and a tour of Akihabara, Tokyo's discount electronics shopping district, by a scholar disguised as a fuzzy animal. With a collection of nine essays on Asian sport celebrities variously associated with Australia, Belgium, China, Japan, New Zealand, North Korea, Philippines, South Korea, Taiwan and the United States, this book offers a comprehensive understanding of the multi-faceted construction of what it means to be Asian from the perspectives of race, ethnicity and regionality. Sport celebrity, as a modern invention, is disseminated from the West to the rest of the globe including Asia, and so are its functions of symbolizing particular values, desires and personalities idolized and idealized within their respective societies. While Asian athletes were historically depicted as weak, fragile and biologically 'unsuited' to modern sport, the emergence of more than a few world-class Asian athletes in the twenty-first century demands an in-depth inquiry into the relationship between sport celebrity and the representation of Asia. This book is therefore essential for those interested in a range of socio-cultural issues—including globalization, transnationalism, migration, modernity, (post-)coloniality, gender politics, spectacle, citizenship, Orientalism, and nationalism—within and beyond Asia. It was originally published as a special issue of *The International Journal of the History of Sport*. Hana lives by a rule: No sex with her best friends. But Hiko and Shinji have other other ideas, as well as a plan to get Hana to break her rule. Big time. No sex with friends! This is the personal rule that Hana lives by to keep things simple with her two best friends, Hiko and Shinji even though they're two of the hottest guys she's ever met. She's afraid of risking their friendships that way, and besides, she could never choose between them, they're both so wonderful. Little does she know! When Hana loses her job as a clothing designer, Hiko and Shinji, afraid to let her get depressed over it offer to pose in erotic positions for her while she sketches what she hopes to be the manlove graphic novel that will launch her career as a manga artist. Hana sees no harm in this. It's the fantasy of a lifetime and very kind of them to offer. The perfect arrangement until... Seeing Hiko and Shinji together arouses Hana to no end. How will she be able to control herself watching their naked bodies entwined, watching them engage in acts that are the stuff of her wildest fantasies? And then, she makes a shocking discovery while passing by Hiko's room in the middle of the night. Are things getting out of hand? Or rather, ahem, in hand? Hiko and Shinji have both been in love with Hana for a long time and out of their love for her, they've never pushed her about getting romantic even though they know she's in love with them too. But when the opportunity arises to pose for her, they see their perfect chance to do away with sexual deprivation and get the woman they love into a position of their own. While Shinji's girl troubles continue to be a public spectacle, Kaworu and Ritsuko are going behind his back... straight to SEELE. Love, comedy, and mystery continue in Volume 3! The present collection examines the many different ways in which religions appeal to the authority of science. The result is a wide-ranging and uniquely compelling study of how religions adapt their message to the challenges of the contemporary world. Sacrificing himself to shield Earth from the devastation of the Third Impact, Shinji's mind floats untethered from his body. He lingers in a space where time stands still, trapped in the moment of the impact. As Armaros swallows Heurtebise and defeat seems near, Asuka tries to use the memories of their classroom days together to wake Shinji from his new, shattered reality. Reading a Japanese Film, written by a pioneer of Japanese film studies in the United States, provides viewers new to Japanese cinema with the necessary tools to construct a deeper understanding of some of the most critically acclaimed and thoroughly entertaining films ever made. In her introduction, Keiko McDonald presents a historical overview and outlines a unified approach to film analysis. Sixteen "readings" of films currently available on DVD with English subtitles put theory into practice as she considers a wide range of work, from familiar classics by Ozu and Kurosawa to the films of a younger generation of directors. An unproven alliance. A broken promise. A mafia boss must shed blood to secure peace... Nao Murata is on the verge of brokering peace between his syndicate and the rival Mafufgumi mob. To seal the deal, he'll need to pick up Russian prostitutes to appease his newest ally. When the exchange goes sour, both sides draw blades and Nao has no choice but to care for a blood-soaked enemy. If the man doesn't make it through the night, Nao and his crew will pay with their lives. Outnumbered and stranded in enemy territory, Nao is forced to fight his way out before the Mafufgumi Godfather takes the deal off the table.
