This book critically interrogates the relationship between social media and protest from an interdisciplinary perspective, examining the multiple ways in which we need to politicize and contextualise commercial social media platforms, in particular with regards to their use for the purposes of anti-systemic and progressive protest movements. Mega best-selling mystery and thriller novelist James Patterson edits a collection of the best mystery writing. All-out war engulfs the Star Wars galaxy! Notorious bounty hunter Boba Fett has finally landed his greatest prize -- Han Solo, frozen in carbonite. But Solo is about to become one highly sought-after smuggler! The rebels want their friend back, the Empire seeks revenge on one of its

greatest enemies, and other bounty hunters have their eyes on a big payday -- but what moves will the Crimson Dawn crime syndicate make?

Featuring Darth Vader, Jabba the Hutt, Luke Skywalker, Leia Organa, Valance, Doctor Aphra and more! COLLECTING: Star Wars: War of the Bounty Hunters Alpha (2021) 1, Star Wars: War of the Bounty Hunters (2021) 1-5, Star Wars: War of the Bounty Hunters - Jabba The Hutt (2021) 1, Star Wars: War of the Bounty Hunters - 4-Lom & Zuckuss (2021) 1, Star Wars: War of the Bounty Hunters - Boushh (2021) 1, Star Wars: War of the Bounty Hunters - Ig-88 (2021) 1, Star Wars (2020) 13-18, Star Wars: Bounty Hunters (2020) 12-17, Star Wars: Darth Vader (2020) 12-17, Star Wars: Doctor Aphra (2020) 10-15, material from Star Wars: War of the Bounty Hunters Alpha Director's Cut (2021) 1 Technical Career Survival Handbook: 100 Things You Need To Know provides the information needed to survive a technical career, enabling

prospective technical career candidates and those currently in technical careers to explore all technical education possibilities, industries, disciplines, and specialties. This handbook better equips the reader to deal with the tough situations and decisions they have to make throughout their career. Topics include preparing for the workforce, employment challenges, and dealing with on the job situations. This book is a practical guidebook for scientists, engineers, and technicians who apply the principles of science and mathematics to develop practical solutions to technical problems. Offers insights on how to pursue and navigate a technical career Discusses job searches, interviews, offers, and counteroffers Includes day-to-day, in the trenches, job situations that may arise and best practices on how to address them Indian poets who wrote in English—a small middle class minority—were divided from the regional language poets by more than

language for long. The English poets had a selected readership, were known unto themselves, in academic circles if they were widely published, but were looked down upon with a kind of derision by regional writers. However, the scenario has changed now. From English being spurned as a colonizer's tongue that was nobody's language, it has now become everybody's language with English medium schools, English movies, ads, soaps and serials. For a generation living in a global village, genuine readership and appreciation of English poetry is no longer an encumbrance. This book, in its second edition, continues to educate the students with diverse and thought-provoking essays that vary from personal to argumentative to objectively discursive English literature and to those who are genuinely interested in Indian English poetry. The Fourteen poets selected in this anthology are Michael Madhusudan Dutt, Toru Dutt, Rabindranath Tagore, Aurobindo Ghosh, Sarojini Naidu, Jibanananda

Das, Nissim Ezekiel, Jayanta Mahapatra, A.K. Ramanujan, Arun Kolatkar, Rajagopal Parthasarathy, Kamala Das, and Dilip Chitre. The poets included are all on the syllabi of major universities in India. This collection brings together leading research on contemporary and popular culture, focussing on marginalised voices and representations; socially marginalised, marginalised in media and media scholarship. It spans five continents, with contributions on topics like gender, sexuality, nation, disability, disciplinary boundaries, youth and age. Whether you are an aspiring self-publisher or the CEO of a major publishing house, a freelance designer or sales person, this chapter will provide statistics, figures, and examples to help you make sense of the business, economic, and marketing concerns of e-publishing. Whether your intent is to sell yourself, your boss, or your clients, or if you just want to educate yourself about the realities of the world of e-publish-

ing, you'll find in this chapter an abundance of important, relevant data. In this chapter, you will learn about the following:

- People and Their Device Usage
- The Business of eBooks
- The Business of Children's & Young Adult eBooks
- Authors and Their Incomes
- The Missing 30 Percent of Data
- Self-Publishing
- The Business of eTextbooks
- The Business of eMagazines
- Enewspaper
- Etextbook
- Digital Comic Book

Healthcare management today is rapidly changing. Now you can master the unique aspects of healthcare HRM that are most relevant to your success with Flynn/Valentine/Meglich's **HEALTHCARE HUMAN RESOURCE MANAGEMENT, 4E**. This edition's focused, specialized approach is ideal -- whether you are preparing to work in healthcare or are currently a healthcare practitioner, consultant and managerial professional seeking to advance. This distinctive approach provides the most current, topical information on healthcare

management in today's changing industry. The latest organizational examples and scenarios keep you ahead, while thorough discussions explore the rising demand for healthcare professionals against the backdrop of worker shortages and the continuing national debate on healthcare reform. Equip yourself with best practices as this edition examines how challenges, such as COVID-19 pandemic response, drug and alcohol use by healthcare employees and medical errors, impact HR function. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. The practices of world politics are now scrutinised in a way that is unprecedented, with even those previously – or conventionally assumed to be – disengaged from international affairs being drawn into world politics by social media. Interactive websites allow users to follow election results in real-time from the other side of the world, and online

mapping means that the world 'out there' is now available on your mobile phone. Understanding Popular Culture and World Politics in the Digital Age engages these themes in contemporary world politics, to better understand how digital communication through new media technologies changes our encounters with the world. Whether the focus is digital media, social networking or user-generated content, these sites of political activity and the artefacts they produce have much to tell us about how we engage world politics in the contemporary age. This volume represents the starting point of a dialogue about how digital technologies are beginning to impact the research and practice of scholars and practitioners in the field of International Relations, with the collection of cutting-edge essays dealing specifically with the intertextuality of world politics and digital popular culture. This book will be of use to International Relations research academics (and

critically engaged publics) interested in the core themes of global politics - subjectivity, militarism, humanitarianism, civil society organisation, and governance. The book also employs theories and techniques closely associated with other social science disciplines, including political theory, sociology, cultural studies and media studies. Quotes on empowerment, risk-taking, work/life balance, leadership, philanthropy, and more from "one of the most successful entrepreneurs of her generation" (Forbes). The public's appetite for all things Oprah Winfrey has waned little since her Chicago TV debut in 1983. Known as a self-help guru and the "Queen of All Media," Oprah (it's almost impossible not to refer to her by her globally recognized first name) has been shining light on social issues and encouraging fans to "live your best life" for more than 30 years, revolutionizing her corner of the entertainment industry in the process. Own It: Oprah Winfrey in Her Own

Words provides a unique look into the wisdom and thought processes of one of the most adored, respected, and powerful women in the world. This book collects her most insightful quotations, centered around her media career, life lessons, entrepreneurship, and remarkable personal story . . . "The key is not to worry about being successful but to instead work toward being significant—and the success will naturally follow. How can you serve your way to greatness?" —O, The Oprah Magazine "[Multitasking] is a joke for me. When I try to do that, I don't do anything well." —Fast Company "Life is always speaking to us, especially in our greatest trials. The question is will you listen to the whispers." —Ebony Travel journalism about natural attractions is environmental communication at the cusp of consumerism and concern. Countries and regions that market forests, rivers and wildlife to international tourists drive place-of-origin brand recognition that benefits

exporters in other sectors. Place-branding in such destinations is not just PR for environmentally sustainable development and consumption, but also a political enterprise. *Environmental Communication and Travel Journalism* considers tourism public relations as elite reputation management, and applies models of political conflict and source-media relations to the analysis of the 'soft' genre of travel journalism. The book seeks to understand how, in whose interests and against what odds discourses of cosmopolitanism and place-branding influence the way travel journalists represent vulnerable and contested environments. Informed by interviews with journalists and their sources, *Environmental Communication and Travel Journalism* identifies and theorises networks, cultures, discursive strategies and multiple loyalties that can assist or interrupt flows of environmental concern in the cosmopolitan public sphere. The book should be of interest

to scholars of environmental communication, environmental politics, journalism, tourism, marketing and public relations. In May 1993 the British Mountaineering Council met to discuss the future of high altitude tourism. Of concern to attendees were reports of queues on Everest and reference was made to mountaineer Peter Boardman calling Everest an 'amphitheater of the ego'. Issues raised included environmental and social responsibility and regulations to minimize impacts. In the years that have followed there has been a surge of interest in climbing Everest, with one day in 2012 seeing 234 climbers reach the summit. Participation in mountaineering tourism has surely escalated beyond the imagination of those who attended the meeting 20 years ago. This book provides a critical and comprehensive analysis of all pertinent aspects and issues related to the development and the management of the growth area of mountaineering

tourism. By doing so it explores the meaning of adventure and special reference to mountain-based adventure, the delivering of adventure experience and adventure learning and education. It further introduces examples of settings (alpine environments) where a general management framework could be applied as a baseline approach in mountaineering tourism development. Along with this general management framework, the book draws evidence from case studies derived from various mountaineering tourism development contexts worldwide, to highlight the diversity and uniqueness of management approaches, policies and practices. Written by leading academics from a range of disciplinary backgrounds, this insightful book will provide students, researchers and academics with a better understanding of the unique aspects of tourism management and development of this growing form of adventure tourism across the world. Terrorism: Commentary

on Security Documents is a series that provides primary source documents and expert commentary on various topics relating to the worldwide effort to combat terrorism, as well as efforts by the United States and other nations to protect their national security interests. Volume 147, Assessing the 2017 U.S. National Security Strategy, evaluates the changes in U.S. national security policy indicated in the National Security Strategy published by the Trump administration in 2017, as well as the U.S. National Defense Strategy, a summary of which was made available to the public in 2018. The volume also takes a close look at the comparable strategy documents of the Russian Federation and the People's Republic of China (PRC), the two greatest competitors of the U.S. in the global power structure, in addition to considering the U.S. security posture in the broader international context. In addition to including the text of the 2017 U.S. National

Security Strategy and the 2018 U.S. National Defense Strategy, this volume also includes the Russian Federation's Foreign Policy Concept, National Security Strategy, and Military Doctrine, and China's national defense, military strategy, and Asia-Pacific cooperation documents, as well as Chinese President Xi Jinping's October 2017 speech to the 19th National Congress of the Communist Party of China outlining the way forward for the PRC. Two 2017 CRS reports examining U.S. security strategy in the international context are also included: U.S. Role in the World: Background and Issues for Congress and A Shift in the International Security Environment: Potential Implications for Defense-Issues for Congress. 4th Dimension Magazine. Economy Edition. Premiere Issue, October 2014. Published by Times Square Press, New York, and Maximillien de Lafayette. Also available in deluxe full colors edition printed on glossy heavy stock

paper with semi-hard cover. Website: www.timessquarepress.com With more than 130 films and a career spanning four decades, Klaus Kinski (1926–1991) was one of the most controversial actors of his generation. Known for his wild tantrums on set and his legendary collaborations with auteur Werner Herzog—Aguirre, the Wrath of God (1972), Nosferatu the Vampyre (1979)—Kinski's intense performances made him the darling of European arthouse and exploitation/horror cinema. A genius in front of the camera, he was capable of lighting up the most risible films. Yet behind his public persona lurked a depraved man who took his art to the darkest extremes. This first ever collection of essays focusing on Kinski examines his work in exploitation and art house films and spaghetti westerns, along with his performances in such cult classics as Doctor Zhivago (1965), Crawlspace (1986), Venus in Furs (1965), The Great Silence (1968), Android

(1982) and his only directorial credit, Paganini (1989). More than 50 reviews of Kinski's films are included, along with exclusive interviews with filmmakers and actors who worked with him. From its dubious beginnings as a pirate-filled colony to a popular tourist destination, North Carolina has an amazingly colorful history. Author and illustrator Ben Fortson presents that history in the form of off-the-wall anecdotes, poignant insights and sublimely silly illustrations. Take a hilarious look at Daniel Boone's larger-than-life Carolina personality. Peruse an uproarious account of the Andrew Jackson birthplace controversy or politically astute commentary on the power of tobacco in the state. Fortson takes readers on a side-splitting and educational ride through the annals of Tar Heel State history. 'Ranging expertly across business, politics and the arts, Tim Harford makes a compelling case for the creative benefits of disorganization, improvisation

and confusion. His liberating message: you'll be more successful if you stop struggling so hard to plan or control your success. Messy is a deeply researched, endlessly eye-opening adventure in the life-changing magic of not tidying up' Oliver Burkeman The urge to tidiness seems to be rooted deep in the human psyche. Many of us feel threatened by anything that is vague, unplanned, scattered around or hard to describe. We find comfort in having a script to rely on, a system to follow, in being able to categorise and file away. We all benefit from tidy organisation - up to a point. A large library needs a reference system. Global trade needs the shipping container. Scientific collaboration needs measurement units. But the forces of tidiness have marched too far. Corporate middle managers and government bureaucrats have long tended to insist that everything must have a label, a number and a logical place in a logical system. Now that they are armed with computers and

serial numbers, there is little to hold this tidy-mindedness in check. It's even spilling into our personal lives, as we corral our children into sanitised play areas or entrust our quest for love to the soulless algorithms of dating websites. Order is imposed when chaos would be more productive. Or if not chaos, then . . . messiness. The trouble with tidiness is that, in excess, it becomes rigid, fragile and sterile. In *Messy*, Tim Harford reveals how qualities we value more than ever - responsiveness, resilience and creativity - simply cannot be disentangled from the messy soil that produces them. This, then, is a book about the benefits of being messy: messy in our private lives; messy in the office, with piles of paper on the desk and unread spreadsheets; messy in the recording studio, the laboratory or in preparing for an important presentation; and messy in our approach to business, politics and economics, leaving things vague, diverse and uncomfortably made-up-on-the-

spot. It's time to rediscover the benefits of a little mess. Internet intermediaries play a unique role in linking authors of content and audiences. They may either protect or jeopardize end user rights to free expression, given their role in capturing, storing, searching, sharing, transferring and processing large amount of information, data and user-generated content. This research aims to identify principles for good practices and processes that are consistent with international standards for free expression that Internet intermediaries may follow in order to protect the human rights of end users online. In *The Complete History of Cross-Country Running*, author Andrew Boyd Hutchinson captures the full history of cross-country running, from the early 1800s to the present day, on both a national and international scale. It includes chronicles of legendary teams, inspirational tales of achievement, controversies, and interviews with record-

breaking runners past and present. From Walter George and Alfred Shrubb to Steve Prefontaine, Bill Rogers, and Galen Rupp—and everyone in between—Hutchinson uncovers all angles, via training logs, discussions with coaches, and the review of newspaper archives for race results and forgotten storylines. He offers commentary from Olympians such as David Torrence and Shannon Rowbury, amongst others. Along the way, the book addresses the following topics:

- How cross country began in England
- How the sport found its way to American colleges and universities
- The birth of the International Cross-Country Championships
- All the close events, including the 2012 race between Molly Huddle and Sara Hall at the US National Cross-Country Championship
- And so much more!

By 2020, if not before, mobile computing and wireless systems are expected to enter the fifth generation (5G), which promises evolutionary if not revolutionary services. What those advanced services will

look like, sound like, and feel like is the theme of the book *Advances in Mobile Computing and Communications: Perspectives and Emerging Trends in 5G Networks*. The book explores futuristic and compelling ideas in latest developments of communication and networking aspects of 5G. As such, it serves as an excellent guide for advanced developers, communication network scientists, researchers, academicians, and graduate students. The authors address computing models, communication architecture, and protocols based on 3G, LTE, LTE-A, 4G, and beyond. Topics include advances in 4G, radio propagation and channel modeling aspects of 4G networks, limited feedback for 4G, and game theory application for power control and subcarrier allocation in OFDMA cellular networks. Additionally, the book covers millimeter-wave technology for 5G networks, multicellular heterogeneous networks, and energy-efficient mobile

wireless network operations for 4G and beyond using HetNets. Finally, the authors delve into opportunistic multiconnect networks with P2P WiFi and cellular providers and video streaming over wireless channels for 4G and beyond. This book represents the first international investigation of military recruitment advertising, public relations and propaganda. Comprised of eleven case studies that explore mobilisation work in Africa, the Americas, Asia and Europe, it covers more than a hundred years of recent history, with chapters on the First and Second World Wars, the Cold War, and the present day. The book explores such promotion in countries both large and small, and in times of both war and peace, with readers gaining an insight into the different strategies and tactics used to motivate men, women and occasionally even children to serve and fight in many parts of the world. Readers will also learn about the crucial but little-known role of commercial advertising,

public relations and media professionals in the production and distribution of recruitment promotion. This book, the first of its kind to be published, will explore that role, and in the process address two questions that are central to studies of media and conflict: how do militaries encourage civilians to join up, and are they successful in doing so? It is a multi-disciplinary project intended for a diverse academic audience, including postgraduate students exploring aspects of war, propaganda and public opinion, and researchers working across the domains of history, communications studies, conflict studies, psychology, and philosophy. Concerns about energy resources and the environmental impact of energy use will continue to be important globally. World Scientific's unique series of books on Current Energy Issues is intended, in part, as an expansion and update of the material contained in the World Scientific Handbook of Energy. Each volume will focus

on related energy resources or issues and will contain a broader range of topics with more explanatory text. This Solar Energy volume covers a variety of approaches to the use of solar energy. These include large scale photovoltaic production of electricity as well as more local applications in the home and businesses.

Similarly, there is an extensive discussion of large scale solar thermal electricity production and smaller scale uses such as solar water heating, home heating and cooling plus crop drying. There is also discussion of more forward-looking technologies including the production of fuels using artificial photosynthesis and the production of biomass.

Contents: Introduction to Solar Energy (R Corkish, W Lipiński and Robert Patterson) Fundamentals of Photovoltaic Cells and Systems (Ignacio Rey-Stolle) Large-Scale Solar Thermal Plants (CSP) (Manfred Becker, Robert Pitz-Paal and Wes Stein) Large Scale Photovoltaic Power Plants (G Almonacid Puche, P G

Vidal and E Muñoz-Cerón) Biomass (Anthony Turhollow) Artificial Photosynthesis (Nathan Skillen and Peter K J Robertson) Small Scale PV Applications in Home and Business (Estefanía Caamaño-Martín, Miguel Ángel Egido and Jorge Solórzano) Low Temperature Solar Thermal Applications (Brian Norton, Hans Martin Henning and Daniel Mugnier) Solar Thermochemical Processes (Roman Bader and Wojciech Lipiński) Readership: Researchers, academics, professionals and graduate students in energy studies/research and environmental/energy economics. The Business of ePublishing 2015 Edition explains in thorough detail what professional publishers, designers, and traditional, independent, and hybrid authors need to know about the world and business of digital publishing in 2015 and beyond. It goes beyond the rhetoric and paranoid proclamations rampant in social media, blogs, and news outlets to provide

provable, unbiased insight into the users, devices, formats, and real world economics of ebooks, fixed-layout ebooks, digital textbooks, digital magazines, and more for all levels of publishing—enterprise, small-to medium-sized publishers, indies, and self-publishers. Whether you are an aspiring self-publisher or the CEO of a major publishing house, a freelance designer or sales person, this book provides you with the insight, background, statistics, figures, and examples to help you make sense of the business, economic, and marketing concerns of e-publishing, and help you plot your future for a successful year in digital publishing. Whether your intent is to sell yourself, your boss, or your clients, or if you just want to educate yourself about the realities of the world of e-publishing, you'll find in this book a cornucopia of important, relevant data. Has the Christian Holocaust Begun? A Christian genocide at the hands of Islamic extremists is

unfolding in the Middle East. Entire Christian populations have been eliminated, and the ultimate aim of ISIS and the Islamic State is to eradicate the world of Christianity. They are well on their way. Thousands of Christians arrive in refugee camps daily as tents can be seen for miles across the countryside of Jordan, N. Iraq and Lebanon. This book examines the crisis in Ukraine, tracing its development and analysing the factors which lie behind it. It discusses above all how the two sides have engaged in political posturing, accusations, escalating sanctions and further escalating threats, arguing that the ease with which both sides have reverted to a Cold War mentality demonstrates that the Cold War belief systems never really disappeared, and that the hopes raised in the aftermath of the collapse of the Soviet Union for a new era in East-West relations were misplaced. The book pays special attention to the often ignored origins of the crisis within Ukraine itself, and the

permanent damage caused by the fact that Ukrainians are killing Ukrainians in the eastern parts of the country. It also assesses why Cold War belief systems have re-emerged so easily, and concludes by considering the likely long-term ramifications of the crisis, arguing that the deep-rooted lack of trust makes the possibility of compromise even harder than in the original Cold War. The Bustle & Sew Magazine is not your average newstand read. Rather it's more of a mini-book full of goodies designed to appeal to everyone who loves to create lovely items for home and family. Inside you'll discover a collection of six new Bustle & Sew projects as well as features, articles, a round of online goodies, baking - and even a poetry corner. It's so much more than just a sewing magazine, we believe it's a Jolly Good Read too! The Bustle & Sew Magazine is the work of just two women - Helen Dickson, the founder of and creative force behind the Bustle & Sew bunny and her

daughter Rosie who's recently joined the team! So if you're expecting a glossy high-street publication, stuffed with adverts and promotions, then this probably isn't the magazine for you. But if you enjoy quirky, unusual and fun sewing projects, all with Helen's unique style, and enjoy filling your home with beautiful ideas, then you're sure to love the Bustle & Sew Magazine. This month's issue features the brand new 21st century Bustle & Sew bunny on the cover, and there's lots to enjoy inside too. You'll discover six projects, including two new Christmas patterns, Miss Matilda Catkin, a most elegant little cat softie, beautiful autumnal toadstools decorate a useful mini-tote and our Woodland Deer cushion is almost unbearably cute. There are images of all the projects on the front of the cover so you can see at a glance what's inside. Remember - the Bustle & Sew Magazine is an independent stitching and home magazine that carries no advertising at all - every page is full of content for you to

enjoy. It's also available as an eMagazine over on the Bustle & Sew website - where you'll find lots more stitchy goodness to enjoy. You can keep up to date with all the goings on in Devon where Helen lives with her two Newfoundland Dogs, Daisy and Ben - there's never a dull moment! Visit

www.bustleandsew.com to learn more. Garry

Wotherspoon's *Gay Sydney: A History* is an updated version of his 1991 classic, *City of the Plain: History of a Gay Sub-culture*, written in the midst of the AIDS crisis. In this vivid book Wotherspoon traces the shifts that have occurred since then, including majority support for marriage equality and anti-discrimination legislation. He also ponders the parallel evaporation of a distinctly gay sensibility and the disappearance of once-packed gay bars that have now become cafes and gyms. This book also tells the story of gay Sydney across a century, looking at secret, underground gay life, the never-ending debates about sex in society

and the role of social movements in the '60 and '70s in effecting social change. A collection of the year's best travel writing. Cleveland loves its craft beer. The city's breweries are flourishing under a period of brewing renewal and an insatiable taste for quality local craftsmanship. But Cleveland's brewing industry hasn't always enjoyed such prosperous times. The industry boomed during the 1800s only to see Prohibition, dwindling demand and increased competition stifle production. Each brewery, one by one, closed its doors until none remained. In 1988, Patrick and Daniel Conway opened the fledgling Great Lakes Brewing Company, and the industry was born anew. Today, local visionaries are engineering the comeback and bringing national attention to Cleveland's award-winning craft brews. Authors Leslie Basalla and Peter Chakerian chart the remarkable history of the ups and downs of Cleveland beer. The annual collection celebrating the finest

Australian science writing of the year. How does dust connect the cosmos with our bed sheets? Why do lobsters do the Mexican Wave backwards? And what makes us feel 'wetness' when there's no such thing as 'wet' nerve receptors? Now in its fifth year, The Best Australian Science Writing 2015 draws on the knowledge and insight of Australia's brightest thinkers in examining the world around us. From our obsession with Mars to the mating habits of fish, this lively collection covers a range of topics and delights in challenging our perceptions of the planet we think we know. Terrorism: Commentary on Security Documents is a series that provides primary source documents and expert commentary on various topics relating to the worldwide effort to combat terrorism, as well as efforts by the United States and other nations to protect their national security interests. Volume 146, Russia's Resurgence, examines recent developments in the foreign policy and strategy of the

Russian Federation, including an examination of its aggression against neighboring states with Russian populations, its recent focus on strengthening its military capabilities, its larger strategy vis-à-vis NATO and the United States, its utilization of hybrid warfare in the "gray zone" to achieve its goals, its increasing influence on Middle Eastern politics, and the historical context within which these developments have occurred. This volume includes Congressional Research Service reports on security issues concerning the United States, Ukraine, and the Russian Federation, as well as an English-language version of the Military Doctrine of the Russian Federation made available to the public, NATO's Framework for Future Alliance Operations, and recent studies on Russia's hybrid warfare from the NATO Defense College and the Joint Special Operations University Press. They were the breakout stars of WAR OF THE REALMS: NEW AGENTS OF ATLAS, now

learn their origin tales! White Fox is many things: a spy, a superhero, and the last of the kumihos, a mystical race of shapeshifters. Who was she before taking the name White Fox and what happened to the kumihos? Luna Snow has the power to freeze her enemies but is also one of South Korea's pop sensations! How does she juggle this double life and what connection does Tony Stark have to her powers? Crescent and Io work together to fight evil. But how did this powerful team come to be? Then follow the adventures of the next generation of heroes as they become the Future Avengers!

COLLECTING: FUTURE FIGHT FIRSTS: CRESCENT AND IO (2019) 1, FUTURE FIGHT FIRSTS: LUNA SNOW (2019) 1, FUTURE FIGHT FIRSTS: WHITE FOX (2019) 1 From soap operas to sitcoms, Mexican-American actress Eva Longoria is a familiar face on television. Far more than just a superstar, Eva is committed to raising awareness about issues facing the American Latino community. Discover the

secrets of how she turned her struggles into success and what she is giving back to her community. The latest addition to the celebrated Best American series, featuring the most creative and effective visualizations of data from the past year, introduced by Brain Pickings' creator Maria Popova. This book gathers the voices of four local Hong Kong theologians to reflect on the 2014 democracy protests in the city from the perspectives of Catholic social teaching, feminist and queer intersectionality, Protestant liberation, and textual exegesis. The volume also includes an extended primer on Hong Kong politics to aid readers as they reflect on the theology underlying the democracy protests.

September 28, 2014 is known as the day that political consciousness in Hong Kong began to shift. As police fired eighty-seven volleys of tear gas at protesters demanding "genuine universal suffrage" in Hong Kong, the movement (termed the "Umbrella

Movement”) ignited a polarizing set of debates over civil disobedience, government collusion with private interests, and democracy. The Umbrella Movement was also a theological watershed moment, a time for religious reflection. This book analyzes the role that religion played in shaping the course of this historic movement. Jonathan Strahan, the award-winning and much lauded editor of many of genre’s best known anthologies is back with his 11th volume in this fascinating series, featuring the best science fiction and fantasy. With established names and new talent this diverse and groundbreaking collection will take the reader to the outer-reaches of space and the inner realms of humanity with stories of fantastical worlds and worlds that may still come to pass.
