Excerpt from The Adventures of John Jewitt: Only Survivor of the Crew of the Ship Boston, During a Captivity of Nearly Three Years, Among the Indians of Nootka Sound in Vancouver Island Many years ago - when America was in the midst of war, when railways across the continent were but the dream of sanguine men, and when the Pacific was a far away sea - the writer of these lines passed part of a pleasant summer in cruising along the western shores of Vancouver Island. Our Ship's company was not distinguished, for it consisted of two fur-traders and an Indian boy, and the sloop in which the crew and passengers sailed was so small, that, when the wind failed, and the brown folk ashore looked less amiable and the shore more rugged than was desirable, we put her and ourselves beyond hail by the aid of what seamen know as a white ash breeze. Out of One fjord we went, only to enter another so like it that there was often a diffi culty in deciding by the mere appearance of the Shore which was which. Everywhere the dense forest of Douglas fir and Menzies spruce covered the country from the water's edge to the summit of the rounded hills which here and there caught the eye in the still little known, but at that date almost entirely unexplored interior. All the women got into a terrible commotion and jumped around. They were hallooing and the sailors were trying to keep them sitting down, and they would not do it. They were standing up all the time." - Daniel Buckley, a survivor of the Titanic Just before midnight on April 14, 1912, the RMS Titanic, the largest ship in the world, hit an iceberg, setting in motion a chain of events that would ultimately make it history's most

famous, and notorious, ship. In the over 100 years since it sank on its maiden voyage, the Titanic has been the subject of endless fascination, as evidenced by the efforts to find its final resting spot, the museums full of its objects, and the countless books, documentaries, and movies made about the doomed ocean liner. Thanks to the dramatization of the Titanic's sinking and the undying interest in the story, millions of people are familiar with various aspects of the ship's demise, and the nearly 1,500 people who died in the North Atlantic in the early morning hours of April 15, 1912. The sinking of the ship is still nearly as controversial now as it was over 100 years ago, and the drama is just as compelling. The Titanic was neither the first nor last big ship to sink, so it's clear that much of its appeal stems from the nature of ship itself. Indeed, the Titanic stands out not just for its end but for its beginning, specifically the fact that it was the most luxurious passenger ship ever built at the time. In addition to the time it took to come up with the design, the giant ship took a full three years to build, and no effort or cost was spared to outfit the Titanic in the most lavish ways. Given that the Titanic was over 100 feet tall, nearly 900 feet long, and over 90 feet wide, it's obvious that those who built her and provided all of its famous amenities had plenty of work to do. The massive ship was carrying thousands of passengers and crew members, each with their own experiences on board, and the various amenities offered among the different classes of passengers ensured that life on some decks of the ship was quite different than life on others. Much has been made through the years about the failures of those designing the Titanic to take proper safety precautions, and how these failings led to the disaster and huge loss of life. In fact, the number of lives lost was so great that it can be hard to believe that the death toll might have been higher. Nonetheless, it's true that many more would have died without the courageous efforts of those on the ships who responded to the Titanic's distress calls and sailed through the same dangerous conditions that brought down the "unsinkable" ship itself. Rescuing the Survivors of the RMS Titanic chronicles the rescue and recovery efforts made by several ships to save the Titanic's remaining survivors and the completion of their trip to New York. Along with pictures of important people, places, and events, you will learn about the recovery efforts like never before, in no time at all. When archaeologist John Henry Phillips volunteered with a charity that took D-Day veterans back to Normandy, due to an administrative error he found himself without a hotel room and reliant on the generosity of one of the veterans who had a spare bed. That veteran was Patrick Thomas - and it was an encounter that would change both their lives forever. Patrick's landing craft, LCH 185, had led the first wave into Sword Beach on D-Day, and stayed off Normandy until the 25th June when an acoustic mine sent it to the seabed along with most of the crew. His story transfixed John, and the resulting search for the shipwreck was to consume him. Jumping back and forwards in time, between vivid descriptions of the final days on board LCH 185 and John's thrilling search to find the shipwreck, *The Search* is an emotional story of a devastating time in history, an unlikely, life-changing friendship and a quest to honour a wartime home and family lost over seventy-five years ago. Bill Jim Davis, the author, provides a riveting account of what it was like for him as a young seaman during those hazardous times. Amazingly, his individual experiences took him from the attack on Pearl Harbor to Okinawa, to the Japanese mainland, and from a new recruit to a commissioned officer by war's end. The reader

gets a vivid, blow by blow account of the war in the Pacific. Anyone who wishes to see the war in the Pacific from the well trained eyes of a young sailor will find great value in this book. We, as a nation, are forever indebted to the young Davis and countless others like him who answered the call to duty and performed with valor. Such accounts are an invaluable reminder to future generations of the sacrifice, courage, and vigilance required to maintain the liberty and freedom we all enjoy in our great nation. Those young men and women who aspire to service in the United States Navy would be well served by reading this book. Two survivors' accounts of the sinking of the Titanic. The information contained in Colonel Gracie's story is available from no other source. He provides details of the final moments, including names of passengers pulled from the ocean and of those men who, in a panic, jumped into lifeboats as they were being lowered. Walter Lord, author of *A Night to Remember*, calls Gracie "an indefatigable detective." John Thayer was, like Gracie, one of the last to leave the ship. His account, *The Sinking of the S.S. Titanic*, is meticulously detailed. The sinking of the Titanic was, in his eyes, a symbol of the end of the world that he knew, and the beginning of a frightening new era. Panic, despair, shocking inefficiency, and a dash of heroism. Two lengthy narratives by passengers who had a thorough knowledge of the sea and by members of the ship's crew. 26 illustrations. "The most thrilling, unputdownable book I've read in a long time." "Crackles with oppressive tension infused with a real sense of dread throughout that had me holding my breath." "Stunning, scary, and tightly written - a thriller bursting with shivers and edge of your seat horror." "Brilliant! A thrilling, horrifying, gripping page turner that you want to race through but at the same time don't want to end because you're enjoying it so much." When an ancient document, written by Tom Hardy, the cabin boy aboard the *Fortuyn*, surfaces, it reveals he was the sole survivor of the stricken Dutch East India vessel and the gruesome events he witnessed that claimed both vessel and crew. Because the terrible events he witnessed onboard were too fantastical to be believed, Tom kept the truth a secret. However, in an attempt to quell his reoccurring nightmares, he wrote down the events leading to the demise of the crew and the *Fortuyn*. It is believed by some that the *Fortuyn* is the lost

ship that haunts the seas and has become known as The Flying Dutchman. Centuries after Tom's death, and keeping his original title The true catastrophic events of the Fortuyn as witnessed by Tom Hardy, the sole survivor from the aforementioned vessel, the truth can, at last, be revealed. A ghost ship, also known as a phantom ship, is a vessel with no living crew aboard. These encompass ghostly vessels from folklore and fiction, such as the Flying Dutchman, or a derelict found adrift with its crew missing or dead, like the Mary Celeste. In maritime folklore, the ghost ship, the Flying Dutchman, has had an impact like no other lost vessel. It has inspired numerous paintings, films, books, opera, etc. The alleged captain, Van der Decken, was on a heading for the East Indies when a ferocious storm overwhelmed them. With sheer determination, he tried to steer his ship through the hostile weather conditions the Cape of Good Hope was famous for but failed miserably even after he vowed to drift until doomsday. Legend declares that since then, ship and crew have been cursed to sail the oceans for eternity. To this day, hundreds of sailors are credited to having witnessed the Flying Dutchman continuing its never-ending voyage across the waters. To this day, hundreds of sailors are credited to having witnessed the Flying Dutchman continuing its never-ending phantom voyage across the oceans. Tom's account of what happened aboard the Flying Dutchman, however, is considerably more chilling...

DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature. The Adventures of John Jewitt, only Survivor of the Crew of the Ship Boston during a Captivity of Nearly Three Years among the Indians of Nootka Sound in Vancouver Island By John Jewitt. Edited with an introduction and notes by Robert Brown, Ph.D. In 1803, the American ship Boston was attacked, seized, and burned by Nootka Indians while anchored off the Pacific Northwest Coast of what is now Canada. This journal-written by one of only two survivors of the massacre, provides a fascinating insight into the author's 28 months as a slave of the Indians, one of the few white men to endure such a lengthy ordeal and live to tell the tale. Jewitt's life was spared by the Indian chief Maquina, who realized that it was useful to have an armorer slave who could repair the European weapons which had fallen into Indian hands. Slaves were the Indians' most valuable property, and each Indian tribe kept hundreds of them. Jewitt began keeping a journal, carefully recording everyday details about the Indians, their lifestyle, customs, and traditions. His descriptions provided anthropologists with a unique insight into early Amerindian society, while the story of his exploits and eventual escape make for a riveting adventure story.

James Claude Beasley was a typical American teenager in the 1940s--a child of the Great Depression with an abiding commitment to family and country. With the outbreak of World War II, he enlisted in the Navy at 18. His plainspoken, personal memoir recounts three years of service (1942-1945), from his induction at Winston Salem, North Carolina, to the sinking of his ship, the escort carrier USS Liscome Bay, by a Japanese submarine, through the end of the conflict and his return to civilian life.

On November 23, 1942, German U-Boats torpedoed the British ship Benlomond and it sank in the Atlantic in two minutes. The sole survivor was a second steward named Poon Lim, who, with no knowledge of the sea, managed to stay alive for 133 days on a small wooden raft. Finally rescued at the mouth of the Amazon River, Poon was hailed as the "World's Champion Survivor." He still holds the Guinness World Record for survival at sea. Originally published to much acclaim in 1980, this is the story of the legendary German battleship that sunk the pride of the Royal Navy, HMS Hood, on May 24, 1941, and three days later was hunted down and sunk by the British during one of the most dramatic pursuits in naval history. Told by a German naval officer who witnessed both sinkings, the book chronicles the brief but sensational career of what was thought to be the grandest weapon of the Third Reich. Burkard Baron von Müllenheim-Rechberg, the Bismarck's top-ranking survivor, tells the battleship's story from commissioning to the moment when the captain gave a final salute and went down with his ship. The epic battle between the two great enemy ships captured the imagination of an entire generation and became a popular subject for movies and songs. With the discovery a few years ago of the Bismarck's sunken hull off the coast of France, worldwide attention has focused again on the famous ship. Reprinted now in paperback for the first time, the work presents the human dimensions of the event without neglecting the technical side and includes information on rudder damage and repair, overall ship damage, and code breaking. The book also provides insights into the author's life as a prisoner of war in England and Canada and the friction that existed between the Nazis and non-Nazis Germans in the camps. Such a personal look at one of the most famous sea encounters in the history of World War II makes absorbing reading. Explore the Captivating History of the Titanic When thinking about the worst known maritime disaster in history, it is impossible not to think about all of the lives lost in a single night. One of the wealthiest men alive (and the wealthiest passenger aboard the ship) died in the same accident that took the life of a baby younger than 5 months old in steerage. The rules that were meant to govern an accident were not familiar to the crew. Coupled with an inadequate number of lifeboats for the number of passengers, there was no chance that every passenger on the ship would survive its impact with an iceberg in the middle of the night. More than 100 years after the disaster, the survivors have passed on, but they left behind harrowing stories that remind us that every day is something to appreciate. These stories include love, loss, hope, failure, and everything in between. It is the tales told by those who survived that convey the feelings of that fateful night and the reality of the lives lost. In the early hours of 15 April 1912, the Cunard steamship Carpathia receives a distress call from the new White Star liner Titanic. Captain Arthur Rostron immediately turns Carpathia northwest and sails full speed through the dark night, into waters laden with icebergs, on a rescue mission that will become legendary. Almost a century later, Carpathia's wreck has finally been located. She's over 500 feet down and only a few divers in the world can attain these depths. Among them is Englishman Ric Waring's team. In this captivating and intensively researched story, we follow the dual narratives of Rostron and the daring rescue of the Titanic survivors by Carpathia, and of Waring's team and their dangerous determination to reach the wreck. Rich in history and drama, the true story of Carpathia from her launching to the sensational events of 1912, World War I and beyond is a compelling narrative that moves at the page-turning pace of the very best fiction. "In March, 1943, a rusty cargo ship of erratic pedigree was torpedoed and sunk off the Azores on her way back to Germany from the Far East. The survivors naturally assumed that they had fallen victim to an allied submarine, but they were wrong." "U-boat commander Hans-Joachim Schwantke had had an unlucky war and was desperate to open his score. Assuming, on scant evidence, that the Doggerbank was an allied ship he sent her to the bottom and then turned away from the survivors, in all probability by now aware that he had made a tragic mistake and anxious to escape from the evidence. But the evidence

remained, in the shape of just one man. Of the 365 men on board, alone of those who survived the sinking and managed to reach a life raft or dinghy only Fritz Kuert was to survive to tell his tale." "Thanks to Hans Herlin's research, and the translating skills of John Brownjohn, the amazing story of Kuert's journey across the Atlantic, of his rescue and his vain struggle to establish the truth has at last been told."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved Violet Jessop's life is an inspiring story of survival. Born in 1887 in Argentina, the eldest child of Irish immigrants, at the age of 21 she became the breadwinner for her widowed mother and five siblings when she commenced a career as a stewardess and nurse on some of the most famous ocean going vessels of the day. Throughout her 40 year time at sea she survived an unbelievable series of events including the sinking of the TITANIC. "One awful moment of empty, misty blackness enveloped us in its loneliness, then an unforgettable, agonizing cry went up from 1500 despairing throats, a long wail and then silence and our tiny craft tossing about at the mercy of the ice field." For most people one sinking would be enough. But four years later Violet, now a nurse with the British Red Cross, was on board the World War I hospital ship BRITANNIC when it struck a mine and sank to the bottom of the Aegean. To her, this disaster was even more horrifying-- "Just as life seeming nothing but a whirling, choking ache, I rose to the light of day, my nose barely above the little lapping waves. I opened my eyes on an indescribable scene of slaughter, which made me shut them again to keep it out." By the end of her story we have a met a woman who could handle whatever life threw at her with determination and good humor. She knew that only by her own strength of character would she survive. But Titanic Survivor is much more. A unique autobiography for those who want to know how it really felt, a story that could be told only by a Titanic Survivor. LIBERTY SHIP SURVIVOR: Why Ray Laenen is so Proud to be an American Liberty Ship Survivor is the compelling tale of one man's journey from Belgian immigrant to proud and patriotic American citizen. Over 100 photographs support his incredible tales of courage, survival, faith, friendship and forgiveness. Remie

"Ray" Laenen's parents brought him to America from Oevel, Belgium in 1927, in search of freedom and opportunity. The family settled on the East Side of Detroit. After graduating from St. Rose High School in 1944, Ray immediately went into the United States Army, where he would learn a life-defining lesson about the true cost of freedom. On February 6, 1945, Ray's life was changed forever. His Liberty Ship was sunk in the Indian Ocean by torpedoes from a German U-boat. He survived an incredible twenty-two day ordeal in a crowded lifeboat, only to return to service more determined than ever to defend America's freedom. When the war ended, Ray went about the business of carving out his piece of the American Dream. Fifty years after the sinking of the SS Peter Silvester, Ray and his wife Norma traveled to Germany to meet and forgive the very men who had sunk his ship. This is the story of the making of an American Patriot. The story of John Dean was the talk of all the coffee houses in London in the mid eighteenth century. This book rekindles that long forgotten tale of a merchant seaman of humble origins from Yorkshire who became famous throughout the UK for his remarkable survival after becoming shipwrecked off the coast of Madagascar. He was central to the legal proceedings which the East India Company instigated against the ship's Captain, who had deserted the ship Sussex on her maiden voyage. For his integrity and resolve John was rewarded with a Company pension and had his portrait painted by a famous artist of the time. The book paints a picture of the life of an ordinary seaman during the prime years of the East India company. Here is a survivor's vivid account of the greatest maritime disaster in history. The information contained in Gracie's account is available from no other source. He provides details of those final moments, including names of passengers pulled from the ocean and of those men who, in a panic, jumped into lifeboats as they were being lowered, causing injury and further danger to life. Walter Lord, author of 'A Night to Remember', comments that Gracie's book - written shortly before he died from the exposure he suffered on the night - is "invaluable for chasing down who went in what boat", and calls Gracie "an indefatigable detective". The world's most beautiful and exclusive passenger ship had made a successful maiden voyage from England to New York City. Amid columns of press coverage she would carry 600 passengers and crew, destination, Cherbourg, France, then on the Southampton, England. Her passenger manifest listed some of the wealthiest and most famous personalities in the world. Five days later a Russian grawler found her floating listlessly in the middle of the Atlantic Ocean. All aboard were dead. If the Russian ship had arrived several hours earlier, the officers would have learned the reason for this tragedy. For, at that time, there was one person alive aboard RMS WINDSOR, who knew what had happened. That person was the last survivor. 75 years ago, the Australian Hospital Ship Centaur was sunk by a Japanese submarine off the coast of Queensland. This book tells the story through the eyes of Frederick Chidgey and includes poetry written about this significant event in Australian war history.
