246 pages and more than 240 illustrations and charts, size 8.25 x  
10.75 inches. This publication is a reproduction of the Triumph  
factory workshop manual part number 99-0963/0887/4223. The  
original 1969 Trident workshop manual 99-0887 was updated in  
1972 under part number 99-0963. A short time later, the  
introduction of a 5-speed gearbox (1972) and a front wheel disc  
brake (1973) necessitated the publication of a supplement  
00-4223 which was then incorporated into the 99-0963 manual  
creating a single workshop manual for the 1968 through 1974  
models. Unfortunately, the 99-0963 manual was also published  
without the 00-4223 supplement and the manual that includes the  
supplement can only be identified by the following notation  
printed to the bottom corner of the title page: 'PART NO. 99-0963  
INCORPORATING 99-0887 AND SUPPLEMENT 00-4223' The  
difference in content between the two manuals that carry the  
same part number is extremely important to owners of the 5-  
speed and disc brake models. There were a number of 'running  
changes' made throughout the 6-year production run of these  
models and, in order to provide information applicable to those  
changes, the 00-4223 supplement was either merged or appended  
to the end of the appropriate sections within the manual.  
However, it is also important to note, with regard to any  
maintenance and repair instructions and also the specifications in  
the 'General Data' (GD) section, that whenever engine numbers  
are stated, the data will be specific to that particular series.

Therefore, the reader is encouraged to pay close attention to any engine number notations and to read the entire section plus the supplemental data prior to commencing any work. In conclusion, 750cc T150 and T150V owners are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various 750cc Trident manuals that have recently flooded the marketplace. However, the combination manual 99-0963/99-0887/00-4223 is the most comprehensive manual for the entire line of 750cc Trident three-cylinder motorcycles produced from 1968 through 1974, however, it is somewhat scarce and difficult to find. In addition, many of the changes made during the production run necessitate the use of this 'combination' manual and we are pleased to offer this reprint of the 99-0843/99-0948/00-4223 manual as a service to all 750cc T150, T150V owners. In addition, as the X75 Hurricane is a combination of both the Trident and the BSA Rocket 3 this manual will also be of interest to owners of that model. The models covered are: 1968 to 1970 T150 Trident 1971 to 1972 T150 Trident 1972 to 1974 T150V Trident - with 5 speed gearbox and disc front brake. This 1947 GMC Truck FC-100 150 250 280 Maintenance Manual - X-4703 is a high-quality, licensed PRINT reproduction of the service manual authored by General Motors Corporation and published by Detroit Iron. This OEM factory manual is 8.5 x 11 inches, paperback bound, shrink-wrapped and contains 358 pages of comprehensive mechanical instructions with detailed diagrams, photos and specifications for the mechanical components of your vehicle such as the engine, transmission, suspension, brakes, fuel, exhaust, steering, electrical and drive line. Service / repair manuals were originally written by the automotive manufacturer to be used by their dealership mechanics. The following 1947 GMC models are covered: Truck, FC100, FC101, FC102, FC150, FC152, FC250, FC251, FC252, FC253, FC280, FC281, FC283. This factory written Detroit Iron shop manual is perfect for the restorer or

anyone working on one of these vehicles. This Haynes Manual features complete maintenance and repair information for the Vespa P/PX125, 150 and 200 Scooters built from 1978 to 2017. 82 pages, 30 illustrations, size 5.5 x 8.5 inches. Originally published in 1962 by Floyd Clymer, this manual includes complete technical data, service and maintenance information and detailed instructions for the repair and overhaul of the major mechanical and electrical components for all 125cc and 150cc widemount engined Vespa Scooters from 1951 through 1961, beginning with the Vespa 125 (VM1T) through the GS150 (VS51T) it also covers the Douglas 42L2 and Clubman. There is adequate detailed text and diagrams to assist in major refurbishing such as an engine rebuild or even a complete mechanical renovation, making it an invaluable resource for collectors and restorers of these classic Vespa scooters. Covers models: 88, 90, 100, 150, 155 and 175. P/N 507757. The full-color Porsche 911 Carrera (Type 996) Service Manual: 1999-2005 is a comprehensive source of service information and specifications for Porsche 911 (Type 996) Coupe, Targa and Convertible models from 1999 to 2005. The aim throughout this manual has been simplicity and clarity, with practical explanations, step-by-step procedures and useful specifications. Whether you're a professional or a do-it-yourself Porsche owner, this manual will help you understand, care for and repair your Porsche. Engines covered: 1999-2001: 3.4 liter (M96.01, M96.02, M96.04) 2002-2005: 3.6 liter (M96.03) Transmissions covered: G96 (6-speed manual) A96 (5-speed automatic) With a Haynes manual, you can do-it-yourself...from simple maintenance to basic repairs. Haynes writes every book based on a complete teardown of the vehicle, where we learn the best ways to do a job and that makes it quicker, easier and cheaper for you. Haynes books have clear instructions and hundreds of photographs that show each step. Whether you are a beginner or a pro, you can save big with a Haynes manual! This manual features complete coverage for your Honda PCX125 and

150 built from 2010 to 2019, covering: routine maintenance, tune-up procedures, engine repair, cooling and heating, air conditioning, fuel and exhaust, emissions control, ignition, brakes, suspension and steering, electrical systems, and wiring diagrams. Large book compiled from 9 different previous official manuals. 784 pages, photos, drawings, wiring diagrams. Hard Bound.

The Jaguar Service Manual covers the following models: XK 120; XK 140; XK 150; XK 150'S'; Mk. VII; Mk. VIII; Mk. IX Models. A faithful reproduction of the 1967 Floyd Clymer publication of the official Honda Factory Workshop Manual for the 125-150 series C92, CS92, CB92, C95 and CA95. There are exhaustive tables of technical data, tolerances and fits and all of the expected data from a factory publication for the repair and overhaul of all major and minor mechanical and electrical components, making it an invaluable resource for collectors and restorers of these classic Honda motorcycles. There are 228 illustrations and each procedure is explained in a step-by-step method using an appropriate illustration. The translation from Japanese to English is, at times, a little quirky but the profuse illustrations make up for any difficulty in understanding what needs to be done! There are separate sections that deal with the repair and overhaul procedures for the engine, transmission,

wheels and brakes, front forks, frame and carburetor, plus a detailed electrical service section. This is a - must have - reference for any Honda enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior to purchasing one of these classic motorcycles. Out-of-print and unavailable for many years, this book is highly sought after on the secondary market and we are pleased to be able to offer this reproduction as a service to all Honda enthusiasts worldwide. With a Haynes manual, you can do it yourself...from simple maintenance to basic repairs. Haynes writes every book based on a complete teardown of the motorcycle. We learn the best ways to do a job and that makes it quicker, easier and cheaper for you. Our books have clear instructions and hundreds of photographs that show each step.
