Take a journey through the history of Japanese role-playing games—from the creators who built it, the games that defined it, and the stories that transformed pop culture and continue to capture the imaginations of millions of fans to this day. The Japanese roleplaying game (JRPG) genre is one that is known for bold, unforgettable characters; rich stories, and some of the most iconic and beloved games in the industry. Inspired by early western RPGs and introducing technology and artistic styles that pushed the boundaries of what video games could be, this genre is responsible for creating some of the most complex, bold, and beloved games in history—and it has the fanbase to prove it. In *Fight, Magic, Items*, Aidan Moher guides readers through the fascinating history of JRPGs, exploring the technical challenges, distinct narrative and artistic visions, and creative rivalries that fueled the creation of countless iconic games and their quest to become the best, not only in Japan, but in North America, too. Moher starts with the origin stories of two classic Nintendo titles, *Final Fantasy* and *Dragon Quest*, and immerses readers in the world of JRPGs, following the

interconnected history from through the lens of their creators and their stories full of hope, risk, and pixels, from the tiny teams and almost impossible schedules that built the foundations of the *Final Fantasy* and *Dragon Quest* franchises; Reiko Kodama pushing the narrative and genre boundaries with *Phantasy Star*; the unexpected team up between Horii and Sakaguchi to create *Chrono Trigger*; or the unique mashup of classic Disney with *Final Fantasy* coolness in *Kingdom Hearts*. Filled with firsthand interviews and behind-the-scenes looks into the development, reception, and influence of JRPGs, *Fight, Magic, Items* captures the evolution of the genre and why it continues to grab us, decades after those first iconic pixelated games released. “This is a seminal work, a godsend really, a clear message to every citizen about the need to reform our country, laws, and companies.” —Paul Hawken, *New York Times*-bestselling author **NEW EDITION, REVISED AND UPDATED** **Unequal taxes, unequal accountability for crime, unequal influence, unequal control of the media, unequal access to natural resources—corporations have gained these privileges and more by exploiting their legal status as persons. How did**

something so illogical and unjust become the law of the land? Americans have been struggling with the role of corporations since before the birth of the republic. As Thom Hartmann shows, the Boston Tea Party was actually a protest against the British East India Company—the first modern corporation. Unequal Protection tells the astonishing story of how, after decades of sensible limits on corporate power, an offhand, off-the-record comment by a Supreme Court justice led to the Fourteenth Amendment—originally passed to grant basic rights to freed slaves—becoming the justification for granting corporations the same rights as human beings. And Hartmann proposes specific legal remedies that will finally put an end to the bizarre farce of corporate personhood. This new edition has been thoroughly updated and features Hartmann's analysis of two recent Supreme Court cases, including *Citizens United v. Federal Election Commission*, which tossed out corporate campaign finance limits. "If you wonder why and when giant corporations got the power to reign supreme over us, here's the story." —Jim Hightower, national radio commentator and New York Times bestselling author "Tell[s] the grand story of corporate corruption and its consequences for society with the force and readability of a great novel." —David C. Korten, bestselling author of *When Corporations Rule the World* Two women. Two

It's a heady era—cultural revolution and fresh musical genres explode on both sides of the Atlantic. "A sweeping and lively history of one of the most dramatic stories never told—of the greatest railroad war of all time, fought by the daring leaders of the Santa Fe and the Rio Grande to seize, control, and create the American West"—On her eighteenth birthday, she drank her wine for the first time and accidentally provoked a domineering man, who was also her brother's friend ... Since then, this man had pestered her and made her unable to escape ... Phredde, Pru and Bruce are back and this time they're in ancient Egypt. It seems Fluffy, Queen of the Nile, has sent this time tunnel to seek out a brave and brilliant girl to save her - this has to be Pru, well, it can't be Phredde, she's a phaery, and Bruce, well, he's a frog and a boy. Ages 7-12 In a world of elemental super-powered tyrants called Primals, Zep, our impulsive and mainly incompetent protagonist, faces everything from killer flying cars to gods among men. AJ, Zep's older and far more competent brother, creates a wristband that can do anything from stopping bullets to sending an enemy flying with just one punch. When AJ realizes just how powerful the wristband is he decides he needs more for the rest of the group; the only problem is that the only way to make more is in the hands of the Primal called Tecton. Will they succeed in avoiding the wrath of elemental gods, or will they fall victim to the Heirs of Prime? Will, an abandoned child, was brought to Table Mountain by the God of Thousand Theophanies, then educated by the God of Sword, Healing, and Magic. He grew up to be a surprisingly brave,

The Principles of Housing is an engaging and discursive introduction to the key topics within housing studies. Whereas many books get bogged down in country-specific policy or small innovations, this book argues that the fundamental concepts of what we call housing are relatively stable and unchangeable. By focusing on universal principles, the book provides an introduction to housing that can be used by students world-wide. The book consists of a series of short chapters relating to the key issues of housing, such as borrowing, choice, finance, government, need, reform and welfare. Each chapter is designed to be a starting point for a wider conversation, with discussion questions and a number of think pieces and international case studies to help students connect these general principles to their own surroundings. Written by renowned housing expert Peter King, The Principles of Housing succeeds in being accessible and engaging without shying away from the complexities of housing issues. The book will be invaluable to students on housing-related courses across finance, real estate, planning, development, politics and sociology subjects. The book would also be useful to housing professionals and policy makers aiming to expand their understanding of housing

Stop wondering what you're missing out on, and get started today with this no-nonsense approach to share investing, written by celebrated Australian personal finance author and consultant James Dunn. In 1937, at the age of nineteen, Ralph Hall, suicidal, revealed his sexual orientation to his grandmother, knowing she would comfort him. He was out for three years afterwards, until an indiscretion sent him back into the closet. At twenty-four, while in the army, he met and married Irene. The couple made their home on the San Francisco Peninsula and had four children. Ralph was an attentive husband and father—albeit with an intense interest in interior design, flower arranging, and fine objects—and a diligent worker who rose to payroll accountant at Standard Oil. It wasn't until 1975 that Ralph came out to his middle daughter, Laura, telling her that he had once considered his sexuality an aberration, an affliction. She was shocked, as the possibility her father might be gay had never crossed her mind. Irene had known Ralph's secret for eighteen years, but the two remained married until she died. It was only then that this charismatic man and devoted father, by now in his eighties, could freely express his authentic, gay self. Here, Laura paints a vivid and honest portrait of her beloved father and the effect his secret had on her own life. In *Miracle Moments in New York Mets History*, Brett Topel details the team's greatest achievements, from the Mets' first win in franchise history in 1962, to Tom Seaver's near-perfect game in 1969, the 1986 World Series, the trade for Mike Piazza, Al Leiter's two-hitter during the 1999 one-game playoff, Jacob deGrom's 2015 All-Star Game appearance, and much more. USAF Captain Hedy Quinton joined Project Enterprise so she could travel to a distant galaxy. Excited about her first command, she never expected the headaches that would go with it. She's dealing with a lonely AI in her ship's systems, a really cute deck officer who used to be a robot, a disgruntled ally who wants to be in command, and a passel of possibly dubious scientists. The only thing going for her is that none of them are named Dr. Smith. BoomerJ—known as Boom—is still getting used to his new human body. His new form feels and needs things that his robot body never did, especially when he is around his new commanding officer, Hedy Quinton. His new emotions also make him realize something else—that his new form is fragile compared to his old one. For Hedy, the pressures of command come into sharp conflict with the longings of her heart when Boom goes down to check out the weird happenings on an unknown planet. Things don't go well down on the planet or up on the ship, making Hedy wonder if she should rethink her life's choices. Can their love survive a cosmic event, betrayal, and the secret of Boom's past, or will they be destined to be lost in space? If

you love your chemistry interstellar, your action fast-paced, and your space opera sprawling, then grab COSMIC BOOM, the second entry in The Cyborg Chronicles, a spin-off of the award-winning Project Enterprise series,! Take an exciting adventure into the unknown. Captain Cooper is the leader of a Special Ops team, one that only takes on the most dangerous of missions. A new terrorist organisation calling themselves the Cleansers are kidnapping families and creating a new breed of soldier to rid the world of evil. It is exactly ten years after graduation. It is 1978. Still full of idealism, two best friends reunite in a local U.C. Berkeley tavern. Still not too far of a walk for Dr. William Argent. He remained and became a professor. Simon did the complete opposite and blazed a wanderlust trail around the world since 1968. Both still had the dreamer's disease and want to change the world. They dreamt of one day finding the "Axis Mundi". In ancient traditional Hindu teachings, it is the spiritual bellybutton of the world. It is said that if one were to make the pilgrimage, the reward would be enlightenment. A chance to meet the first mind, to meet God. Suffering would end. Simon returns and invites Argent to a final quest. He believes he has found the Axis Mundi. Argent's reoccurring childhood dream has recently revisited him, just prior to Simon's arrival. He is also very much in love and engaged to Jordan, his garden goddess. If one has a one-of-a-kind

invitation to live an extraordinary life, and chooses to not, is this a sin? Sin means to miss your perfect mark. So does Argent stay, or does he go and meet God? For over four centuries, California has been an ever-changing landscape of innovation and revolution, triumph and tragedy. In *Fascinating True Tales from Old California*, author Colleen Adair Fliedner mines the history of the Golden State to collect more than fifty tales of famous Californians and their escapades from 1542 through 1940. For many, like James Lick, Leland Stanford, and John Downey, California was a place to strike it rich. Others sought freedom and a new beginning, including Chinese immigrants and African Americans, like philanthropist and freed slave, Bidley Mason. And still some characters just wanted to live their lives outside of society's rules, like swindler James Reavis or the cross-dressing stagecoach driver, Charley Parkhurst. Readers will be entertained and enlightened as they take a trip through California's colorful past. *Tackles The Westing Game* and four thematically related short stories: "The Cask of Amontillado," "The Monkey's Paw," "The Phantom Coach," and a ghost story by Charles Dickens, "The Signal-Man." This curriculum unit provides everything needed for in-depth study of classic fiction (except the readily available novels and short stories themselves): teaching directions, suggested schedules, background information, author bios, plot summaries, vocabulary study

guides, discussion of literary elements, reproducible activities and assessments, and ideas for extensions. The time required for full treatment is four weeks for each novel, one week for each short story. Grades 68. Glossaries. Answer keys. In an attempt to gain congressional approval for a top-secret weapons system, Washington lobbyist "Bird" McIntyre teams up with sexy, outspoken neocon Angel Templeton to pit the American public against the Chinese. When Bird fails to uncover an authentic reason to slander the nation, he and Angel put the Washington media machine to work, spreading a rumor that the Chinese secret service is working to assassinate the Dalai Lama. Meanwhile in China, mild-mannered President Fa Mengyao and his devoted aide Gang are maneuvering desperately against sinister party hard-liners Minister Lo and General Han. Now Fa and Gang must convince the world that the People's Republic is not out to kill the Dalai Lama, while maintaining Fa's small margin of power in the increasingly militaristic environment of the party. On the home front, Bird must contend with a high-strung wife who entertains Olympic equestrian ambition, and the qualifying competition happens to be taking place in China. As things unravel abroad, Bird and Angel's lie comes dangerously close to reality. And as their relationship rises to a new level, so do mounting tensions between the United States and China. Three siblings - India,

Finn, and Mouse - have less than forty-eight hours to pack up all their belongings and fly, without Mom, to their uncle Red's in Colorado, after they lose their house to foreclosure. But when they land, a mysterious driver meets them at the airport, and he's never heard of Uncle Red. Like Dorothy in Oz, they find themselves in a place they've never heard of, with no idea of how to get home, and time is running out. In a total departure, Jennifer Choldenko tells a story of adventure and survival, set in a fantastical place with rules all its own. Sharp dialogue, high stakes, and taut action make this a book that will stick with you long after you read the incredible ending.. An ancient cauldron would refine a world; a brush would draw all the creatures in the world; a long sword would cut down 3,000 great daos; a legend would narrate all the love in one lifetime; and the Nine Heavens Starfield, the Cosmic Star, would depict a young man's path to the pinnacle under the heavens! Mhumhi, a young painted dog, has always been certain of one thing: that the dogs rule the city, and that the few remaining humans are helpless against them. When his unconventional pack takes in two small children, however, he doesn't realize that everything he thinks he knows is about to be unraveled. Mhumhi and his children are captured and taken below the city by the mysterious bouda, a group of humans with strange ties to spotted hyenas. These bouda are not helpless: in fact,

they threaten to upset the balance between dogs and humans. But Mhumhi has more than that to worry about. Soon he will have to make a choice--should he continue to make his human children a part of his dangerous life, or should he entrust them back to their own kind? He'll have to decide fast, because as the city's food supply dwindles, darker machinations are beginning to stir, and to escape them Mhumhi and his pack may have to go beyond the city for the first time. Carrie's Phenomenal Journey vicariously takes you along on this wild journey of love. We stroll Parisian streets; hike the sandy roads of Niamey, Niger; mingle with people; and immerse ourselves in cultures. Sometimes we watch, laugh, or sigh and assimilate together. "I opened Carrie's Phenomenal Journey and was smitten with a young African American girl's dream of an education. I followed this heroine--and I don't use that word lightly--through falling in love to the betrayal and divorce. Carrie's dream had not died, and soon she found hope and fulfillment in education and a promising career in education. But life was nowhere over. I celebrated as Carrie moves to Paris to study the language in preparation for her service in Niger, West Africa. I flew over the Sahara desert with Carrie, saw the blue men of the Taureg, and clapped with the colorful tribe women under Carrie's nurturing wing. As her days in the field came to a close Carrie returns to family and creating a home in Jacksonville, Florida." -
