Regulation and Governance of Mutual Funds Nov 01 2020 This book provides a detailed analysis of mutual fund regulations and governance in the UK from the investor protection perspective. It comprehensively describes mutual funds by their function, social utility, and legal attributes, examining the level of protection provided to retail investors under existing regulations. Mutual funds are externally managed with fund ownership separated out from their management, which carries a potential conflict of interest between the self-interests of the fund management and each fund's investors. The book provides an in-depth analysis of this agency problem in the mutual fund industry, comparing the competing governance models in the UK and the US and the supervision of management activities. In the UK, it investigates the main governance mechanisms, including disclosure, the effectiveness of voting rights, and the role of the Financial Conduct Authority in protecting investors. It also considers the role of prudential regulations in protecting mutual fund investors, with a particular focus on risk management and mutual fund liquidity crisis. The book further investigates the impact of the withdrawal of the UK from the European Union (Brexit) on the industry and what this means for the future of the undertakings for collective investment in transferable securities (UCITS) in the UK. The concept of mutual funds is still not clearly understood, so this book will clearly define the different legal and practical aspects of mutual funds. It will be the first substantial study of mutual fund governance mechanisms under the existing mutual fund laws and regulations in the UK.

Quantitative Investment Analysis Apr 25 2020 Your complete guide to quantitative analysis in the investment industry *Quantitative Investment Analysis, Third Edition* is a newly revised and updated text that presents you with a blend of theory and practice materials to guide you through the use of statistics within the context of finance and investment. Short Practical Guide for Beneficiaries to EU Funding Opportunities for Research and Innovation Aug 10 2021 This guide provides potential beneficiaries of EU funding for research and innovation (research institutions, universities, SMEs, etc.) with the practical information they need to access this funding and clarifies the different and complementary roles that each programme plays in supporting different types of activities. The first edition of the Practical Guide was introduced in 2008 to provide a concise description of the main funding sources in the field of research and innovation. It explained how they can be combined in practice and provided policy makers with advice on setting up mechanisms at the national and regional levels to foster co-ordinated access to funding. Following an invitation by the Competitiveness Council, the Commission, improved, upgraded and expanded the scope of the existing Practical Guide which was republished in 2012. This edition is a concise updated version of the one published in 2012.

Funding for Start-ups: A guide to fundraising May 07 2021 A research report in 2017 by the Startup Genome project, a US-based think-tank, stated that Singapore had overtaken Silicon Valley to become number one in the world for start-up talent. With the Singapore government successfully rolling out innovative new policies to establish Singapore as an attractive location for setting up new start-ups, *Funding for Start-ups* is a timely book on how to raise funds for new start-ups. This book explores the concepts and processes behind fundraising in Singapore. With two decades' experience advising businesses on fundraising, the author provides a legal practitioner's perspective on concepts and processes ordinarily encountered in managing the fundraising process, including perfecting pitches and leveraging on legal documentation. This is the first title in a new 3-book series to provide legal information and anecdotal guidance on the essentials of setting up new start-ups.

International Monetary Fund Annual Report 2014 Feb 04 2021 Seven years after the onset of the global financial crisis, the world still has a way to go to secure a sustainable recovery marked by strong growth that supports rapid job creation and benefits all, International Monetary Fund (IMF) Managing Director Christine Lagarde says in her foreword to the institution's Annual Report 2014—From Stabilization to Sustainable Growth, published today.

The recovery is ongoing, but it is still too slow and fragile, subject to the vagaries of financial sentiment. Millions of people are still looking for work. The level of uncertainty might be diminishing, but it is certainly not disappearing.” Ms. Lagarde said that “throughout the crisis and in the recovery period, the IMF has been, and continues to be, an indispensable agent of economic cooperation” for its membership. The report covers the work of the IMF’s Executive Board and contains financial statements for the year May 1, 2013, to April 30, 2014. It describes the IMF’s support for its 188 member countries, with an emphasis on the core areas of IMF responsibility: assessing their economic and financial policies, providing financing where needed, and building capacity in key areas of economic policy.

The Taxpayers' Guide 2013 - 2014 Dec 26 2022 *The one-stop resource for understanding the Australian tax system, from the experts at Taxpayers Australia The complete guide to understanding the Australian tax system, The Taxpayers' Guide 2013-2014 is packed with tax-savings strategies and helpful advice presented in a clear, easy-to-follow style that makes it essential reading for all taxpayers seeking information and tools to ensure they pay exactly what they owe...and not a cent more. Regionalized Social Accounting Matrix for Yemen: A 2014 Nexus project SAM Nov 13 2021 *A Social Accounting Matrix (SAM) is a representation of an economy that shows the circular flow of all transfers and real transactions between sectors and institutions. The SAM, which is a square matrix, describes the flows of incomes from activities, taking the form of factor remunerations, that are consequently received by the households for consumption on goods and services. The accounts in the SAM are the production activities, commodities, institutions, and factors of production. According to data availability, the production activities can be further disaggregated to include more detailed information on sub-sectoral or regional production. Similarly, the factors of production could be differentiated by the level of skills or the location of employment. Households can be disaggregated by income quintiles or by rural and urban residence.*

National Guide to Funding in Health Jun 08 2021

A Beginner's Guide to EU Funding Nov 25 2022 *Are you a researcher looking for a grant to*

develop your idea? Are you a student wishing to study abroad? Or, maybe, you simply want to develop your own business and you're looking for financial support? This edition of our Beginners' Guide will give you a wide overview of the funds available in the different sectors, contact details, information on the rules you need to follow to access the funds and advice on where to start looking for more detailed information on a particular funding opportunity.

Smart Computing Applications in Crowdfunding Oct 12 2021 The book focuses on smart computing for crowdfunding usage, looking at the crowdfunding landscape, e.g., reward-, donation-, equity-, P2P-based and the crowdfunding ecosystem, e.g., regulator, asker, backer, investor, and operator. The increased complexity of fund raising scenario, driven by the broad economic environment as well as the need for using alternative funding sources, has sparked research in smart computing techniques. Covering a wide range of detailed topics, the authors of this book offer an outstanding overview of the current state of the art; providing deep insights into smart computing methods, tools, and their applications in crowdfunding; exploring the importance of smart analysis, prediction, and decision-making within the fintech industry. This book is intended to be an authoritative and valuable resource for professional practitioners and researchers alike, as well as finance engineering, and computer science students who are interested in crowdfunding and other emerging fintech topics.

The No-nonsense Guide to Fair Trade Mar 05 2021 World Trade was once the exclusive preserve of big business, run by transnational corporations more powerful than governments. Now the 'free' trade they favor is the focus of public concern everywhere -- globalization and the World Trade Organization have seen to that.

Get Funded! Feb 16 2022 In a time of shrinking government support for academic research, this manual for academics and researchers on how to persuade private businesses to sponsor research projects and programmes will be most welcome. It includes practical, down-to-earth suggestions for locating an appropriate company, making the initial contact, negotiating a research grant and writing and reporting research results. As well as this, Get Funded! establishes a wider context of university-industry ethical concerns and makes the case for a true partnership between academia and business.

Note depending on your device, tables may view best in landscape mode.

The Alternative Guide to Postgraduate Funding May 19 2022

Raising Money for Education Oct 20 2019 Can we create a funding system that's fair to every school and every taxpayer? Or is this an impossible goal? That's the issue Monk and Brent raise. In this succinct volume, the authors offer an overview of the current trends in school funding sources, and they explain how the property tax system works. They examine the elements necessary to fair taxation and explore tax reform options that could bring in more dollars for education. This book provides real insights into the the issues surrounding how we get, and how we spend, the money for our schools. It delivers thoughtful, well-researched information for anyone who's interested in the future of public education and how we will fund it.

Complete Guide to Human Resources and the Law, 2023 Edition (IL) Dec 02 2020

TheStreet Ratings Guide to Stock Mutual Funds, Summer 2014 Feb 28 2023 *TheStreet Ratings Guide to Stock Mutual Funds* makes it easy to see exactly which stocks are on the rise and which ones should be avoided. For those investors looking to tailor their mutual fund selections based on age, income, and tolerance for risk, this

Florence Jan 23 2020 This book looks at how the human brain got the capacity for language and how language then evolved. Its four parts are concerned with different views on the emergence of language, with what language is, how it evolved in the human brain, and finally how this process led to the properties of language. Part I considers the main approaches to the subject and how far language evolved culturally or genetically. Part II argues that language is a system of signs and considers how these elements first came together in the brain. Part III examines the evidence for brain mechanisms to allow the formation of signs. Part IV shows how the book's explanation of language origins and evolution is not only consistent with the complex properties of languages but provides the basis for a theory of syntax that offers insights into the learnability of language and to the nature of constructions that have defied decades of linguistic analysis, including including subject-verb inversion in questions, existential constructions, and long-distance dependencies. Denis Bouchard's outstandingly original account will interest linguists of all persuasions as well as cognitive scientists and others interested in the evolution of language.

DVD, Blu-ray and Beyond Jul 09 2021 This book demonstrates, in contrast to statistics that show declining consumption of physical formats, that there has not been a mass shift towards purely digital media. Physical releases such as special editions, DVD box-sets and Blu-Rays are frequently promoted and sought out by consumers. And that past formats such as VHS,

Laserdisc and HD-DVD make for sought-after collectible items. These trends are also found within particular genres and niche categories, such as documentary, education and independent film distribution. Through its case studies, this collection makes a distinctive and significant intervention in highlighting the ways in which the film industry has responded to rapidly changing markets. This volume, global in scope, will prove useful to those studying the distribution and exhibition of films, and the economics of the film industry around the world.

European Structural and Investment Funds 2014-2020 Feb 22 2020 The European Structural and Investment (ESI) Funds make available more than EUR 450 billion in 2014-2020 to support Member States and regions' efforts towards the Europe 2020 strategy, as well as to promote economic, social and territorial cohesion, sustainable development of rural and maritime areas and sustainable management of natural resources. Compared to 2007-2013 cohesion policy, this new framework proposes a number of new mechanisms to ensure the ESI Funds deliver on their objectives: a sound strategic approach through Partnership Agreements and programmes, thematic concentration, the performance framework, ex ante conditionalities, a closer link to European economic governance, increased opportunities for the use of financial instruments, support to institutional capacity, minimum shares for ESF contribution and a Youth Employment Initiative specifically set out to combat youth unemployment. This guide covers the texts of the main regulations in force (Common Provisions Regulation, European Regional Development Fund, European Social Fund, Cohesion Fund, European Agricultural Rural Development Fund, European Maritime and Fisheries Fund and European Territorial Cooperation) and presents a commentary on each one.

Guide on EU Funding for the Tourism Sector 2014-2020 Oct 24 2022 Coastal and maritime tourism is Europe's largest tourism sub-sector. In 2014, nearly half of the nights spent in EU tourist accommodations were spent in coastal areas. Coastal and maritime tourism is also the largest single maritime economic activity in terms of jobs (3,2 million jobs) and value added (over 180 billion Euros). With more than one third of all tourism businesses in Europe, the sustainable growth of the sector can be particularly relevant for young people, as 45% of tourism workers are between 16 and 35 years old. Its importance and untapped potential was acknowledged by the Commission's Communication "A Strategy for more Growth and Jobs in Coastal and Maritime Tourism", adopted in February 2014. Coastal and maritime communities are vibrant and full of innovative ideas worth supporting. While EU funds are available, access to them can be challenging, in particular for first time applicants. A "Guide on EU Funding for the Tourism Sector" has therefore been prepared by the Commission in 2014 and is regularly updated. This Annex provides more examples of funded projects in maritime and coastal tourism, with greater details, as announced in the above-mentioned Strategy.

Costing and Pricing in the Digital Age Jun 27 2020 The proliferation of electronic information services has been retarded as much by the novel aspects of the pricing and accounting of resources they represent as by fear of technology or tight budgets. Library provision poses special problems as it must accommodate a mixed economy: commitment to good public services, and cost-driven financial planning. Who should be responsible for network services spread across different cost centers? What are the costs that are masked by site licensing and top-slicing? Can economic and fiscal models guide those who plan for networked services? Incorporating step-by-step instructions, problem-solving techniques and broad case study material, this practical primer will help the reader address these concerns. This text is essential reading for all information providers and suppliers of electronic services, including managers in academic and public libraries, and will also be of great interest to students of librarianship and

information management.

Cohesion and Growth May 27 2020 To combat economic disparity and low growth, the European Union has established an integrated policy system that pursues increased cohesion and smart, sustainable, and inclusive growth. This integrated approach is realized through thousands of development projects and takes up more than a third of the total budget of the European Union. Despite its significance, the policy is subject to many misunderstandings and there is a lot of controversy surrounding its effectiveness. Cohesion and Growth seeks to bring clarity to these issues. It presents both the theoretical and practical aspects of EU intervention, a critical contribution to the understanding of the anatomy of the problems and the way to apply effective solutions to them, and a systematic view of the issues at each of the subsequent stages of the whole policy cycle. Offering an authoritative analysis of the problems and debates involved, this book is essential reading for students, policy makers, project promoters and researchers concerned with this key area of European policy making.

St. James's Place Tax Guide 2013-2014 Nov 20 2019 The 42nd annual edition of the leading guide to taxation in Britain. This practical and user-friendly guide is a bestseller with students, professionals, accountants and private individuals, explaining in simple terms how the UK tax system works and how best to minimise tax liabilities.

Hedge Fund of Funds Investing Jan 03 2021 During recent years of extreme stock volatility, hedge funds have rightly gained the attention of private and institutional investors. Yet the large number of funds, and the lack of transparency can make hedge fund investing a challenge. Pooling together multiple hedge funds into one vehicle, the fund of funds provides a solution, combining professional management expertise with asset allocation. Joe Nicholas explains how this fast-growing form of alternative investment can be incorporated into a traditional portfolio.
