according to a new study from research firm
eMarketer. The streaming company will have 38.9
million monthly users in the US this year, eMarketer
says. That's slightly ahead of Google's Chromecast
dongles, which will have 36.9 million monthly users,
and Amazon's Fire TV devices, which will have 35.8
million monthly users. Well behind those three is
Apple. Exciting, isn't it? Read this ebook to know

*A Better World is Possible Sep 17 2022 This book is
about the global environmental and economic crisis.
It challenges the whole global economic system and
its underlying beliefs, assumptions and values. We
need a complete system transformation, a paradigm*

shift. This requires holistic and whole system thinking. It is a thoroughly hopeful book. The focus is on the possibility of a better world, a more fulfilling way of life, rather than what's wrong or what we have to give up. Could this book be the best one on the global environmental and economic crisis? The central argument is that we, ordinary people, 6.7 billion of us, need to use our people power to bring about a sustainable, fairer and non-violent world. This means putting our governments under constant pressure to do more and represent citizens' interests and not those of big business. There are many books about the global crisis. But few, aimed at empowering ordinary people, take a holistic approach. It is for those many people who are concerned, open minded and ready to act.

Better than Fiction Sep 05 2021 One of BuzzFeed's New Romances to Read This Fall! Love isn't always by the book in this charming romantic comedy about a bookseller discovering how to be the main character in her story. As a self-proclaimed book hater and a firm believer that the movie is always better, Drew Young didn't anticipate inheriting her grandma's bookstore, the Book Nook. She's in way over her head even before the shop's resident book club, comprising seven of the naughtiest old ladies ever, begin to do what they do best—meddle. Bestselling author Jasper Williams is a hopeless romantic. When he meets Drew at his Book Nook signing event, he becomes determined to show her the beauty of reading. He curates a book bucket list in exchange for her help exploring the local Denver scene for his current manuscript. From going river rafting to trying local restaurants, Drew begins to connect with Jasper in a way she only thought happened in fiction. When messy family ties jeopardize the future of the Book Nook, Drew is caught between a bookshelf and a hard place. She's reminded that real life isn't always big dreams and sweeping romance. But Jasper is the plot twist she never saw coming and he's writing a happily ever after just for them.

Images of Authority Feb 27 2021 Positing the questions What is authority? and Is it an aspiration, a necessity, a gift, or an accident? this study profiles the experiences of film directors, chief executives, research scientists, counselors, and many others to provide material to help readers think the role of authority and ambition in their own life. Providing an accessible way of understanding how the personal informs the professional and how individual history can inform rather than consume a person in a position of authority, this work is an ideal resource for anyone looking to explore the role of authority in society.
