Operations Management in the Travel Industry, 2nd Edition Mar 06 2021 Covering the applied managerial perspective of the travel industry, this book looks at the core disciplines and the application of theory to practice. Considering individual and corporate social responsibility, it teaches effective managerial skills by reviewing legal frameworks, quality management and marketing, financial management, and the management of shareholders and stakeholders. It discusses current trends such as sustainability and governmental emission targets against a background of the needs of a commercial business to innovate and increase profits. A valuable tool for both students and those working in the travel industry, this new edition includes new content, a revised structure and all-new international case studies.

Contemporary Strategy Analysis Aug 23 2022 A strategy text on value creation with case studies The ninth edition of Contemporary Strategy Analysis: Text and Cases focuses on the fundamentals of value creation with an emphasis on practicality. Topics in this edition include: platform-based competition and ecosystems of related industries; the role of strategy making processes; mergers, acquisitions and alliances; and strategy implementation. Within the twenty case studies, students will find leading companies that are familiar to them. This strategy analysis text is suitable for MBA and advanced undergraduate students.

Clausewitz on Strategy Mar 26 2020 Think about strategy and sharpen judgment in an unpredictable environment Carl von Clausewitz is widely acknowledged as one of the most important of the major strategic theorists; he's been read by Eisenhower, Kissinger, Patton, Chairman Mao, and numerous other leaders. In Clausewitz on Strategy, the Boston Consulting Group's Strategy Institute has excerpted those passages most relevant to business strategy from Clausewitz's classic text On War, the most general, applicable, and enduring work of strategy in the modern West and a source of insight into the nature of conflict, whether on the battlefield or in the boardroom. This book offers Clausewitz's framework for self-education--a way to train the reader's thinking. Clausewitz speaks the mind of the executive, revealing logic that those interested in strategic thinking and practice will find invaluable. He presents unique ideas, such as the idea that friction--unexpected interference--is an intrinsic part of strategy. The Boston Consulting Group is one of the world's leading management consulting firms whose clients include many of the world's industry leaders. Tiha von Ghyczy (Charlottesville, VA) has been a faculty member and Director of Business Projects at the Darden School of Business since 1996. While with The

Boston Consulting Group, he assumed responsibility for the practice groups in manufacturing/time-based competition and high technology. He has published numerous articles and books on vision and strategy. Bolko von Oetinger (Munich, Germany) is a Senior Vice President of BCG. Christopher Bassford (Washington, DC) is presently a Professor of Strategy at the National War College in Washington, DC, and the author of several books, including Clausewitz in English: The Reception of Clausewitz in Britain and America, 1815-1945.

Strategic Market Management Sep 12 2021 Relevant to strategic management courses as well as market management, this textbook synthesises literature in the field of strategy and can be used at both the undergraduate and MBA levels. This edition provides greater emphasis on external market analysis, including the value proposition, product category analysis, and more.

Organizational Behavior Jan 24 2020 Organizational Behavior: A Critical-Thinking Perspective, by Christopher P. Neck, Jeffery D. Houghton, and Emma L. Murray, provides insight into OB concepts and processes through a first-of-its kind active learning experience. Thinking Critically challenge questions tied to Bloom's taxonomy appear throughout each chapter, challenging students to apply, analyze, and create. Unique, engaging case narratives that span several chapters along with experiential exercises, self-assessments, and interviews with business professionals foster students' abilities to think critically and creatively, highlight real-world applications, and bring OB concepts to life.

The Strategic Management of Health Care Organizations Apr 19 2022 A comprehensive guide to effective strategic management of health care organizations. Strategic Management of Health Care Organizations provides essential guidance for leading health care organizations through strategic management. This structured approach to strategic management examines the processes of strategic thinking, consensus building and documentation of that thinking into a strategic plan, and creating and maintaining strategic momentum - all essential for coping with the rapidly evolving health care industry. Strategic Management of Health Care Organizations fully explains how strategic managers must become strategic thinkers with the ability to evaluate a changing industry, analyze data, question assumptions, and develop new ideas. The book guides readers through the strategic planning process demonstrating how to incorporate strategic thinking and create and document a clear and coherent plan of action. In addition, the all-important processes of creating and maintaining the strategic momentum of the organization are fully described. Finally, the text demonstrates how strategic managers in carrying out the strategic plan, must evaluate its success, learn more about what works, and incorporate new strategic thinking into

operations and subsequent planning. This strategic management approach has become the de facto standard for health care management as leadership and strategic management are more critical than ever in coping with an industry in flux. This book provides health care management students as well as health care administrators with foundational guidance on strategic management concepts and practices, tailored to the unique needs of the health care industry. Included are a clear discussion of health services external analysis, organizational internal analysis, the development of directional strategies, strategy alternative identification and evaluation, and the development and management of implementation strategies providing an informative and insightful resource for anyone in the field. This new eighth edition has been fully updated to reflect new insights into strategic thinking, new methods to conceptualize and document critical environmental issues, practical steps for carrying out each of the strategic management processes, industry and management essentials for strategic thinkers, and new case studies for applying the strategic management processes. More specifically, readers of this edition will be able to: Create a process for developing a strategic plan for a health care organization. Map and analyze external issues, trends, and events in the general environment, the health care system, and the service area. Conduct a comprehensive service area competitor analysis. Perform an internal analysis and determine the competitive advantages and competitive disadvantages. Develop directional strategies. Identify strategic alternatives and make rational strategic decisions for a health care organization. Develop a comprehensive strategy for a health care organization. Create effective value-adding service delivery and support strategies. Translate service delivery and support plans into specific action plans. The health care industry's revolutionary change remains ongoing and organizational success depends on leadership. Strategic management has become the single clearest manifestation of effective leadership of health care organizations and the strategic management framework's strengths are needed now more than ever. The Strategic Management of Health Care Organizations provides comprehensive guidance and up-to-date practices to help leaders keep their organizations on track.

Contemporary Strategy Analysis and Cases Apr 26 2020 NEW! Combined Text & Cases Version Considered by many to be the best textbook on Strategy, Contemporary Strategy Analysis 7th edition builds on the strengths of previous editions by introducing students to the core concepts and principles of strategy. In this most accessible strategy text, Robert M. Grant combines clarity of exposition with concentration on the fundamentals of value creation and an emphasis on practicality. In this seventh edition, a greater focus on strategy implementation reflects the needs of firms to reconcile scale economies with entrepreneurial flexibility, innovation with cost efficiency, and globalization with local responsiveness. Rob Grant eloquently combines theory with current real world examples and practice using a clearly written, logical and comprehensive

style. Contemporary Strategy Analysis 7th edition is suitable for both MBA and advanced undergraduate students. Full teachings notes to the cases will be available upon publication at the companion website www.contemporarystrategyanalysis.com Contemporary Strategy Analysis 7th Edition is also available in a text only version - ISBN: 9780470747100

Fashion Management Nov 02 2020 This new textbook, authored by a team of expert researchers and lecturers based at the London College of Fashion, is one of the first in the field to examine strategic management in the context of the fashion industry, catering specifically for students hoping to work in the sector. International in approach, the text covers all aspects of strategic management, from growth strategy and financial management to brand and supply chain management. Fashion Management's engaging style, page design and pedagogical framework makes it accessible to students at all levels, while the authors' extensive expertise ensures that the content is always underpinned by rigorous academic research. Established key topics and significant contemporary issues - such as sustainability, the digital, and corporate social responsibility - are considered from both a theoretical and practical perspective, with real-world examples drawn from high-profile, global fashion organisations. This is an ideal core textbook for those studying on undergraduate and postgraduate degree courses in fashion management and fashion marketing. The book will also be an important supplementary resource for courses in marketing, retailing and business studies, with the fashion industry providing an effective context for students to engage with the application of theory.

A Strategic Analysis of Science & Technology Policy Nov 21 2019

Strategic Marketing Management Apr 07 2021 Strategic Marketing Management (8th Edition) outlines the essentials of marketing theory and offers a structured approach to identifying, understanding, and solving marketing problems. This book delineates a comprehensive framework for articulating sound marketing strategies to guide business decisions involving product and service design, branding, pricing, sales promotion, communication, and distribution. The concepts, principles, and frameworks advanced in this book apply to a wide range of organizations, from startups to established market leaders, from packaged-goods manufacturers to value-added service providers, from nonprofit entities to for-profit corporations.

Foundations of Strategy Jun 09 2021

Foundations of Strategy, second edition is a concise text aimed at both undergraduate and Masters students. Written in an accessible style with the needs of these students in mind, the latest edition has a clear, comprehensive approach, underlined by sound theoretical depth. The content has been fully revised and updated to reflect recent developments in the business environment and strategy research. Features of the text include: 10 chapters covering all the topics in a typical one-semester course. Concise and integrated treatment of strategy implementation focusing on strategy in practice. Integration of the not-for-profit sector.

Opening and closing chapter case studies covering a range of real-world, global examples. Featured Example and Case Insight boxes throughout chapters to give an additional dimension to the subject matter. An extensive range of learning and teaching materials accompany this text including instructor manual, case teaching notes, test bank and PowerPoint slides, for instructors. Resources for students include self-test quizzes and glossary flashcards to check understanding.

After that TOWS Analysis was made for the generation of SO, TO, WO and TW strategies. All the strategies were evaluated; finally, the selected strategy for Germany and the reasons for the selection of it were explained.

Zero to one: creëer de toekomst Jan 04 2021 De volgende Bill Gates zal geen besturingssysteem ontwerpen, en de nieuwe Mark Zuckerberg geen tweede Facebook. Het kopiëren van succesvolle modellen uit Silicon Valley heeft weinig zin. We kunnen wél leren van het vermogen om iets geheel nieuws te creëren in plaats van iets toe te voegen aan wat al bestaat. Peter Thiel is medeoprichter van PayPal en investeerder in vele techbedrijven, zoals Facebook, LinkedIn en Spotify. Dankzij zijn unieke ervaring en strategische inzichten heeft hij met Zero to one dé bijbel van een nieuwe generatie ondernemers geschreven. Zijn inzichten over onder andere strategie,

teambuilding, concurrentie, verkoop en pitchen zijn breed toepasbaar. Een must read voor iedere ondernemer!

Exploring Corporate Strategy Feb 17 2022

An extensive process of market research & product development has formed the basis for this new edition. It covers all of the underlying concepts, processes of development & analytical methods of corporate strategy within a variety of organisations.

Strategic Thinking in a Hospital Setting Mar 18

2022 Translating the realities of healthcare reform and healthcare costs into competitive hospital practice is the goal of this accessible, jargon-free guide. Taking its cue from Michael Porter's highly-regarded business strategies, it offers a sound framework for hospitals looking to develop efficient, patient-centered service delivery, identifying keys to clinical, administrative, and marketing success. The book organizes business and clinical priorities where they intersect so that physicians throughout healthcare systems can understand their role in building and sustaining innovation, and leverage their strengths and system resources toward meeting patient needs. In addition, chapters review eight core strategic tools, describe possibilities for their implementation, and provide in-depth findings on Porter's methods as used in a diverse group of hospitals across Lebanon. Included in the coverage: · Porter's strategies in health care: cost leadership versus differentiation strategy · Sources of competitive advantage · How to prepare an organization for innovation · Strategic framework in a hospital setting · Application of Porter's strategies in Lebanese hospitals · Correlation between type of strategy and performance A well-designed blueprint for enhancing patient satisfaction and system cost-effectiveness, *Strategic Thinking in a Hospital Setting* is aimed at both frontline physicians in practice and those assuming administrative positions in healthcare facilities and in hospital settings in particular.

Contemporary Strategy Analysis Text Only

Jan 28 2023 Robert M. Grant combines a highly accessible writing style with a concentration on the fundamentals of value creation and an emphasis on practicality in this leading strategy text. In this new edition, he includes an even greater focus on strategy implementation that reflects the needs of firms to reconcile scale economies with entrepreneurial flexibility, innovation with cost efficiency, and globalization with local responsiveness. This edition also incorporates some of the key strategic issues of today including: post-financial crisis adjustment, the continuing rise of China, India and Brazil, and the increased emphasis on ethics and sustainability. Coverage is also provided on strategy in not-for-profit organizations. Resources for instructors include an instructor's manual, case teaching notes, test bank, teaching slides, case video clips and extra cases.

Production and Operations Analytics Oct 13

2021 Nahmias and Olsen skillfully blend comprehensive coverage of topics with careful integration of mathematics. The authors' decades of experience in the field contributed to the success of previous editions; the eighth

edition continues the long tradition of excellence. Clearly written, reasonably priced, with an abundance of expertly formulated practice problems and updated examples, this textbook is essential reading for analyzing and improving all facets of operations. Some of the material in the newest edition has been reorganized. For example, the first chapter introduces service strategy, the product/process matrix and flexible manufacturing systems, benchmarking, the productivity frontier, the innovation curve, and lean production as a strategy. The focus is slightly more international. The analysis of capacity growth planning now appears in the chapter on supply chain analytics. Aggregate planning details were added to chapter 3, including chase and level strategies in an appendix to the chapter. There is an expanded discussion on risk pooling in the chapter on supply chain strategy. The mechanics behind lean production are included in the chapter on push and pull production systems. The chapter on quality and assurance downplays sampling in favor of discussions of quality management, process capability, and the waste elimination side of lean. The separate chapter on facilities layout and location was eliminated and the information redistributed throughout the text. The authors reinforce the learning process through key points at the beginning of each chapter to guide the reader, snapshots that provide useful examples of applications to businesses, and historical notes that provide a context for the topics discussed. *Production and Operations Analytics, 8/e* provides the tools for adapting to the dynamic global marketplace.

Contemporary Strategy Analysis Text Only Jun 21

2022 Robert M. Grant combines a highly accessible writing style with a concentration on the fundamentals of value creation and an emphasis on practicality in this leading strategy text. In this new edition several topics have increased emphasis including: platform-based competition and 'ecosystems' of related industries; the role of strategy making processes/practices; mergers, acquisitions and alliances; and additional emphasis on strategy implementation.

Strategic Management Jan 16 2022

Appropriate for Strategic Management and Business Policy courses. This text supports Strategy and Policy courses by providing high-quality, class-tested cases with the underlying theme of a general manager facing issues of strategy formulation and implementation, strategic change, and personal action. Cases include those from the Richard Ivey School of Business, Harvard Business School, IMD, and independent sources.

Intellectual Property Rights and Competition in Standard Setting Feb 23 2020 Competition and intellectual property rights (IPRs) are both necessary for a market to work efficiently and to promote consumer welfare. Properly applied, intellectual property rules define a legal framework which allows undertakings to profit from their inventions. This in turn encourages competition among firms and enhances dynamic efficiency, to the benefit of consumer welfare. Standard setting represents one of the fields where the interaction between competition law and IPRs clearly comes to light. The collaborative goal of standard setting organizations (SSOs) is to

adopt and promote standards that either do not conflict with anyone's right or, if they do, are developed under condition that patents are licensed under defined terms. This book examines the tension between IPRs and competition in the standard setting field which can arise when innovators over-exploit the rights they have been granted and hold up an entire industry. The book compares EU and U.S. jurisdictions with a particular focus on the IT and telecommunication sectors. It scrutinizes those practices which could harm standard setting and its goals, looking at misleading conducts by SSOs' members which may lead to breach the EU and U.S. antitrust provisions on abuse of market power. Recent developments in EU and U.S. standard setting are analysed highlighting the differences in enforcement approaches. The book considers how the optimal balance between IPRs and industry standards can be struck, suggesting a policy model which takes into account both innovators' interests and SSOs' goals.

Contemporary Strategy Analysis 8E Text Only Wiley Etext Registration Card Nov 26 2022

End-to-End M&A Process Design Jun 28 2020

The textbook provides a holistic M&A reference model for capturing value and transaction rational in dynamic eco-systems in the 2020s. This textbook has been recommended and developed for university courses in Germany, Austria and Switzerland.

Contemporary Strategy Analysis 8th Edition Text and Cases Edition with BizLX Software Set Dec 27 2022

Strategic Marketing Management, 8th Edition Sep 24 2022

Strategic management involves formulation and implementation of the major goals and initiatives taken by a company's top management on behalf of owners, based on consideration of resources and an assessment of the internal and external environments in which the organization competes. Strategic management provides overall direction to the enterprise and involves specifying the organization's objectives, developing policies and plans designed to achieve these objectives, and then allocating resources to implement the plans. Academics and practicing managers have developed numerous models and frameworks to assist in strategic decision making in the context of complex environments and competitive dynamics. Strategic management is not static in nature; the models often include a feedback loop to monitor execution and inform the next round of planning. International Marketing Strategy Nov 14

2021 Fully updated and revised, the eighth edition of this popular text reflects the changing focus of international marketing and ensures students are fully up-to-date with the challenges posed by new patterns of development in global markets. It provides students with accessible content from around the world including newly emerging economies as well as explaining the increasingly global risks such as natural disasters and the role of digital developments. An exciting range of features including Management Challenges, Directed Study Activities and contemporary case studies guide students through the complexities of international marketing as it responds to a rapidly changing environment. *Proceedings for the 8th European Conference on Innovation and Entrepreneurship* Dec 23 2019

Entrepreneurship for Physicists May 08 2021 Physicists are very smart people. Still, when it comes to moving their ideas from university to market, they often lack the basic set of know-hows that could help them succeed in the technology transfer process. To fill this gap, *Entrepreneurship for Physicists: A Practical Guide to Move Ideas from University to Market* offers a concise analysis of the key ingredients that enable entrepreneurs to bring added value to their customers. After a short discussion on why university physicists should pay more attention to this aspect of their professional life, the book dives into a set of theories, models, and tools that could help an academic scientist transform an idea into customer added value. The reader will be introduced to effectuation theory, internal resource analysis, external landscape analysis, value capture, lean startup method, business canvases, financial projections, and to a series of topics that, albeit often neglected, do play a fundamental role in technology transfer, such as trust, communication, and persuasion. In the last chapter, the book explains how most of the concepts discussed actually find application in the career of scientists in a much broader sense.

Contemporary Strategy Analysis 8e Text Only Mar 01 2023 Everything you need to know about contemporary strategy analysis. This accessible book concentrates on the fundamentals of value creation with an emphasis on practicality. It focuses on strategy implementation that reflects the needs of firms to reconcile scale economies with entrepreneurial flexibility, innovation with cost efficiency, and globalization with local responsiveness. *Contemporary Strategy Analysis, 8th Edition* also incorporates some of the key strategic issues of today including: post-financial crisis adjustment, the continuing rise of China, India and Brazil, and the increased emphasis on ethics and sustainability. It also covers strategy in not-for-profit organizations.

ECSM 2021 8th European Conference on Social Media Oct 01 2020 Conference Proceedings of 8th European Conference on Social Media

Technology Strategy Dec 15 2021 This dynamic and beautifully written textbook takes a modern and innovative approach to strategy by placing technology at its heart, bridging the gap between general strategy texts and specialist technology and innovation literature. It addresses the challenges and opportunities

presented to organisations by disruptive technological change and takes into account the navigation of uncertain business environments. In addition to examining more established concepts and theories, the text also explores new disruptive business models and non-traditional approaches to strategy development such as effectuation, the Business Model Canvas and prediction logic. This comprehensive and critical approach is supported by a rich assortment of practical examples and cases drawn from different sectors and a range of exciting companies from all over the world, helping students and practitioners to apply theory to practice. This will be an essential core text for modules on technology strategy and innovation at upper undergraduate, postgraduate and MBA levels, and invaluable reading for senior executives and aspiring managers who seek to understand how to implement strategy in a volatile disruptive environment.

Business Policy and Strategy Jul 22 2022 A business strategic analysis book for undergraduate capstone or first year MBA students.

Sport Entrepreneurship and Innovation Jul 30 2020 This book features international authors discussing the role of entrepreneurship and innovation in the sports context. It focuses on topics such as the role of entrepreneurial marketing in sport, how technological innovation has changed the way sport is played and viewed, the globalization of sport as a product and service, the new types of sports that have emerged, athlete entrepreneurs and their related business endeavors and how sport influences innovation in other industries. The main themes of the book include: 1) the development of sport entrepreneurship and innovation, 2) entrepreneurship and sport, 3) innovation in sport, 4) internationalization and entrepreneurial behavior in sport, 5) entrepreneurial sport marketing, 6) sport in entrepreneurial universities and 7) the future for sport entrepreneurship and innovation. This interdisciplinary book will appeal to entrepreneurship, innovation and sport management scholars, students and practitioners.

The Strategy Planning Process Aug 11 2021 Developing future strategies for a company is an important and complex task, and forms the core issue in this book. A company's strategy defines its future direction, specifying its desired market position and key competitive advantages both at the level of market offers and of resources. This book provides clear, straightforward advice for professionals: after a brief introduction to strategic planning, a heuristic process for determining future strategies is presented. It shows how to analyze a company's current situation, develop and assess options for the future, and define implementation projects. Throughout the book, detailed recommendations are illustrated with the help of numerous concrete examples. As a result of studying applications of the book in practice, the second edition benefits from a simplified, hands-on analysis and planning process at the business level.

Investment Analysis and Portfolio Management Aug 31 2020 Used extensively by professionals, organizations, and schools across the country, INVESTMENT ANALYSIS AND PORTFOLIO

MANAGEMENT, Tenth Edition, combines solid theory with practical application in order to help students learn how to manage their money so that they can maximize their earning potential. Filled with real-world illustrations and hands-on applications, this text takes a rigorous, empirical approach to teaching students about topics such as investment instruments, capital markets, behavioral finance, hedge funds, and international investing. It also emphasizes how investment practice and theory are influenced by globalization. In addition, this tenth edition includes new coverage of relevant topics such as the impact of the 2008 financial market crisis, changes in rating agencies and government agencies such as Fannie Mae and Freddie Mac, global assets risk-adjusted performance and intercorrelations, and more. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. **ECIW2009- 8th European Conference on Information Warfare and Security** Feb 05 2021

Entrepreneurship and Small Business May 28 2020 The new edition of this market-leading textbook provides a holistic introduction to the academic study of entrepreneurship and offers practical guidance for prospective entrepreneurs. Adopting a life-cycle view of a business from start-up to maturity, it explores the many stages and forms of entrepreneurship. With an international outlook and expert synthesis of both theoretical foundations and lessons from real-life business practice, the book offers a complete course guide, fostering entrepreneurial talent, thinking and skills. The author's engaging style and unrivalled expertise drawn from a long-ranging career (as an academic, accountant and entrepreneur) make the book accessible and authoritative. This is an ideal textbook for those studying Entrepreneurship or Small Business on undergraduate business or management degree courses, as well as on MBA programmes. It will also appeal to those looking to launch their own businesses. New to this Edition: - Updated international case studies from entrepreneurs and small businesses, ranging from Oman to Australia - First-hand, detailed stories from real-life entrepreneurs in brand new video interviews integrated throughout the text - Increased and integrated coverage of social and civic enterprise and hot topics such as effectuation and lean entrepreneurship *ECIC2016-Proceedings of the 8th European Conference on Intellectual Capital* Jul 10 2021 **Sustainability and Net Zero THE BUSINESS OF BUSINESS** Oct 21 2019 The 'global commons' or the vast range of resources shared by Earth's populations is at risk. We are reaching the planetary systems tipping points as the consequences of the over-exploitation of earth's resources manifest. From the initial steps to control the environment on a vast scale - the discovery of fire - Humans have progressed through harnessing extra somatic energy to energize agriculture, production, transportation, and electrification. These epochal shifts have brought unprecedented improvements in the quality of life for many people. But these transitions have been supported by the global exploitation of Earth's resources, which has led to ecological

degradation and climate change. Whatever we do to address these challenges, there has to be more economic adaptation. However, the pragmatic response is to avoid activities that are increasing human vulnerability and causing climate change. Human progress is not without problems. While income and prosperity have increased in present value terms, so has the accumulation of greenhouse gases in the atmosphere and the degradation of the ecosystem. Corporations' exploitation of earth's resources to create shareholder value is at the centre of this degradation. The anthropocentric accumulation of greenhouse gases mostly carbon dioxide is unanimously agreed upon among scientists as the leading cause of climate change. The main culprit for this is the combustion of fossil fuels. Carbon dioxide, a gas once considered innocuous, has become the very definition of anthropogenic climate change. This book explores the global initiatives that corporations and businesses can leverage in addressing the challenges posed by climate change and related issues such as energy transition and material depletion. Chapter 1 outlines the historical epochal transitions that have contributed to environmental and ecosystem degradation. Understanding these shifts provides hints as to how future shifts related to energy, population and the economic system will unfold. This will help in structuring solutions in a systemic manner. In part 1, we tackle sustainability principles and their roots to understand their relevance to sustainable development. We explore the triple challenges arising from human progress including climate change, energy transition and resource depletion. In part 2, we review best practices from reputable organisations to learn how they navigate sustainability challenges. And in part 3 we gather the principles, strategies and best practices into a practitioner guideline to help those starting on the sustainability and NetZero transition to provide direction and know-how. The premise of the book draws from this insight by Peter Drucke: "Every single social and global issue of our day is a business opportunity in disguise". Thus, Sustainability and NetZero: the Business of Business is an appropriate title to create awareness of the role of Business in

society. There are opportunities embedded in the NetZero transition such as the green capex revolution, reducing emissions in ways that lower operational costs, and reducing the risk of non-compliance in the wake of mandatory non-financial disclosures. The ESG strategy and practice guidelines outlined in the book greatly help in a world of Volatility, uncertainty, complexity and ambiguity. The book closes with new developments that have been made towards the NetZero transition and the challenges that remain primarily in the four material pillars of modern civilization including cement, steel, ammonia, and polymers. The developing world will still need vast quantities of these high-energy and carbon-intensive materials to build their vital infrastructure, feed the growing population and provide consumer products. This confounds the climate crisis and shows the intractable nature of the challenge that needs global collaboration from governments, civil society, corporations, NGOs and individuals. We need positive impact businesses.
