[The 21st Century Economy--A Beginner's Guide](#) Feb 18 2022 A comprehensive, accessible guide to understanding today's global economy, from the author of the bestselling *A Beginner's Guide to the World Economy*. While reporting on today's world, business and mainstream media alike use terms and mention trends that even the savviest consumer may find baffling. In his latest book, Randy Charles Epping uses compelling narratives and insightful analogies to clearly and concisely explain the rapidly changing way business is done in the twenty-first century, without a single chart or graph. Epping defines key ideas and commonly used words and phrases like carbon footprint, WTO, economy of scale, NAFTA, and outsourcing. He also illustrates how central banks help navigate global crises and drive the global economy, discusses the benefits of Green Economics, shows how trade wars can be avoided, and explains the virtual economy, where multimillion dollar transactions take place in the blink of an eye. Complete with 89 easy-to-master tools for surviving and thriving in the new global marketplace and an extensive glossary, *The 21st Century Economy: A Beginner's Guide* is essential reading for anyone interested in understanding the complex economy of the world in which we live.

**Mind Power Into the 21st Century\*** Jan 17 2022

**Kapitaal in de 21ste eeuw** Dec 28 2022 Een van de grootste problemen van de economie is de opeenhoping en de verdeling van kapitaal. Dat hangt nauw samen met problemen van ongelijkheid, van concentratie van welvaart en van economische groei. Bevredigende oplossingen voor die problemen waren tot nu toe moeilijk te vinden. Theorieën te over, maar relevant historisch onderzoek was niet voorhanden. In *Kapitaal in de 21ste eeuw* analyseert Thomas Piketty een groot aantal gegevens uit de laatste twee eeuwen en uit twintig landen. Zo weet hij fundamentele economische en sociale processen bloot te leggen. Hij toont aan dat de moderne economische groei en de spreiding van kennis ons in staat hebben gesteld om de ongelijkheid op apocalyptische schaal die Marx had voorspeld te voorkomen. Maar de diepere structuur van kapitaal en ongelijkheid is er in wezen niet door veranderd, zoals we in ons optimisme na de Tweede Wereldoorlog dachten. De belangrijkste oorzaak van de ongelijkheid is de tendens dat de opbrengst op kapitaal groter is dan de economische groei - iets wat nu tot extreme ongelijkheid dreigt te leiden. Het wakkert de onvrede aan en ondermijnt democratische verworvenheden. Het is aan de politiek om die tendens in te tomen. *Kapitaal in de 21ste eeuw* is een buitengewoon ambitieuze onderneming, waarvan de grote waarde alom wordt erkend. Het is een herbezinning op de economische geschiedenis en het dwingt ons de werkelijkheid nuchter onder ogen te zien.

[Epistemology in the 21st Century: Five Works](#) Aug 12 2021 Five distinctively modern works on the theory of knowledge. Table of Contents The Basic Principles of Knowledge Management Epistemology in an Hour A Crash Course in Epistemology Epistemology Empiricism and Its Limits

**Information Retrieval** Jan 05 2021 This book is an essential reference to cutting-edge issues and future directions in information retrieval Information retrieval (IR) can be defined as the process of representing, managing, searching, retrieving, and presenting information. Good IR involves understanding information needs and interests, developing an effective search technique, system, presentation, distribution and delivery. The increased use of the Web and wider availability of information in this environment led to the development of Web search engines. This change has brought fresh challenges to a wider variety of users' needs, tasks, and types of information. Today, search engines are seen in enterprises, on laptops, in individual websites, in library catalogues, and elsewhere. Information Retrieval: Searching in the 21st Century focuses on core concepts, and current trends in the field. This book focuses on: Information Retrieval Models User-centred Evaluation of Information Retrieval Systems Multimedia Resource Discovery Image Users' Needs and Searching Behaviour Web Information Retrieval Mobile Search Context and Information Retrieval Text Categorisation and Genre in Information Retrieval Semantic Search The Role of Natural Language Processing in Information Retrieval: Search for Meaning and Structure Cross-language Information Retrieval Performance Issues in Parallel Computing for Information Retrieval This book is an invaluable reference for graduate students on IR courses or courses in related disciplines (e.g. computer science, information science, human-computer interaction, and knowledge management), academic and industrial researchers, and industrial personnel tracking information search technology developments to understand the business implications. Intermediate-advanced level undergraduate students on IR or related courses will also find this text insightful. Chapters are supplemented with exercises to stimulate further thinking.

*The 21st Century Superhero* Sep 13 2021 Superhero films are one of the most enduring genres of cinema, and their

popularity is only increasing in the 21st century. These ten critical essays explore the phenomenon through the lenses of numerous academic disciplines, and cover topics such as the role of globalization in the formation of superhero narratives, the shifting nature of masculinity and femininity in the superhero world and the state of the genre today. Of particular interest is the way these narratives, however fantastic, abstract, futuristic or simplistic, resonate with specific events in the world and function as starting points for discussion of contemporary sociopolitical conflicts.

**Sams Teach Yourself Java in 21 Days (Covers Java 11/12)** Dec 04 2020 In just 21 days, you can acquire the knowledge and skills necessary to develop applications on your computer, web servers, and mobile devices. With this complete tutorial you'll quickly master the basics and then move on to more advanced features and concepts. Completely updated for Java 11 and 12, this book teaches you about the Java language and how to use it to create applications for any computing environment. By the time you have finished the book, you'll have well-rounded knowledge of Java and the Java class libraries. No previous programming experience required. By following the 21 carefully organized lessons in this book, anyone can learn the basics of Java programming. Learn at your own pace. You can work through each chapter sequentially to make sure you thoroughly understand all the concepts and methodologies, or you can focus on specific lessons to learn the techniques that interest you most. Test your knowledge. Each chapter ends with a Workshop section filled with questions, answers, and exercises for further study. There are even certification practice questions. Completely revised, updated, and expanded to cover the latest features of Java 11 and 12 Learn to develop Java applications using NetBeans—an excellent programming platform Easy-to-understand, practical examples clearly illustrate the fundamentals of Java programming Discover how to quickly develop programs with a graphical user interface Find out about JDBC programming with the Derby database Learn how to use Inner Classes and Lambda Expressions Learn rapid application development with Apache NetBeans Create a game using Java

**Industry 4.0: Industrial Revolution of the 21st Century** Feb 24 2020 This book addresses a wide range of issues relating to the theoretical substantiation of the necessity of Industry 4.0, the development of the methodological tools for its analysis and evaluation, and practical solutions for effectively managing this process. It particularly focuses on solving the problem of optimizing the development of Industry 4.0 in the context of knowledge economy formation. The book presents the authors' approach to studying the process of Industry 4.0 formation in connection with knowledge economy, and approach that allows the process to be studied in connection with the existing socio-economic and technological conditions. As a result, the conclusions and recommendations could be applied to modern economic systems and do not require any further elaboration. The presented research is based on modern economic theory scientific and methodological tools, including the tools of the theory of economic cycles, the theory of games, and the institutional economic theory. Raising awareness of the problem of Industry 4.0 formation, the book is of interest to a wide audience, including not only specialists and experts with a detailed knowledge of the topic, but also scholars, lecturers, and undergraduates of various fields of economics.

**Forecasting Nuclear Proliferation in the 21st Century** Sep 01 2020 This two-volume set is the output from an extensive research project focused on developing the first forecasting model for nuclear proliferation. The Theory volume consists of an introduction and nine additional chapters devoted to key theoretical issues regarding the dynamics of nuclear weapons (non) proliferation.

**Hospital 21** May 21 2022 38th UIA/PHG International Seminar on Public Healthcare Facilities, Paris, May 29-31, 2018

**The Kingdom of God in the 21st Century** Oct 02 2020 The kingdom of God is the called out people of God (Col. 1:13-14) from the world of darkness as the spiritual family of Christ. The kingdom of God is bound up in the age of grace and truth and is the fulfillment of God's promise to Abraham to bless all nations of people. The kingdom of God in prophecy started during the Roman rule (Dan. 2:44) with the Jews at Pentecost in Jerusalem (ca. 33 AD) and then to the Gentile world to include our present age. Jesus reigns as Lord and Christ over His church / the kingdom of God in the twenty-first century and continues to call people of every nation to walk with Him by faith, repentance, and baptism in His name until the consummation of all things and His second return. The Christian Age is the eschatology (Last Day events) of Jesus' reign under the leadership of the Holy Spirit through the preached Word. The salvation of the Gentile nations is the final work of God to restore what was lost in heaven through Satan and his angels (Rev. 12:7-10). When Jesus appears, his reign ends, and the spiritual family and the church of Christ / kingdom of God will go home.

**The Christian Right & US Foreign Policy in the 21st Century** Nov 27 2022 This book is about the role of the Christian Right in the US foreign policy decision making process. It reveals that the Christian Right has long been fascinated with some international issues in general and US foreign policy in particular. The interest of the movement in international issues increased markedly during the George W. Bush administration (2000–2009). During this period, the movement successfully widened its activism from domestic social conservative issues to foreign policy issues by participating in, articulating and lobbying for its religious version of American foreign policy. In assessing the role of the Christian Right in US foreign policy making, this dissertation examines aspects of

US foreign policy, namely Israel, international religious freedom and global humanitarianism. Based on these three aspects, the Christian Right is seen as skilled in framing and defining issues. The Christian Right seems effective in selecting and prioritizing international issues that have a reasonable chance of being picked up on by foreign policy decision makers, especially in Congress. Moreover, the Christian Right has shown its maturity in seeking engagement and cooperation with other organizations, regardless of whether they are secular or religious, to advance its international goals. Finally, in pursuing and conveying its international agenda, the Christian Right has adopted a more moderate and mundane approach. Instead of using its traditional religious rhetoric, the Christian Right has successfully projected its foreign policy preferences into the conventional realist discourse of American foreign policy that was largely based on the objective of national interest and national security.

**Homo Deus** Nov 22 2019 Op onnavolgbare wijze beschrijft Yuval Noah Harari in zijn bestseller Sapiens 70.000 jaar menselijke evolutie, maar met Homo Deus richt hij zich op de toekomst. Met zijn kenmerkende vermenging van wetenschap, geschiedenis en filosofie onderzoekt Harari de dromen en nachtmerries van de eenentwintigste eeuw - van onsterfelijkheid tot kunstmatig leven. Hij stelt fundamentele vragen: Waar gaan we naartoe? Hoe beschermen we onze kwetsbare wereld tegen onze eigen verwoestende krachten? En als we in staat zijn door technologische vooruitgang ons lichaam en onze geest te verbeteren, wat gebeurt er dan met de mensen die zich niet laten upgraden? Wat voor sociale gevolgen zal deze tweedeling hebben? Volgens Harari is het essentieel om meer te begrijpen van de technologische revoluties om ons heen, anders hebben we geen invloed op de koers van onze toekomst. Dit is de volgende stap in onze evolutie. Dit is Homo Deus.

**The United Nations in the 21st Century** Jun 22 2022 The United Nations in the 21st Century provides a comprehensive yet accessible introduction to the United Nations, exploring the historical, institutional, and theoretical foundations of the UN. This popular text for courses on international organizations and international relations also discusses the political complexities facing the organization today. Thoroughly revised throughout, the fifth edition focuses on major trends since 2012, including changing power dynamics, increasing threats to peace and security, and the growing challenges of climate change and sustainability. It examines the proliferating public-private partnerships involving the UN and the debates over reforming the Security Council and the Secretary-General selection process. This edition also includes new case studies on peacekeeping and the use of force in the Democratic Republic of Congo and Mali, transnational terrorism and the emergence of ISIS, the Security Council's failure to act in Syria, the Syrian and global refugee/migrant crisis, and the conclusion of the Millennium Development Goals and framing of the Sustainable Development Goals.

**Java in 21 Days, Sams Teach Yourself (Covering Java 8)** Feb 06 2021 In just 21 days you can acquire the knowledge and skills necessary to develop applications on your computer and apps that run on Android phones and tablets. With this complete tutorial you'll quickly master the basics and then move on to more advanced features and concepts. Completely updated for Java 8, this book teaches you about the Java language and how to use it to create applications for any computing environment and Android apps. By the time you have finished the book, you'll have well-rounded knowledge of Java and the Java class libraries. Using your new skills, you will be able to develop your own programs for tasks such as web services, database connectivity, XML processing, and mobile programming. No previous programming experience required. By following the 21 carefully organized lessons in this book, anyone can learn the basics of Java programming. Learn at your own pace. You can work through each chapter sequentially to make sure you thoroughly understand all the concepts and methodologies, or you can focus on specific lessons to learn the techniques that interest you most. **Management Challenges for the 21st Century** Mar 19 2022 Peter F. Drucker discusses how the new paradigms of management have changed and will continue to change our basic assumptions about the practices and principles of management. Forward-looking and forward-thinking, *Management Challenges for the 21st Century* combines the broad knowledge, wide practical experience, profound insight, sharp analysis, and enlightened common sense that are the essence of Drucker's writings and "landmarks of the managerial profession." --Harvard Business Review

**Isadora Duncan in the 21st Century** Jul 23 2022 Part artistic study, part intimate memoir, this book illuminates the technique and repertory of American dancer Isadora Duncan (1877-1927) and her enduring legacy from the perspective of an artist and scholar who has reconstructed and performed her work for 35 years. Providing an overview of modern activities and trends in the teaching and performance of Duncan's dance, the author describes her own work directing The Isadora Duncan Dance Ensemble, the company that sought to implement Duncan's mission to create not a school of dance but "a school of life."

**Rastafari In The 21st Century - What Life has Taught I&I: Volume One** Dec 16 2021 Volume One of "Rastafari In The 21st Century: What Life Has Taught I&I" contains the previously unwritten history of the First Generation of Rastafari Elders. Today, many of that First Generation of Rastafari Elders are transitioning on to become Ancestors, and as they do so, their colorful and important life stories are already starting to fade from the collective memory of the people of Jamaica and the world. This well-illustrated and thought-provoking volume was written as a literary tribute lest the world forget to highlight and honor those Rastafari Elders who sacrificed everything and endured so much with so little in order to establish a new Cultural Tradition and Way of Life. The colorful biographies of the individual Rastafari Patriarchs and Matriarchs included in this Tribute to the Elders provide a panoramic, comprehensive and illuminating insight into the cultural mindset and political worldview of the Rastafari. The revealing biographies of the selected Rastafari Elders also give mind-boggling and eye-opening accounts of the harrowing and dangerous life of the once socially ostracized and publicly despised Rastafari activists.

**De macht van nietsdoen** Jan 25 2020 Met 'De macht van nietsdoen. Een radicaal verzet tegen de aandachtseconomie' schreef Jenny Odell een krachtige kritiek op de kapitalistische krachten die om onze aandacht strijden. Niets is vandaag de dag moeilijker dan nietsdoen. Maar in een wereld waarin we er alleen maar toe doen als we 24/7 'aan' staan, is nietsdoen misschien wel de belangrijkste vorm van verzet. Jenny Odell schreef een kritiek op de kapitalistische krachten die om onze aandacht strijden. We gaan anders denken over productiviteit, krijgen opnieuw verbinding met onze omgeving en ontdekken weer betekenisvolle vormen van geluk en echte aandacht.

**Bangladesh's Maritime Challenges in the 21st Century** Apr 27 2020

**Redefining Children's Ministry in the 21st Century** Sep 25 2022 Research shows that by the time many children are thirteen years old they feel they know everything there is to know about the Bible and God, and feel no further need of attending church. Could this be because we have underestimated their spiritual potential, and been content to feed them a repetitive spiritual diet of basic Bible stories over and over again? Just how many ways can we repackage Noah's Ark anyway? It's time the collective body of Christ re-evaluate children's ministries and redefine what valid, disciple-making, equipping children's ministry really is.

**Expectations of Librarians in the 21st Century** Mar 07 2021 A collection of 53 essays that provide personal insights into the personal and educational qualities professional librarians hope to find in the newest entrants to the field.

**Foreign Policy Challenges in the 21st Century** May 29 2020 This book explores the emerging challenges to foreign policymaking in liberal democracies and the adequacy of the 'marketplace of ideas' in responding to these challenges. Looking at foreign policy challenges as diverse as democratization, globalization and climate change, from the role of values in environmental debate to the Iraq invasion and the war on drugs, the contributors critically examine how key global issues are framed in public debate across three of the world's most mature liberal democracies: the US, the UK, and Australia. The book contributes to a better understanding of the limits of the 'marketplace of ideas' in helping to produce wise and accountable policy, and how those limits may soon be overcome. Examining how key global issues are framed in foreign policy debate across a range of liberal democratic societies, this book will strongly appeal to academics and students with an interest in international relations, policymaking and politics, as well as to governmental and think tank policymakers and advisors.

**Single-Parenting in the 21st Century** Jun 29 2020

**Women and Inequality in the 21st Century** May 09 2021 Recent books have drawn attention to an unfinished gender revolution and the reversal of gender progress. However, this literature primarily focuses on gender inequality in the family and its effect on women's career and family choices. While an important topic, these works? are critiqued for being particularly attentive to the concerns of middle-class, heterosexual, White women and ignoring or erasing the issues and experiences of the vast majority of women throughout the United States (and other countries). ? Women and Inequality in the 21st Century is an edited collection that addresses this dearth in the current literature. This book examines the continued inequities navigated by women occupying marginalized social

positions within a "nexus of power relations." It addresses the experiences of immigrant women of color, aging women, normative gender constraints faced by lesbian and gender non-conforming individuals assigned the female gender at birth, religious constraints on women's sexual expression, and religious and ethnic barriers impeding access to equality for women across the globe. Contributors to this collection reflect varying fields of inquiry--including sociology, psychology, theology, history, and anthropology. Their works employ empirical research methods, hermeneutic analysis, and narrative to capture the unique gender experiences and negotiations of diverse 21<sup>st</sup>-century women. he female gender at birth, religious constraints on women's sexual expression, and religious and ethnic barriers impeding access to equality for women across the globe. Contributors to this collection reflect varying fields of inquiry--including sociology, psychology, theology, history, and anthropology. Their works employ empirical research methods, hermeneutic analysis, and narrative to capture the unique gender experiences and negotiations of diverse 21<sup>st</sup>-century women.

**Small Business Management in the 21st Century** Jan 29 2023 "Small Business Management in the 21st Century offers a unique perspective and set of capabilities for instructors. The authors designed this book with a "less can be more" approach, and by treating small business management as a practical human activity rather than as an abstract theoretical concept. The text has a format and structure that will be familiar to you if you use other books on small business management. Yet it brings a fresh perspective by incorporating three distinctive and unique themes and an important new feature (Disaster Watch) which is embedded throughout the entire text. These themes assure that students see the material in an integrated context rather than a stream of separate and distinct topics."--Open Textbook Library.

*Celtic Myth in the 21st Century* Jul 11 2021 This fascinating book offers twelve chapters by experts in the field of Celtic mythology--from myth and the medieval to comparative mythology and the new cosmological approach. Celtic Myth in the 21st Century offers a wide range of innovative research that leads readers on an adventure through the wonders of Celtic history: the possible use of hallucinogenic mushrooms in ancient Ireland to the mental mapping in the interpretation of the Irish legend Táin Bó Cuailgne. It also looks at the modern integration of established scholarship with new findings that have recently emerged at the Indo-European level; these developments have the potential to open up the whole field of mythology in a new way. An exciting addition to existing scholarship, Celtic Myth in the 21st Century is the first book to offer a view of Celtic mythology as the reflection of a prehistoric state that it is possible to recover through integrated cosmological enquiry.

*Down Syndrome* Apr 20 2022 Providing a comprehensive survey of the clinical, educational, developmental, psychosocial, and transitional issues relevant to people with Down syndrome, this book addresses the needs of family members, caregivers, and professionals alike. Edited in association with the National Down Syndrome Society, this up-to-date treatment incorporates the newest developments concerning sexuality, inclusion, transition into adulthood, and legislation, as well as a discussion of the Human Genome Project and the sequencing of chromosome 21.

**21 lessen voor de 21ste eeuw** Mar 02 2023 In Sapiens boog Yuval Noah Harari zich over het verleden, in Homo Deus over de toekomst; nu laat hij zijn licht schijnen over het heden. Wat zijn de uitdagingen van onze tijd? Hoe beschermen we onszelf tegen een nucleaire oorlog, ecologische rampen en technologische bedreigingen? Wat is de oorzaak van de opkomst van populistische leiders als Donald Trump? Hoe waken we ons tegen fake news? Moeten we ons voorbereiden op een nieuwe wereldoorlog? Wat moeten we denken van het opkomend nationalisme? Vragen de mondiale problemen die op ons afkomen om andere politieke systemen? Is het een goed idee dat we onze data overdragen aan enkele grote commerciële spelers, of wordt het tijd om het eigendom van data te reguleren? En wat wordt de grote nieuwe wereldmacht, Amerika, Europa of China? In dit boek beantwoordt Yuval Noah Harari de 21 meest urgente vragen van onze tijd.

*Research in the Social Scientific Study of Religion, Volume 21* Mar 27 2020 This volume includes a section on spirituality and hope that brings together theoreticians and practitioners who present original research on this important topic. Alongside this section are papers presenting studies on civic participation, suffering with God and spirituality.

**Religion in the 21st Century** Oct 26 2022 Religion in the 21st century is a phenomenon that cannot be taken for granted, and is undergoing transformations that present us with new challenges both from a scholarly and societal perspective. The nuanced and multifaceted way in which these features are analyzed in this book should be welcomed by all who are interested and concerned with the role of religion on the contemporary scene. The combination of accessible scholarship and challenging positions makes this a book for everyone who is interested in religion in the secularized parts of the world. The volume contributes to an understanding of how it is not, after all, a contradiction to be both fully modern and religious. Jan-Olav Henriksen, Norwegian School of Theology, Oslo, Norway --

**Journalism for the 21st Century** Nov 15 2021 This is a book about the news--the way it is written and the forms it takes. It examines the relation between the content of public information and the potential affect of new technologies on the degree and type of information available in the public forum. Tom Koch uses concrete, casebook examples to demonstrate the degree to which news information can be changed through the efficient and cost effective application of online bibliographic resources accessed by personal computers. Koch argues that new, computer-based technologies will revolutionize news and public information by fundamentally altering the relation between writer and news subject. He shows how electronic databases, by making enormous amounts of data on virtually every subject available to the news writer or editor, have changed the equation which has defined news since at least the 1920s. To make clear the degree to which these systems will transform news, the author demonstrates how online resources can be used efficiently and inexpensively by generalists. Practical issues of online use are presented within the context of both the parameters of contemporary journalism and the means by which these technologies address its limits. Two separate chapters, one describing search technologies and the other reviewing database organization will be of practical value to both neophyte and journeyman news and public information writers alike. Using examples from his own and other's work, Koch demonstrates ways to carry out simple and inexpensive searches. His book will be especially important to the news or research librarian, reporter, and the public information or public relations writer.

*Challenges For International Organizations in the 21st Century* Jun 10 2021 This book brings together two major developments of the past decade: the collapse of the Soviet Union on the political side and "globalization" on the economic side. It shows that both of these drastic changes resulted in an increasing demand for regulation and guidance by international organizations, which on their side feel an increasing pressure for adjustment to the changed international agenda.

Psychology Applied to Modern Life: Adjustment in the 21st Century Jul 31 2020 Filled with comprehensive, balanced coverage of classic and contemporary research, relevant examples, and engaging applications, this text shows you how psychology helps you understand yourself and the world, and uses psychological principles to illuminate the variety of opportunities you have in your life and your future career. While professors cite this bestselling book for its academic credibility and the authors' ability to stay current with "hot topics," students say it's one text they just don't want to stop reading. The text and associated workbook are highly readable, engaging, and visually appealing, providing you with a wealth of material you can put to use every day. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**Size Matters!** Dec 24 2019 This book is the outcome of the 2017 edition of the Verbier Art Summit in January 2016, organized in cooperation with museum director Beatrix Ruf and her curatorial team at the Stedelijk Museum Amsterdam. By sharing the content of the Summit through this publication the global dialogue continues. The theme of the Verbier Art Summit and this accompanying publication, SIZE MATTERS! (DE)GROWTH OF THE 21ST CENTURY ART MUSEUM has been chosen by museum director Beatrix Ruf. It is based on her personal experiences with the transformations of these institutes and their corresponding increase in scale, but also about issues that every museum is faced with, struggles with, reflects on how to address, and considers in a self-critical way. Acting as a cultural incubator for innovative ideas and change, the Verbier Art Summit is an international platform erected to optimise the role of art in a global society. Their mission is to connect thought leaders to key figures in the art world and thus position the Summit as a catalyst for innovation and change. The realization of the 2018 Verbier Art Summit (January 18-20, 2018) will be in the hands of museum director Daniel Birnbaum of the Moderna Museet in Stockholm, Sweden. Book designed by Irma Boom.

**New Traditions in Business** Apr 08 2021 A fundamental transformation--what many are calling a "paradigm shift"--is underway today in our business and work world. This book brings together paradigm thinking in business. Writers such as Peter Senge and William Miller focus on transforming business toward greater emphasis on meaningful work, spiritual values, social responsibility, and visionary leadership.

**The Growth of Biofuels in the 21st Century** Aug 24 2022 This book provides a timely and insightful analysis of

the expansion of biofuels production and use in recent years. Drawing on interviews with key policy insiders, Ackrill and Kay show how biofuels policies have been motivated by concerns over climate change, energy security and rural development.
