Electronic Properties, Instrumentation, and Measurement

Oct 21 2019 **Bioanalytical Instrumentation** Mar 18 2022

Concerned with application of special instrumental methods to problems in biology. Describes the use of x-ray crystallography in biochemistry. Reviews the application of both transmission microscopy and scanning probe microscopy to biological problems. Discusses well-developed techniques used primarily in clinical laboratories.

Evaluation of Increased Pavement Loading: Computer program documentation

Aug 31 2020 e effects of increased truck loads and higher tire pressures on performance of flexible pavements were investigated in this project. This Volume 1 report presents the research performed and the useful results obtained. Tire pressure studies were performed using both in field measurements and theoretical simulations of the effects of tire pressures on pavements. Volume 2, provides documentation for all of the computer programs developed on the project
